TOO EARLY PEACE IS HELD GREAT DANGER

Disposition of Colonies to Be Decided by Great International Peace Congress, Declares Speaker; "Mesopotamia Not to Be Restored."

Glasgow, June 29.—(U. P.)—Peace can only come in the world when the allies have attained their aims and had their objectives guaranteed. Premier Lloyd George declared today. "Peace before victory," he added, "would be the greatest disaster in the history of mankind."
The prime minister's speech was a reaffirmation, in even more vigorous language than that to which he is accustomed, of England's adherence to her war aims as already announced. He went further, however, in asserting the allies' demands for indemnities. "Indemnities," he declared, "constitute an essential part of the mechanism of civilization everywhere. Without them we have no guarantee against repetition of other wars."
Democratization would aid Germany would be the best guarantee for peace. We would negotiate in a different spirit and with less suspicion than with a free government than with the aggressive, arrogant Prussian militarism.
"Peace must be guaranteed by the destruction of the Prussian military power, so that German people's conduct," (Concluded on Page Fourteen, Column One)

Klamath Indians Are Anxious to Be Real Citizens

Indians Will Meet for Discussion of Ways and Means to Improve Conditions.

Klamath Falls, Or., June 29.—Dissatisfied with prevailing conditions on the Klamath Indian reservation and desiring to become citizens of the United States, a general meeting of all Indians has been called for July 5 at the old celebration grounds near Fort Klamath to consider plans for bringing this about.
Clayton Kirk, William Crawford, Abraham Charley and Garfield Jack are among the leaders of the movement, and are influential men of the tribe.
The Indians feel that they are now capable of undertaking the responsibilities of citizenship, and that they can look after their own interests better than they are taken care of by the Indian department.
Clayton Kirk has just returned from a trip to Washington, D. C., where he acted as a delegate in the tribal interest. He is not satisfied with the way the Indian problems are handled in the department.

WILSON READY TO TAKE OVER 'DRY' DECISION

Expresses Wish Question Be Left to Him After He Is Assured Prohibition Clause Cannot Be Eliminated.

INSISTS ON IMMEDIATE PASSAGE OF MEASURE

Whole Question Considered in All Phases at Cabinet Meeting.

Washington, June 29.—(U. P.)—Yielding to the request of President Wilson, dry leaders in the senate today reached an informal agreement with administration chiefs to modify the prohibition amendment of the food control bill so as to save beers and wines.
Washington, June 29.—(I. N. S.)—President Wilson is prepared today to take upon his shoulders the whole responsibility of deciding whether there shall be nationwide prohibition during the period of the war.
In conference with Senator Martin, Democratic leader, and Senator Gerry today, the president insisted that the food control bill must be passed immediately. He was told that the prohibition clause now threatens to hold up the measure indefinitely.
The president at first was inclined to favor the elimination of the prohibition clause to permit immediate passage of the bill, but when told such a move would be impossible, he expressed the wish that the question of prohibition be left to the discretion of the president. The whole question was taken up from every angle at today's cabinet meeting.
The prohibition question is one of the most serious now confronting the country, in the president's view. He will not immediately exercise the power to make the nation dry, if it is conferred upon him to the food bill, but will await the advice of food economists and revenue experts.
The president believes "some dry" prohibition will be imposed at this time, might cause serious unrest and might gravely interfere with the conduct of the war.
The prohibition muddles over the prohibition issue injected into the food control bill, advises today from all over the country indicate that the

Harry S. Montgomery, manager of the Oregon News company; W. D. Cater, an employee of the company, and James Montgomery, former Washington high school soccer star, were bound for work in an auto truck belonging to the company.
At the intersection of Oregon and East Water streets the machine skidded, slipped against a street car, knocking young Montgomery out of the machine to the pavement and spilling the contents of the Cater to the floor back of the seat.
Before either of the two men could gain the seat again the machine plunged over the sidewalk, then down the embankment to the O-W. R. N. Co. tracks.
Both men stayed with the machine on its wild roll. H. S. Montgomery received a broken shoulder and was shaken up. He was taken to the Good Samaritan hospital. Cater and James Montgomery were able to go on to work.
Car Only Slightly Damaged
The machine was scarcely hurt. The windshield was broken and a front wheel smashed, while a corner of the wooden top was damaged.
Montgomery lives at 1212 East Burnside street. He is a prominent member of the Larchmont club.
Caught with an automobile on the Southern Pacific tracks, East First and Belmont streets, two men had narrow escapes from being killed by a train this morning.

Motor Car Crumpled
Perry Austin, former Multnomah club football star, jumped just before the front wheels of No. 16 train from California hit the car.
The machine, a light roadster, was crumpled up like a telescope by the impact every leaf in the springs being broken, the wheels sprung and the tires punctured.
The automobile engine stalled while the train was in the middle of the track. The train was then two blocks away. Jumping out the men attempted to shove it off the tracks but Smith, who was driving, had left the car in gear and they were unable to move it.

Draft Boards Are Told They Must Hurry Up

Only 11 Out of 46 Boards in State Had Reported Themselves Organized at Noon Today.

Only 11 exemption boards out of 46 in the state had reported themselves organized to Adjutant General White at noon today.

From telephone inquiries, however, it was assured that practically all the other boards are in motion and would have their reports in shortly.
Following the declaration of one board to serve, instructions were issued by Provost Marshal General Crowder from Washington that declarations would not be accepted. The offending board when notified of this at once accepted the proposition and went to work.
General White is not prepared to state when the preliminary work will be completed, but it is reported before Saturday night.
At that rate, the country outside of Oregon concurring, the government will be able to start its draft early in July.

"South of the southern river we continue to gain ground on a wide front. We entered Arras, taking further prisoners and six machine guns."

GUARDSMEN WILL GO DIRECT TO SOUTHERN TRAINING CAMPS, PLAN

General Call for August 5 Probable to Make Length of Service Equal.

Washington, June 29.—(U. P.)—Shifting its original plans, the war department announced today that instead of holding national guard troops in their home quarters in the north until August 5, that of officers are sent directly to southern camps. Calls are arranged for July 15 and 25, and August 5, but it may be necessary to make a general call August 11.
As originally arranged, the national guardsmen were to be held in their home quarters for perhaps several weeks. Now there will be practically no delay in getting them into southern and southeastern camps.
The reason for the possible delay until August 5 is that of officers are rated for rank according to the actual time they are in service. Hence, some of the officers coming on July 15, for instance, would have opportunity to get higher rank than equally efficient officers called later, merely on the strength of seniority.
The matter of having a joint call August 5 is still in abeyance, and the three dates originally announced stand for the present.
