

Partly cloudy tonight and Sunday; northwesterly winds. Humidity 68.

BRITISH BEGIN NEW DRIVE IN ARRAS SECTOR

Gain of More Than Half a Mile Is Reported South of Souchez River Where Battle Raged on 2 Mile Front.

CAPTURE OF TOWN OF LENS IS MADE EASIER

Powerful Counter Attack on Six Mile Front Is Without Result.

London, June 9.—(U. S. P.)—Field Marshal Haig switched his attacks from Belgium to the Arras front last night, gaining more than half a mile of ground.

This new success for British arms was announced by the war office today.

The assault was made south of the Souchez river over a front of more than two miles.

At a number of places along this wide fighting line the British smashed their way into German trenches, inflicting heavy losses.

This gain for the British is putting the Lens sector of the German line in the shape of a salient, which will make the capture of the town easier for the British.

The war office further announced that the Germans delivered a powerful counter attack over a six mile front in Belgium, but were unable to regain any of the ground so brilliantly won by the British on Thursday.

Positions Are Consolidated
London, June 9.—(U. S. P.)—The counter-attack stage was reached by the British advance in the Ypres-Wytschaete sector today. All through the night the victorious Tommies were busy consolidating their new positions. The "Ypres salient" was held in the British advance, was formerly

GENERAL PERSHING IS RECEIVED BY THE KING IN PRIVATE AUDIENCE

"If We Stick Together Only One Result Is Possible," Declares His Majesty.

London, June 9.—(U. S. P.)—General Pershing, commander-in-chief of the American army, arrived in London today to study war conditions.

The American army officers arrived with Arthur J. Baird, returning from his trip to the United States, and were met at the station by General Pershing.

The mission is composed of Colonels Graves, Summerall, and Aultman; Lieutenant Colonel Ely, Anderson and Cheney; Majors Simonds and Ellison, and Captain Quemyer.

Colonel Banker explained that the officers expected to learn as much as possible as quickly as possible in England and France. They will then return to the United States to aid in the work of instruction at officers' training camps.

London, June 9.—(U. S. P.)—Major General Pershing, commander-in-chief of the American army, arrived in London today to study war conditions.

WILLIAM REDMOND, brother of the noted Irish Nationalist and himself an Irish leader of prominence, killed in Flanders.

WILLIAM REDMOND, NATIONALIST LEADER, DIES FROM WOUNDS

Brother of Famous Irish Statesman Succumbs on Way From Front.

By William Philip Simms
With the British armies in the field, June 9.—(U. S. P.)—William Redmond, Irish Nationalist leader, brother of John Redmond, died in an ambulance today while on the way to a hospital, back from the firing line where he was wounded.

Redmond had been serving as a major with the British army. The fact was pointed out today—as illustrative of the perfect fraternalization between all who are fighting England's battles—that Major Redmond died in an Ulster ambulance, manned by the very men against whom he and his brother, John Redmond, have been waging bitter political war for years.

The two Irish factions are fraternizing on the battlefields as never before.

William Hoy Kearney Redmond, brother of John Edward Redmond, has been a member of parliament from East County Clare since 1892. He was born in 1861 and was a barrister.

Fair Aviatix Drops Liberty Bond Bombs

Kansas City, June 9.—(U. S. P.)—Miss Ruth Law, famous aviatix, arrived in Kansas City shortly before 11 o'clock this morning, having made the flight from St. Joseph, Mo., a distance of 73 miles in 53 minutes.

Kaiser and His Military Leader Have Close Call

Amsterdam, June 9.—(U. S. P.)—The Kaiser and Field Marshal von Hindenburg are reported to have had a narrow escape from death when British airmen bombed Ghent on Monday. The Telegram today printed a dispatch saying that five soldiers were killed within 200 yards of the war lord and his chief aide. Ten airmen took part in the raid.

Liberty Loan Facts

No. XII
THE WHOLE COUNTRY HAS PROSPERED IN THIS WAR

The reports of our national banks of March 5, 1917, showed a total of 15,737,969 deposit accounts. This is an increase of 1,449,910 since May 1, 1916 (10 months).

