## WAR TIME COOKERY

**Dishes From Cheaper Cuts of Meat.**

**Braised Beef or Pot Roast.**—Brown the meat on all surfaces, place in receptacle covered kettle or other receptacle with small quantity of water and flavoring vegetables, such as onion, carrot, etc., and cook until tender. Brown the meat helps to keep in the juices. The slow cooking in water and steam makes for tenderness.

**Savory Beef.**—Cut a pound of top round of beef into two-inch pieces and sprinkle with flour; fry a small piece of salt pork until light brown; add beef and fry for about 35 minutes, stirring occasionally. Cover with water and simmer about two hours (fireless cooker may be used); season with salt and pepper or paprika. Serve with a sauce made as follows: Cook in water 20 minutes a cup of tomatoes, put of a stalk celery, one half onion, three whole cloves, three peppercorns and one blade of mace or a very little nutmeg. Rub through a sieve and add to the gravy from the meat, thicken with flour moistened with cold water, and season with salt and paprika. Noodles, carrots, hominy, or chopped potatoes, braised in season, may be served on the same dish.

**Casserole Roast.**—(A casserole may be improvised by using a heavy earthenware dish covered with a plate.) Brown round or rump of beef in fat from a slice of fried pork. Place in casserole with chopped carrot, turnip, onion, celery, etc., around it. Add two cups of water and cover with a lid and cook in hot oven three hours, basting occasionally.

**Extending the Flavor of Meat.**

**Stew with Pumpkins.**—Make stew from small pieces of meat and vegetables, cooking it on stove or in fireless cooker. Serve with dumplings made as follows: For a stew using one pound of meat mix a little more than one cup of flour with one teaspoonful of baking powder and a pinch of salt; work in rounding teaspoonful of butter and mix with enough milk to form a medium stiff dough. Cut into small pieces and cook in a buttered saucepan over a kettle of boiling water or remove enough gravy from the stew to expose the meat and vegetables and add the pieces of dough—these solid materials to cook.

**Meat Pie.**—Meat pies are made most satisfactorily by first cooking the meat and vegetables as for a stew. Line a pan, earthenware dish, or casserole with biscuit dough rolled fairly thin; put in the meat, vegetables and gravy; cover with dough and bake in a hot oven.

**Meat Turnovers.**—Place any chopped cooked meat available on circles of biscuit dough about the size of saucers. Fold the dough over the meat, crimp the edges and bake in a hot oven. Vegetables may be combined with the meat filling as desired and the whole may be served with gravy.

**Veal or Beef Birds.**—Cut very thin meat into roughly rectangular pieces of a sufficient size for individual servings. Place on a platter a layer of bread crumbs, seasoned with chopped onions and other flavoring vegetable and herbs. Fold or roll up the meat and skewer in place with toothpicks. Brown the rolls in fat, remove and make gravy from the fat. Flour and mix as available. Place the rolls in the gravy and cook slowly until tender in a covered baking dish, a steamer or a fireless cooker.

## GOVERNMENT BEGINS MOVEMENT TO CARE FOR 'WAR MOTHERS'

Problem is One That Appeals to Congress and Cabinet in All Its Phases.

### INQUIRY IS UNDER WAY

Children and Maternal Parent Must Not Be Neglected Where Fathers Are Fighting for Freedom.

Washington, May 19.—(U. P.)—How the government may help "war mothers" has been discussed both in congress and in the cabinet.

"The public protection of maternity must be made a fundamental item in the war program for soldiers' families," government officials declared. Legislation is pending in congress to help to a certain extent.

"The problem is one of the most serious of our time," Secretary Keenon said. "It is one of the things that makes it seem inevitable that when war comes all progress in civilization stops."

**Study Now in Progress.**

The children's bureau of the department of labor, however, has been studying the question of maternal and child welfare and has suggested the following program as a starter:

A rural nursing service operating out of each county seat to care for mothers needing attention and assistance.

An accessible county center for maternal and infant welfare at which mothers may obtain simple information and the care of themselves and their babies.

A county maternity hospital accessible to all parts of the county, or beds in a general hospital for care of mothers.

Provision for skilled attendance, obtainable by each woman in the county.

Proper care of "war mothers" is a vital matter, Secretary Keenon said. Miss Julia Lathrop, chief of the children's bureau of the department of labor, said today.

**All Eyes Are Good.**

"It is for the public good and its cost must be met by public appropriations, not by private philanthropy. If this war is waged to make democracy prevail, the families of soldiers must be safeguarded as never before. In old wars it was taken for granted that families of soldiers must suffer from penury and famine. This war protects the health and education of children and the government compensation for soldiers must take these into account."

"As soon as the armies are mobilized, many young fathers are going to be drawn from their homes. No soldier can leave his duty to his family in the field without protecting his family before the nation's life at home. America can ill afford a nigardly attitude toward the mothers and children."

## Portland Minister Guest at Banquet

Rev. Noah Shupp Tended Banquet to Honor Fiftieth Anniversary of Service in Ministry; Makes Speech.

Monmouth, Or., May 19.—An outstanding feature of the thirty-fourth annual conference of the Oregon Evangelical association, now in session in this city, was the banquet at the Monmouth hotel Friday afternoon tendered Rev. Noah Shupp of Portland, in honor of his fiftieth anniversary of his ministerial career. At a special anniversary service held in the local Evangelical church Rev. Mr. Shupp addressed the delegates of the conference on the fiftieth anniversary.

