GERMAN STRATEGY SO AIMED AS TO ENABLE FULL STRENGTH OF KAISER'S ARMIES TO BE HURLED AGAINST FRANCO-BRITISH

Central Powers Keenly Aware of the Time Element That Will Admit Growing Strength to Forces of Democracy as Struggle Is Prolonged; Foresee Two Years More.

By Richmond P. Hobson. International News Service.

I wish to point out the besetting sin of our country and the weakness of all democracies, the neglect of preparedness in time of peace and the tardiness in gathering and exerting the full national power in time of war are the breath of life of privilege, of before the winter of 1919. militarism, of autocracy. The autocracies and aristocracies of the world

Their very reason for existing has been higher efficiency in war. With the modern Teutonic powers as with the nomads of old, war is a necessary to this end. profession, in preparation for war and in prosecution of war we must expect to find autocracy a pastmaster, an ex-

Where such influences are dominant in politics we must expect the government to play the big game of politics. to veer with public opinion to do the thing that is popular for the moment, to give little thought to those underlying continuing policies that so fundamentally affect the nation's security and permanent welfare.

Chronic Negligence a Menace, In no field is this neglect so pro

nounced and so dangerous as in the matter of defense. If the democracy is relatively isolated as the case of America, we must simply expect every war to find the nation unprepared.

During the years of peace no task come, it is a phenomenon so foreign to the thought of the average voter, that danger appears remote or imminent.

Thus precious time is liable to be defeat.

Very few instances can be found in history where war found a democracy | ceeded? prepared. The nearest approach in the present war.

Two years more of unconclusive war would probably convert Prussia and Germany into democracies. It will require at least that length of time for America and her democratic allies United States, approximately 23,000,000 to develop their full power for use at the peace table as well as in the field. Therefore, as a basic policy, a negotiated peace should not be considered

The main factor in bringing about a separate peace would be the presence of irresistible Teutonic forces on the Russian front ready to advance on Petrograd or Odessa, or both. It may be taken for granted that these forces are there now.

Ecaring the New Russia, The representations to the provi-

What Statistics Show, "If from the 1,023,000 who have come

to America since 1890, the period of greatest influx of foreigners, a proper deduction is made for those who returned to their homeland and those who have died since their arrival, it will be seen that there are fewer than million former subjects of the kaiser in this country who have not been here more than 26 years. arm-bearing strength of the nation At the last census many of the states had a greater number of foreign-born men of arm-bearing age than they had of native-ancestry citizens, among them Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Wisconsin, Minnesota and North Dakota. Taking the states where those of foreign birth and their sons together constitute a major portion of the men between the ages of 18 and 44, it will be found that the list includes the above named states and the following: New Hampshire, Pennsylvania, Michigan, South Dakota, Nebraska, Montana, Idaho, Arizona, Utah, Nevada, Washington and California-in all 20 states We have considerably more than 20. 000,000 men of military age in the

More than two-thirds of the Germana live between the Hudson and the Mississippi and north of the Ohio. The same is true of the Austrians, the Belgians, the Dutch, the Italians, the Russians and the Welsh. New York Pennsylvania and New Jersey have 47 per cent of the Austrians, 35 per cent f the English, 30 per cent of the Italians, 56 per cent of the Russians, 22 per cent of the Dutch, 34 per cent of the Scotch, and 46 per cent of the
