

# NEWS THAT AMERICAN AVIATORS WILL HELP IN WEST WELCOMED

## If American Plans Mature German Armies Can Be Almost Completely Blinded.

### GERMANS SHELL OWN MEN

#### Reports on Captured Aviator Show Lack of Flyers Prevented Accurate Direction of Barrage.

By William Philip Simms.  
With the British armies in the field, May 21.—(U. P.)—Nothing that American plans to do in fighting Germany has aroused more interest here at the front than news received today of plans for a vast fleet of aeroplanes, manned by thousands of American aviators.

Germany's aerial eye is already badly damaged. The allied supremacy in the air has several times handicapped the enemy. A report recently found on a captured German officer showed that, through lack of proper aerial reconnaissance, the barrage artillery has frequently turned its fire on the German instead of the British lines.

**German Gunners Confused**  
Four such instances were detailed in the report of this officer. Each time the Germans turned a terrific barrage fire into their own, instead of the enemy trenches, the cause had not been ascertained by aerial observation. In these four instances reported, the killing and maiming of Germans by their own guns forced evacuation of the trenches thus fired upon.

Young Hoar is arranging to have his associates follow him in the investment of small savings in the Liberty loan bonds, and it is expected that a large number of Lewiston children will follow his example.

## YOUNG PATRIOT BUYS A LIBERTY BOND

Foster E. Hoar.

Lewiston, Idaho, May 21.—Foster E. Hoar, the 10-year-old son of Blair E. Hoar of Lewiston, Idaho, appeared before Postmaster R. L. Pennell, and emptied the contents of his savings bank, and invested in the first \$50 Liberty loan bond issued to a juvenile in this section of the country. While applications for bonds are numerous in the Idaho town, the application of the young gentlemen has a significance, in that it will set an example for other children to follow.

Young Hoar is arranging to have his associates follow him in the investment of small savings in the Liberty loan bonds, and it is expected that a large number of Lewiston children will follow his example.

## RUSSIAN SOCIALISTS FIX JULY 15-30 TIME FOR STOCKHOLM MEET

### Final Approval Left to Dutch International Bureau and Berne Commission.

Petrograd, May 21.—(U. P.)—The Russian-called international Socialist conference will be held at Stockholm between July 15 and 30, according to a decision reached by the soldiers' and workmen's council today. Final approval of the date was left to the Dutch international Socialist bureau and the Berne commission.

**Branting Denies Charges**  
Copenhagen, May 21.—(U. P.)—Reports that Germany is back of the international Socialist peace conference now being held in Stockholm, are denied by Hjalmar Branting, famous Swedish Socialist leader, according to a dispatch from Stockholm today.

**British Will Attend**  
London, May 21.—(U. P.)—If a real general conference of Socialists materializes at Stockholm, it was semi-officially indicated Wednesday that the British government would not be disposed in any way to prevent attendance of British Socialists. It was considered problematical, however, whether any real conference of this nature was in prospect.

It was pointed out that it was the British Socialists and laborites themselves who rejected invitation to attend the German-inspired Stockholm conference—not the government which forbade their attendance.

British Socialists themselves indicated they were disinclined to change their previous refusal to send delegates to the German-called Stockholm conference. They said, however, that an acceptance had already been sent to the meeting called by the Russian revolutionaries at the same city at a later date.

## ISAAC SWETT PAYS TRIBUTE TO FITNESS OF W. L. BREWSTER

### "He Has Been Tried and Found True," Says Speaker at Neighborhood Meet.

### ALL MEN TREATED ALIKE

#### Responsible for Meat Inspection Ordinance and Protection of School Children on Streets.

"He is conspicuously the foremost candidate because of his having been tried and found true; we can look back upon his service as commissioner and find the unmistakable stamp of the honest man, unaffected by the importunities of those seeking special privilege."

This is part of a tribute paid to W. L. Brewster, candidate for city commissioner, by Isaac Swett at the first of a series of neighborhood meetings in the interest of Mr. Brewster's candidacy held in Westmoreland Wednesday night.

**All Edges Wiped Out**  
"Mr. Brewster at all times discerned the sound from the unsound, the right from the wrong, and finally took the stand which worked proper action. I find all classes heartily favoring him, including the middle classes, the so-called 'four hundred' and those who, perhaps, count for more, the great mass of the people, who want a man to represent them who has deep human sympathies, and with it all is thoroughly honorable and level headed."

And yet another trait marks him conspicuously: He knows no ism. Devoted, singly to right action, all lines are wiped out to him. Be one rich or poor, influential or without influence, of whatever political belief or faith, as commissioner he gives the same patient attention to every person.