It is significant that 1,258,691, or seven eighths of this increase, was reported by the country banks, indicating the wider diffusion of the wealth of the country.

A comparison of the enormous rise in price of wheat, wool, hides, barley, hogs, livestock, sugar, copper and petroleum, during the present war, shows the extent to which the Pacific Coast district has benefited directly from the war.

Business prosperity in the past two years in the United States has by no means been confined to the manufacturing districts. It has spread to nearly every kind of business we have.

Every person who has prospered because of this war should consider it an absolute duty to devote a part of his increased possessions to the protection of our country's ideals at the present time.

BUY A LIBERTY BOND TODAY AT YOUR BANK AT THE DEPARTMENT STORE, AT YOUR POSTOFFICE

\$700,000,000 IS NEEDED IN NEXT WEEK FOR LOAN

Subscriptions Must Be Made at Rate of \$1 per Day for Every Person in U. S. in Order to Meet Loan Total.

EXTRA PRESSURE PUT ON TO COMPLETE FUND

Secretary of Treasury McAdoo Says Loan Has Not Been Oversubscribed.

Washington, June 9.—(U. S. P.)—One hundred million dollars per day for the next seven days, or at the rate of \$1 per day for every person in the nation—that is the amount needed to meet the Liberty loan. Extra pressure was put on today by treasury workers to reach the loan goal and to swing subscriptions well above the \$2,000,000,000 mark in the allotted time.

This pressure followed announcement by Secretary McAdoo in New Orleans, that, contrary to the impression in some quarters, the loan is not now over-subscribed. This impression apparently has caused a slackening of contributions, but government officials are confident that America will meet this first war loan freely and fully as a demonstration that American purpose is in the fight against a Teuton autocracy.

San Francisco Gaining

San Francisco, June 9.—(U. S. P.)—With more than \$3,000,000 added to the Liberty loan as a result of yesterday's effort, the drive for San Francisco's \$2,000,000 allotment was continued today with new enthusiasm.

To date, subscriptions aggregating approximately \$3,000,000 have been reported. Thousands of small subscriptions have not been totaled up, however, and it is confidently expected that these, together with the new ones obtained during the next five days, will mean substantial over-subscriptions.

