any school lands. The report says:

C. E. Kenyon is now in a bank at Weiser, Idaho, and he admits that he purchased the land for the benefit of the company and at its request.

And so it proceeds. It is an story. That ought to have a doleastounding relation of sworn state- ful sound if the item ever reaches ple of the United States. It is ments that tend to confirm the at- the German battle front. torney general's allegations of fraud, land looting and lawlessness.

The people of Oregon will watch with much interest to see whether the Emergency Board will take its stand for them, or against them.

THE ROAD BONDS

ULTNOMAH county is vitally dollar state road bond pro- of 100? posal, notwithstanding the bill provides that none of the ers like Mr. Daly and Mr. Brewster or money is to be expended in the others of their class .- Oregonian Edicounty.

The growth of Portland is dependent upon the development of of Portland were about to launch great supplies of money from the state. This is so obvious it a new form of municipal govern- America thrown into the conflict ber of farmers in this district who

needs only to be stated.

MERELY A WAY STATION

TY7E HAVE seen in these articles that the northern roads dominate the railroad policy of the northwest. Their interests being on Puget Sound, they fix the railroad policy for the such a subscription to the bonds benefit of Puget Sound, and the road that should be emphat- would do more to make him think ically a Portland road, the Union Pacific, including the O-W. R. & N., or peace than was the great delease. accepts that policy.

Thus, the Union Pacific, including the O-W. R. & N., is making or the costly reverse sustained in Seattle a terminal for offshore business. It is not making Portland the long-fought slege of Verdun. such a terminal. It is maintaining steamship connections at Seattle. but none at Portland. It is building costly docks at Seattle, but none

We have seen why the Great Northern and Northern Pacific do not permit the North Bank to become a serious factor in building up Portland. They own the North Bank. If either diverts transcontinental or other traffic to the North Bank, it must pay the other, half the revenue from such traffic carried by the North Bank to Portland. If either carries such traffic over its own line direct to the Sound in-One year \$5.00 One month \$.50 stead of diverting it to the North Bank, it saves to itself the revenue that would otherwise go to its rival. That is to say, the very ownership of the North Bank for obvious reasons, destroys the possibility of that road from ever being much more than a local line and prevents it for the same reasons from ever engaging even in the slightest competition favorable to Portland as against Puget Sound. How completely true is this situation is proven by the fact that the North Bank pletely true is this situation is proven by the fact that the North Bank companied by the name and address of the has never been permitted to build branch lines that would serve as sender. If the writer does not desire to have the name published he should so state. feeders in gathering up even local traffic for Portland.

With this as the situation, the activity of the Union Pacific, including the O-W. R. & N., in adopting Puget Sound as its real terminal, its building of big docks there and none at Portland, its maintenance of The Journal-In today's paper, over Holstein or Jersey blood they cut steamship connections there and none at Portland, its routing of transcontinental traffic for offshore destinations and the non-routing of such traffic through Portland, presents a most extraordinary con-

It is a condition the inside workings of which are exemplified in the higher grain rates to Portland even where the distance to Portland be to enforce them but whose lives surplus stock at weaning time, or is less than to Puget Sound.

A sample rate is that from Pendleton, 330 1/2 miles to Seattle, at he same figure as from Pendleton, 218 miles to Portland. What makes this rate peculiarly illustrative of the favoring policy toward instance: George E. Chamberlain or same dilemma. Last year during Puget Sound, is that the revenue on the 330 1/2 -mile haul to Puget Sound is divided between two roads, and the haul to Puget Sound is over a costly drag over the mountains against a level haul down the ple that it dared oppose. river to Portland.

And all this time, the natural terminal of the O-W. R. & N. and Union Pacific is Portland. They can deliver Vladivostok munitions commission charter for Portland, and and sold the greater portion to my to \$100,000 each, with interest payand other traffic to tidewater at Portland with a saving of 186 miles elect a majority of the commissioners neighbors. HE Emergency Board is about as against Seattle. With 75 miles as the average locomotive run, to see to it that commission governto decide whether it shall vote Portland delivery is a saving of 2½ days in locomotive capacity and ment was a failure. \$3000 to enable Attorney a similar economy in freight cars, those freight cars now so scarce state why none of the present com- but necessity compels me to either General Brown to prosecute and so badly needed. There is also the saving in man power, a matter missioners of Portland made anything butcher them in the way I have repthe Pacific Livestock company of very great consequence to the stockholders of the roads, those roads It is not a question of the now clamoring for increased railroad rates.

At Portland, the O-W. R. & N. and Union Pacific are practically whether the state of Oregon shall without rivals. If they tried, they could make Portland their Portland. assistance in what he has accomattempt to recover 26,000 acres of By devoting their energies to building up Portland as they are now the best land of Harney valley doing Puget Sound, they could create here an enormous traffic that which it has reason to believe was they would have practically for themselves. The northern roads as had? If not, why not? taken from the school fund and the history shows, the moment they reached Puget Sound, began to estabschool children of the state through lish offshore connections and to make great investments in terminals Daly today? Is it not the same crowd fraud and deceit and in violation and facilities. They cast their lot there in spite of the over-mountain that were in the saddle previous to of law. It involves a question of handicap. Some of them established steamship connections in advance Mayor Lane's administration?—Baker, public policy. It goes far beyond and the day their newly completed roads opened for business ships the mere question of money to de- were in waiting to carry traffic to the orient.

Those roads are entrenched on Puget Sound. And the Union Pashall not condone unlawfulness, cific and O-W. R. & N., which should be Portland roads, are proceeding to entrench themselves on Puget Sound instead of Portland. Do the same crowd?—the auditorium, for sible at the present high cost of living. Seven members compose the the latter suppose that Portland will always be content to permit all Emergency Board. They are James the roads of the northwest to make Portland a mere way station?

All wars compel sacrifices. Our people were never more prosperous and more able to make sacrifices, at least the sacrifices involved in stopping needless and extravagant expenditures. We can finance this war out of the savings of the people of the United States Earl Voglesong of Oakland, Cal., inif they will really economize. That is centor of the American coin machine. one thing I should like to impress upon is in the city to attend the conventhe people of the country, the necestion of film exhibitors held here this Mr. Voglesong will be in town

sity for economy-the prevention of waste. The security of business and the prosperity for the future will be strengthened immeasurably if we economize rigorously during this war, and invest our savings in war bonds, while at the same time paying our just share of essential taxation. If we economize all over the land, the cost of living will be decreased and not increased, and we will be in better position to support our armies in the field and our navy upon the high seas. It is doubly important that the people of the United States should buy these government bonds out of their own moneys and out of their own savings. We must not rely upon the banks alone to buy these bonds. There is limit to which banks should put their funds in fixed investments, but thereis no limit to which the individual may go in investing his income and savings in safe investments of a fixed character like government bonds. Banks must at all times keep their resources reasonably liquid, so that they can carry on the essential business of the counselves, the safer and more prosperous we make business in the country and L Waters and Henry Waters

try. Therefore, the larger the amount bonds bought by the people themthe more useful we make the banks Of course, taxes shorter the war the more human life As to taxation:
