

**OLE HANSON SEEKING POSITION ON FEDERAL TRADE COMMISSION**

Roger Sinnott of Portland Is Leading Pacific Coast Candidate, However.

**WESTERN MAN FAVORED**

Clyde B. Atchison Is Also Being Discussed for Place on the Interstate Commerce Commission.

Washington, June 5.—(WASHINGTON BUREAU OF THE JOURNAL.)—Ole Hanson, once Progressive nominee for United States senator in Washington, is a candidate for appointment to the federal trade commission, for the seat made vacant by the death of the late Will H. Hays.

Parry was also a party Progressive in the days of 1912, and was one of the two minority party members of the trade commission, being in recent time rated as a progressive Republican. Hanson evidently bases hopes on further recognition being extended not only to the Progressives, but to the state of Washington.

The leading Pacific coast candidate, however, is Roger B. Sinnott of Portland, who is rated as a progressive Republican. He has the nearly unanimous endorsement of the far western congressmen, including four out of five of the Washington delegation.

Congressman Dill of Washington, the only Democrat from the northwest, has endorsed Hanson because he is a Washington man. If Hanson is not to be appointed, he is in favor of Sinnott.

There is, of course, no certainty that a Pacific coast man will be chosen, but if geographical balance is preserved, the appointee will come from some part of the far west.

Probability that two members will be added to the interstate commission brings about discussion of a Pacific coast man for one of these places. Clyde B. Atchison, former chairman of the public service commission of Oregon, and now representing the state commissions in checking up the valuation work, is being urged from the northwest, while W. K. Wheeler of San Francisco, long a leader in the chamber of commerce there, has strong backing from California.

**Boys Needed for Navy**

Washington, June 5.—Secretary Daniels, writing Senator Chamberlain with reference to the enlistment of boys from the farms for the navy, gives much the same reply recently given by Adjutant General McCain concerning a question raised as to recruiting from the farm for the army.

Secretary Daniels says no special effort is made to reach the farming population, and most of the recruiting is in the centers of population. With the recent large increase authorized in the navy, the department does not feel that it can relax its recruiting activities.

**Address Still Bremerton**

Washington, June 5.—Senator Chamberlain recently received a letter from a woman at Portland whose husband is a member of the Oregon naval militia, stating that letters addressed to him at Bremerton have not been answered, and she is disturbed over being unable to hear from him.

The navy department, when this was brought to its attention, states that letters to members of the Oregon naval militia should be addressed in care of that organization, navy yard, Bremerton, until such time as the writers learn from correspondents that some other address should be used.

The Portland woman said she had heard that her husband had gone south on the South Dakota. The department is evidently unable to explain why letters, if addressed in care of the naval militia at Bremerton, should not have been delivered.

**Not to Lift Salmon Ban**

Washington, June 5.—No effort to lift the ban on exportation of fresh salmon to Norway and Sweden is indicated as contemplated in a letter signed by Secretary Lansing with reference to a request for letters of assurance from the British authorities which was made through Senator Chamberlain.

The secretary of state says the British embassy informs him that letters of assurance for this product have been indefinitely suspended and the embassy is without authority to transmit applications to the home government.

**Labor Is Not Short In Mills and Mines**

Lumber Handlers at Baker Who Went on Strike for More Pay Thus Far Have Failed in Effort.

Baker, Or., June 5.—While numerous pessimistic stories relative to the possible cessation of operations by local mills and mines, because of labor shortage, have been circulated, the situation hardly will develop to that crisis. Lumber handlers are the only branch of labor to declare a strike, only a few staying out when the demand for an increase from \$3.25 to \$3.50 was refused. Of the few who stayed out the places have been filled and all mills are working full crews. If they cannot get labor at the present scale, however, mill men say they will shut down, but they anticipate such necessity from any development to date.

**Attorney Is Fined For Spanking Boy**

San Francisco, June 5.—(U. P.)—Benny O'Rourke, 8 years old, waylaid Attorney Philip Keller and shot him with a water pistol. Keller spanked Benny. Police Judge O'Connell Monday decided Benny would not have been in mischief if he had a more innocent toy. So he fined Keller \$10 with which to buy Benny a coarser.

**Clatskanie Elects Stroud**

Clatskanie, Or., June 5.—Professor P. W. Stroud, a Monmouth and University of Oregon graduate, has been elected principal of the Clatskanie high school for the coming school year. Other teachers elected are Mrs. Elizabeth Irwin, Mrs. G. B. Conyers and Misses Helen Johnson and Myrtle Arrif. Several vacancies are yet to be filled.