Banks Have Subscriptions

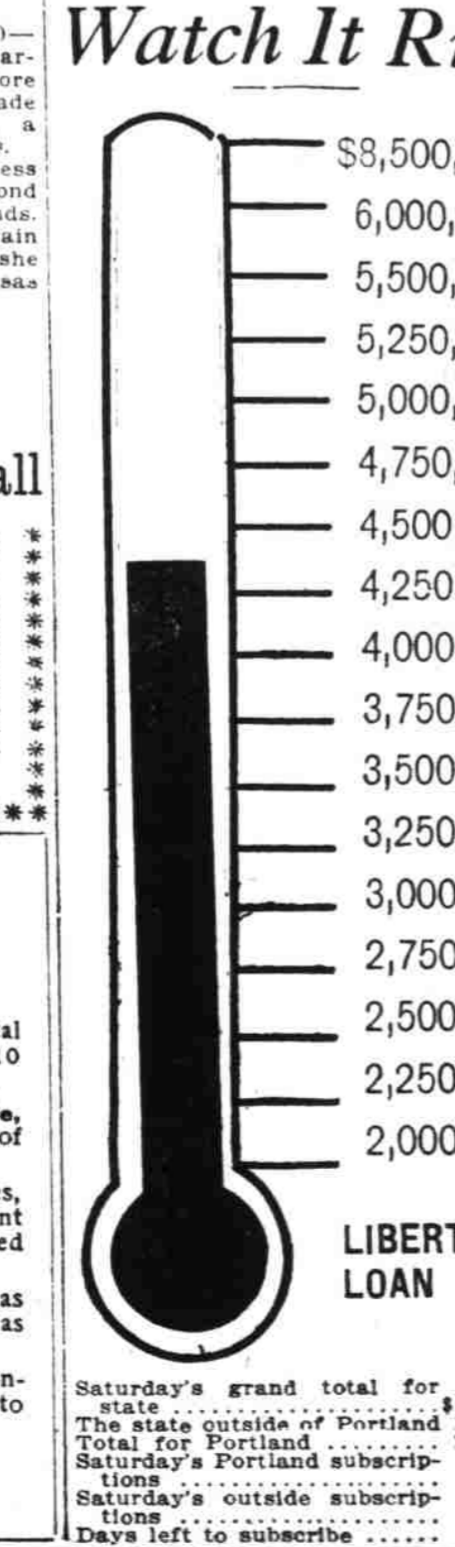

New York, June 9.—(U. S. P.)—Secretary McAdoo's announcement that \$700,000,000 is needed to complete the \$2,000,000,000 Liberty loan centered attention here today on reports that many banking institutions have millions in unannounced subscriptions.

The government has urged that these subscriptions be announced and a flood of subscriptions running into the millions is expected.

Los Angeles Needs \$6,000,000

Los Angeles, Cal., June 9.—(U. S. P.)—Approximately \$14,000,000 of southern California's allotment of \$24,000,000 of the Liberty loan issue has been subscribed, according to campaign officials today. One of the biggest single subscriptions to date is that of the western division of the Santa Fe, which took \$1,000,000 in bonds. Officials and employees of a local bank subscribed \$65,000.

Today Last for Alien Enemies To Get Permits

Subjects of Countries at War With America Must Have Card Before Seven Tonight.

At 7 o'clock tonight the bars will be up. All alien enemies found within half a mile of the Army of the West ("backlash" camp) who are unable to produce a permit will be summarily arrested. The offices of the United States attorney, United States special agent and United States marshal will be open until that time to take care of the men affected by the president's proclamation, who have not yet procured their permits.

About 800 men already have obtained the necessary permits but there are those who are unable to do so. Their number will not be disclosed. They will traverse the restricted area at their peril.

"Not a single man in Portland affected by the proclamation has failed to present himself to be recorded in accordance with orders," Mr. Reames said.

SECTION CREWS AND OFFICE STAFFS AID IN LIBERTY BOND SALES

O-W, R. & N. Expects to Complete Its Quota of \$250,000 in Subscriptions.

Two hundred and nineteen thousand, five hundred silver bullets, massed under Liberty bonds, have been piled up by the aggregated forces of the Oregon-Washington Railroad & Navigation company for the aid of the United States. To this within the next week they expect to add another \$250,000 of \$25,000 to complete fully the round allotment of a quarter million.

In the subscription list the entire force and personnel of the railroad are represented, from the humblest section hand to chiefs of departments and the subscribers number over 2000. The bondbuyers form into a cosmopolitan body, and among the most liberal subscribers are Greeks, Bohemians and Japanese. Some of these, after cogitating over their first venture into government securities, returned for a second block. Overseas students in finance, now inject into their tracklaying jargon the subjects of "blocks," "holdings" and "the bond market."

Gratifying to local Liberty bond committees is the announcement that the O-W, R. & N. subscriptions will be credited to the United States treasury as a matter of course, Portland will receive the greater ratio. The credit to Portland will, it is expected, exceed \$100,000.

In securing the subscriptions the officials of the O-W, R. & N. literally took off their hats, and through a perfected organization covered by every portion of the system. The effectiveness of their work is manifest in the

New Anesthetic to Save Soldiers Pain

Miss Morgan Would Have It Included in Kit of Every Soldier—It Can Be Self Applied.

New York, June 9.—(U. S. P.)—A new anesthetic, which soldiers may apply themselves locally to a wound and which will deaden the pain, will be in the kit of American soldiers in France, if the American Defense society has its way. The new pain killer, which was described by a speaker before the Rotary club, is the invention of Gordon Edwards, a San Francisco lawyer. He could not get the United States army to take his invention seriously, but the French army took it at once, and has found it very successful. The new anesthetic is composed of quinine, hydrochloric acid and urea, and is sprayed on a wound by an atomizer. It stops pain for three hours. Miss Morgan, its inventor, is a member of the Rotary club, is backing a movement for its inclusion in the American soldier's kit.