"The present world war will have a tendency to make the present church far more spiritual and more earnest in their efforts to bring the people back to the Bible again," said Mr. Shupp. "This great war is calling out all reserve land for gardens and the raising of money to help in securing a return of property given to his former wife. He said, however, that the property he referred to had been purchased by his wife and partially with her money and that he had given her a quitclaim deed. The Millers were divorced in December, 1908, and she later married Rae.

## The Journal Woman's Calendar

By Vella Winner.

**ARE YOU WILLING TO WORK?** A girl who is unusually clever and attractive but has failed to make even a ripple in the world of affairs was bitterly complaining in one day. She could not see, she declared, why some girls with less brains could get along when she was left out of the fight.

It was this same girl of whom the story is told that she went into a business office to apply for a certain position and when remuneration was discussed stipulated a salary of \$13 a week. Her prospective employer expressed surprise, whereupon she stated quite emphatically and finally that she could not come for less; that \$13 was the sum she must have to make up the deficit in her income.

There was never a thought with her of her actual worth to the firm which was engaging her. She did not realize that for weeks or months, perhaps, until she had mastered the details of the work to be assigned to her, she would figure among the liabilities of that firm rather than the assets.

She never has allowed herself to become absorbed in any work she was doing to the exclusion of her bridges, her teas and various other outside interests.

She gives her firm the hours they demand of her—not one minute more. And so it is that when there is an opening above her some other girl gets it, or when an occasion arises for letting one employe go she is usually the one to be dropped from the payroll.

**HELPFUL HINTS**When a milk bottle has been used and it is desired to obtain the cream from it, heat the bottle until lukewarm, then chill suddenly.

If the cup in which molasses is measured is first greased with butter there will not be the waste caused by so much of the molasses adhering to the cup.

**COOKING TIPS**It is said the most successful way to bake a pound cake is to set the cakepan in a vessel of warm water in the oven, then it will rise well before being taken out. After the cake is baked, remove it, pan and all, from the water and bake in the usual way. This method is especially good when there is danger of the oven being too hot.

**CAMEL CUSTARD** Place in cup sugar. Stir until melted, scald 1 pint milk, turn milk into sugar, keep stirring, cool, beat two eggs with pinch of salt, vanilla. Bake like custard.

**TOMATO CROQUETTES** Cook together for 30 minutes 1/2 can of tomatoes, 1 tablespoon of chopped onion, 1 sprig of parsley, half a bay leaf, 3 cloves, 1/2 teaspoon of salt and a dash of cayenne; then rub through a sieve. Melt 3/4 teaspoon of butter, blend in 5 tablespoons of flour, add the strained tomato and stir and cook for 10 minutes. Dip in beaten egg, roll in fine crumbs, let stand 1 or more hours and fry in deep hot fat.

**COOKIE MAKING SECRETS**

The secret in making good cookies is to use just enough flour to roll them. Bake on buttered or oiled butter several thicknesses of white muslin, or part of an old sheet folded to fit the board will do. Sprinkle with flour. Take part of the dough, roll into a ball with light touch—never pressing hard on cookie or doughnut dough. The following recipe is fit for a king: One cup butter or mixed butter and lard, 3/4 cup of sugar, 3 good table-spoons of cold water in which dissolve 1 teaspoon of soda, 2 eggs, 1/2 teaspoon of baking powder, 1/2 teaspoon of cinnamon, small teaspoon of cloves, 1 cup of dates and nuts (not chopped, but cut fine). Bake in quick oven, not too hot. Flour to roll.

**Entirely New Way to Banish Superfluous Hair**

(Really Removes Roots and All)

Why should any woman continue to wear an ugly, humiliating growth of hair on her face now that it is known that it can be completely and quickly removed, roots and all, by the new phenetic process? The process is not to be compared with electrolysis, which is electrical or shaving methods. Phenetic is non-odorous, non-irritating, non-painful, and it can be used on any part of the face. It can be eaten without any bad effect. Beat of all, the hairs come out entire, even the roots, and are gone forever. The skin is left as smooth and hair-free as a child's.

**War Is Declared Due To Sloth and Wealth**

Dr. Jonah B. Wise Says All Must Aid in Contest Which "Will Level Men to Common Plane."

Taking for his text the exhortation of the prophet Jeremiah, Dr. Jonah B. Wise, rabbi of Temple Beth Israel, delivered a stirring address Friday noon in the Church of Our Father on the general theme, "The Nation's Soul Under War."

Attributing the cause of the war to a proud, boastful attitude, Dr. Wise pointed out that the people of the nation "had been sunken in sloth and wealth, and reveling in knowledge."

"We were told that war could not be waged, on account of the great enlightenment of the people, and of the refusal of the people to pay for the vast expenditures necessary."

"The war came because, in the church, ministers became greedy for gain; they became acrobats and preached for those who wished to laugh."

In proving the eventual benefit that the war is to be, Dr. Wise showed the necessity for every one from the toiler to the one reclining in silken ease to participate in the war, which the rabbi believes will level men to a common plane.