**School Children Protected**  
"Voters can afford to take no chances. There can be no doubt of the worth, of the eminent fitness, of the integrity, of the scrupulous honesty of Mr. Brewster. His election should be assured. It is also well to remember that as city commissioner he was mainly responsible for passage of the meat inspection ordinance, the traffic ordinance and an ordinance protecting school children on the streets near the school buildings."

In the course of his talk Mr. Swett referred to Mr. Brewster's able handling of the unemployment problem during the winter of 1915-16, declaring that "with his valuable and careful assistance, it became possible to meet the problem in a manner reflecting great credit on the city."

China, which is believed to have the greatest deposits of iron ore in the world, is beginning to export pig iron.

## Blackstone Helps Man and His Wife To Dodge Justice

San Francisco, May 21.—(U. P.)—According to law, a man can not conspire with his wife to commit crime. Wily disciples of Blackstone got away with this technicality in the federal court here. Common law makes a man and his wife are one person—and how can one person enter into a conspiracy?

But the department of justice officials who were not lawyers, thought Mr. Blackstone did not mean a man and his wife could sell moxine and ocean suspicion, so Mr. and Mrs. G. W. Patterson were immediately rearrested and are out on \$2000 bail.

## GOVERNMENT WANTS A HORTICULTURIST AT SALARY UP TO \$2500

### Civil Service Commission to Hold Examinations, June 19 and 20, for Jobs.

The United States civil service announces open competitive examinations for the following positions, on the dates indicated:

June 19, horticulturist (male), salary \$2100 to \$2500.

Assistant horticulturist (male), salary \$1800 to \$2000.

Dietician (female), salary \$900. Applicants must be in excellent health; must have graduated in domestic science from an institute of recognized standing, and have had at least one year's postgraduate experience.

June 20, Passenger rate clerk (male), salary \$100 a month. Only those who have had experience in general passenger offices and in ticket auditing offices, or as rate clerk in large ticket offices of railroads for at least two years will be considered.

Scientific assistant in weed investigation (male), salary \$1200 to \$1620.

Scientific assistant in drug plant investigation (male), salary \$1200.

Botanical artist, salary \$900.

Lantern slide colorist (female), salary \$900 to \$1000.

Apprentice (male) plate printer, Bureau of Engraving and Printing, \$1 per diem; assistant map printer, geological survey, \$1 per diem; junior lock fitter, mail lock repair shop, \$1.25 per diem; plant and shop, coast and Geodetic survey, \$700.

Calculating machine operator (male and female). Appointments are usually made at entrance salary of \$900, but such appointments may be made at salaries as high as \$1200.

For further information and application blanks, apply to M. K. Wigton, secretary, local board of United States civil service examiners, postoffice building, Portland.

## YOUNG MEN ON SEAS AND FOREIGN SOILS WILL ALSO REGISTER

### Uncle Sam Makes Provision That They May Sign Cards After Arrival in Ports.

Men who come within the age of conscription but who are on the high seas or on foreign territory on War Census day, June 5, will have to register.

To permit such men to register, Uncle Sam has made the provision that they may register within five days after they arrive at their ports on the high seas; if they are on foreign soil, the same period of time is extended, but both classes must register within the five day period.

To prevent any class from escaping the provisions of the registration act, special arrangements have been made to fit the various isolated classes. The registration of Indians in charge of the commissioner of Indian affairs whose powers are approximately the same as those of a governor. He will appoint the superintendent of the respective agency, the chief clerk and the physician to act as the registration board.

With the exception of the Yellowstone, Glacier and Mt. Rainier national parks, where the census of residents will be taken by the director of the national park service, the residents of national parks and forest reservations, navy yards and government properties will be registered at the nearest voting precincts under the operation of the regular county census machinery.

Traveling aliens of the age of conscription will be registered by the local board.

## Why Society Women Wash Their Own Hair

They do, not because it is a fad, but because they wish to obtain the greatest possible hair beauty and be sure they are not using anything harmful. They have found that in washing the hair it is never wise to use a makeshift, but is always advisable to use a preparation made for shampooing only. Many of our friends say they get the best results from a simple home made canthox mixture. You can use this at a cost of about three cents a shampoo by getting some canthox from your druggist, and dissolving a teaspoonful in a cup of hot water. This makes enough shampoo liquid to apply to all the hair instead of just the top of the head, as with most preparations. Dandruff, excess oil and dirt are dissolved and entirely disappear in the rinsing water. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you.

scription who come into the United States on June 5 or after this date must register at their port of entry.

For storing clothing there has been invented a paper bag into which germ or insect killing gases can be injected.

## French Submarine Sinks German Diver

Paris, May 21.—(U. P.)—The torpedoing of "an enemy submarine" by a French submarine was disclosed on Wednesday when Commander Cambourge of a French submarine was cited as a chevalier of the Legion of Honor for performing the feat.

The statement said the French submarine torpedoed the U-boat deep in the fact that it was conveyed by an aeroplane.