KIDNAPED BABY FOUND DEAD IN AN OLD WELL

Mrs. J. Holland Keet Faints When Told of Discovery of Body of Child Missing Since Decoration Day.

Springfield, Mo., June 9.—(U. S. P.)—Fears that a lynching would be the climax of the Keet kidnaping case should the place where police have hidden the seven suspects be found, were heightened this afternoon when the authorities announced that little Lloyd Keet was not only murdered—but he was thrown alive into the abandoned well and left to drown.

The Leshaw mansion is said to have been used as rendezvous by the seven suspects under arrest on a charge of conspiracy to abduct rich Springfield men and women and hold them for ransom. It is eight miles from the Keet bungalow in Meadowmere.

The discovery of the body was made just as the parents were waiting for confirmation from Sparta of a report that the child had been recovered there alive.

Like wildfire the news of the tragedy spread through Springfield. Men left their homes and armed themselves, vowing vengeance.

The guard around the jail where the suspects were held was immediately strengthened.

The hopes of the mother were at

WILLAMETTE RIVER TO REACH 24.4 FT. STAGE BY NEXT WEDNESDAY

Hot Weather on Upper Columbia and Snake Causing Rapid Melting of Snow.

The Willamette river will reach a 24.4 foot stage by Wednesday. This warning was sent out by the weather bureau today following receipt of temperatures from inland points.

Boise had 86, Baker 84, Medford 82, North Yakima 82, Roseburg 84, and Walla Walla 86.

The Willamette and Columbia rivers are affected, and the melting snow will undoubtedly cause a rapid rise in the river.

At Portland, the Willamette stood at 21.5 feet, a drop of only one-tenth of a foot having been recorded in the past 24 hours.

The rivers rose at all other points where stations are maintained, though the raises were slight.

The river will put the river up to within a little over one foot of front street, and swells from passing river boats will undoubtedly wash away the pavements.

Front street is completely submerged at 25 feet. A stage of 25 feet will submerge the lower end of the city from Ankeny street north.

Andrassy Fails to Organize Cabinet

Zurich, June 9.—(U. P.)—Emperor Charles has asked Dr. Alexander Wakerle to undertake the formation of a new Hungarian cabinet, according to dispatches received today from Budapest.

Premier Tisza resigned several weeks ago, and reported at that time indicated that he would be succeeded by Count Andrassy. Later it was appeared that Count Andrassy had been unable to obtain a ministry which he felt would survive the present mid-dled political and economic situation in Hungary.

Committee Agrees On Tax on Autos

Machines Costing Less Than \$500 to Pay \$6; More Expensive to Pay About 1 Per Cent.

Washington, June 9.—(U. S. P.)—A new tax on automobiles was agreed upon by the senate finance committee today. It amounts roughly to a 1 per cent levy on the selling price of machines. The tax is expected to raise between \$15,000,000 and \$40,000,000.

Following is the automobile tax schedule adopted as a substitute for the section tentatively approved several days ago:

On automobiles costing \$500 or less, \$5; between \$500 and \$750, \$7.50; between \$750 and \$1000, \$10; and for each \$500 in cost over \$1000, \$5.

The committee relieved all confessions from the tax, dropping \$15,000,000 in revenue thereby.

It placed a levy of 1 per cent on every 10 cents charged for admission to cabarets or other similar entertainments. The committee adjourned until Monday without taking final action on the newspaper tax.

FLAMES SWEEP MONTANA MINE; DEATH LIST BIG

WILD FLOWERS WILL AID IN DECORATING FOR ROSE FESTIVAL

Twenty-five Bands Will Appear in Parades and in Concerts in City.

Portland people are taking no chances on Old So and his attitude toward the queen of flowers, the rose.

Entry blanks filled out and received at Rose Festival headquarters show that many people are planning on using Scotch bloom, lupins and the myriad other wild and hardier flowers for their decorations in Friday's floral parade.

