roads, because they are so many and so unanswerable; but the decreased cost of hauling is one which should be emphasized. I was out over your Columbia river highway, one of the finest scenic roads in the world today, and i

seems to me vastly important that the state should have a system of roads connecting up with that wonderful highway. Good roads attract tourists. Oregonians do not want to forget that. "If Oregon does not vote this bond issue it will mark her as a back number, while if she does the favorable publicity, not to mention tourists, which will flow from it, will be worth

more than the investment." High Grade Roads Besult.

Mr. Lynch said that in California for the first \$18,000,000 invested the state really got roads which ordinarily here should be any serious opposition would have cost \$25,000,000. The railroads gave special rates on material and the state bought it in huge quanhard surfacing are so conclusive and tities and supplied it to the contractors, whose figures covered merely the work. > Advantages Are General. "Farmers should not get the idea hat the roads benefit only automobiles—and least of all in Oregon, where, I understand, the cost is to be taken care of by increased auto license fees-for the reason that the advant-

age is mutual. Paved trunk roads have a tendency to induce well constructed laterals and once let your farmer get to hauling his produce over good roads and he is the hardest man in the world to convince that they are not worth more than their cost. His savings in time, expense and disposition soon convince him of his error if he was at first opposed to bond issues for roads."

# FOR SERVICE IN FRANCE

Dr. J. Guy Strohm, Surgeon of Medical Reserve Corps, Receives Orders to Recruit

Instructions to recruit in Portland field hospital unit for active service were received Monday hight from the headquarters of the western department of the army, at San Francisco, by Dr. J. Guy Strohm, first lieutenant in the medical reserve corps. Dr. Strohm will need 75 enlisted men, of whom about 20 must have special qualifications. These include a hospital sergeant, a sergeant to be in charge of transportation and act F. Logan of Portland and Rev. James as quartermaster, one mess sergeant, one sergeant pharmacist and one assistant pharmacist, one artificer, one wagonmaster and seven drivers, prob- the board from five to three. The third

to have charge of the operating room Dr. Strohm is anxious to get in

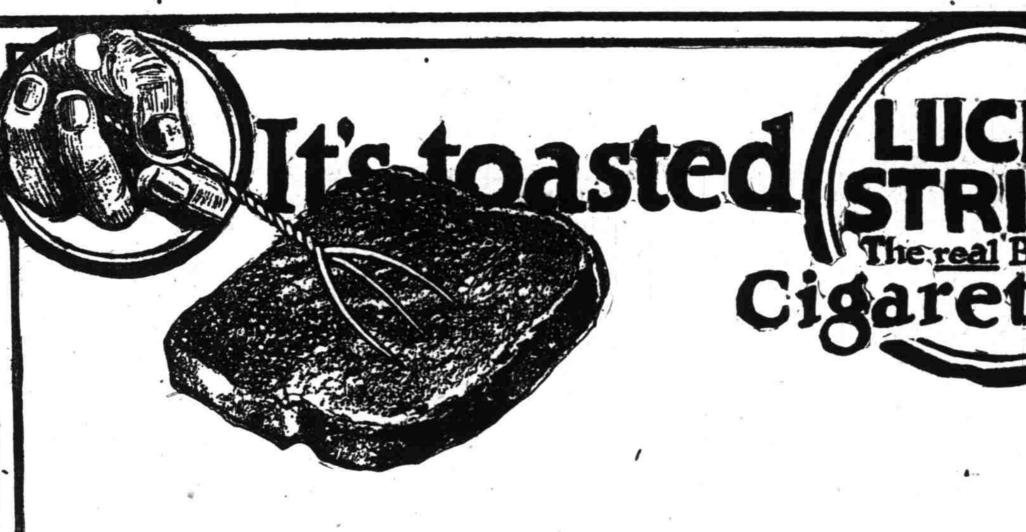

touch with men who have had experience in these various lines, as he is desirous of getting the most compe-tent men available. His office is at 602 Medical building. It is probable that the unit to be

raised here is one of those which have

een promised to France. Those who enlist in it are likely to see active service within a few months, Although he has secured enough men for an ambulance unit, Dr. H. M. Greene, captain in the medical reserve corps, has received a telegram from ment instructing him to continue re-cruiting. This message contains the statement that the men he secures probably will see active service within a short time.

A S you peacefully crunch that golded-brown, buttered-hot slice of morning toast, think what a great invention toasting is anyway. Is there any flavor like it (Cries of "No!" "No!")

We've added a new discovery to this fine old invention, to produce the Lucky Strike cigarette. We went right back to the toasting fork and the kitchen stove for the idea—after five years of experiment.

#### The tobacco-it's toasted

You see, we wanted to make a Burley cigarette. Because we know that smokers were awfully fond of Burley-and it certainly is "blame good tobacco"-60 million pounds poured out of those green, blue and red tins last year. That's enough for 35 billion Burley cigarettes.

### Lucky Strike, the real Burley cigarette

But until we struck this toasting idea a Burley cigarette couldn't be made; flavor wouldn't hold. But now! That Burley flavor stays right with Lucky Strike—the real Burley cigarette. Because the tobacco-it's toasted.