The effect of the weather on the rose supply has been anxiously watched and wide indications are that there will be thousands of well developed buds, the profusion so happily had last season undoubtedly will not be realized.

Banker Will Appear
Gus Morde, director in charge of the floral parade, has accordingly issued a statement to the public calling attention to the wild flowers available and suggesting that they be used to advantage in filling out wherever possible, thus leaving the more perfect buds for the festival center exhibits.

Arrangements were completed today with the America Federated Musicians for the use of 25 bands during the big parades and also for concert work at various parts of the city. W. W. Piering, director of amusements, handled the arrangements.

Headquarters Are Busy
Hundreds of other details are receiving close attention at festival headquarters. E. E. Larrimore, president of the Rose Festival association and his staff, put in a busy morning and will undoubtedly forget their Sabbath vows in their anxiety to be ready and waiting when the covers come off Wednesday morning.

The corps of volunteer workers is increasing daily as the festival fever hits and spreads and the mass of work being done is amazing.

The program for the week will be complete late this afternoon.

Northwestern Salt Rate Cases Decided

Reductions Are Ordered From Pacific Coast to Inland Empire, Though Not to Extent That Was Sought.

Washington, June 9.—(WASHINGTON BUREAU OF THE JOURNAL)—The interstate commerce commission in the northwestern salt rate cases today ordered reductions from Pacific coast cities to the inland Empire, though not to the extent that was sought.

Traffic organizations of Portland, Seattle and Tacoma were complainants in these cases, the Portland interests being represented by Attorneys Teal and McCulloch.

Salt Air interests were also covered by today's decision, the commission sustaining rates now existing out of Salt Air as to port cities. The commission found future rates unreasonable to the extent that they exceed class B rates and ordered reductions to this basis on or before August 15.

Sinking of Fishing Ships Is Protested

Christiania, June 9.—(U. S. P.)—Norway has delivered a strong protest to Germany against the sinking of fishing ships in the Arctic, it was learned today.

100 SPEAKERS BEING ENLISTED FOR WORK FOR RED CROSS FUND

J. C. English of Campaign Committee Hopes There Will Be No "Slackers."

Under the supervision of J. C. English of the Red Cross campaign committee, more than 100 of Portland's most gifted and influential public men are being organized as a speaker's bureau to conduct a vigorous campaign during National Red Cross week, June 18-25.

"It is going to be no light task," said Mr. English this morning, "to make the people of Portland realize that this National Red Cross drive is only second in importance to the actual enlistment of soldiers. Also that it is a duty and a privilege for each to give generously according to his or her means."

For those who are too old or too young to fight or are incapacitated, the Red Cross offers an opportunity for patriotic service and the call is imperative. Our government must have an abundance of Red Cross supplies and equipment to follow the army and navy to the war, and money must be given freely to meet this need and to keep a steady stream of Red Cross supplies moving towards the front.

"Through our big corps of speakers, we want to carry this message to every man, woman and child in Portland."

(Continued on Page Three, Column Four)

SECRETARY DANIELS ORDERS TALK ABOUT NAVY SECRETS ENDED

Employees of Department Are Warned Not to Discuss Affairs With Outsiders.

Washington, June 9.—(U. P.)—So serious apparently has become the spy menace in Washington, Secretary of the Navy Daniels late this afternoon issued the following general orders to prevent information most valuable to the enemy and which might prove disastrous to the navy, from leaking.

"The department has reason to believe that information of a character most valuable to the enemy and which might prove most disastrous to the navy, has in some way, reached the enemy."

"In view of the strenuous efforts that have been made to prevent the dissemination of such information, the department believes that in practically every instance this has resulted from certain information being given or spoken in the presence of a close relative or friend, who, in the appreciation of the gravity of the offense, inadvertently transmitted it into the hands of those who most desired to obtain it."

"The department has on previous occasions endeavored to impress upon everyone the urgent necessity for carefully guarding against the dissemination of any military information which could possibly be of value to an enemy. The situation at this time is entirely too grave to permit of a continuance of present practices in this regard."
