

CITIZENSHIP MEET TO OPEN WEDNESDAY AT CONVENTION OF N. E. A.

Richard K. Campbell, Commissioner of Bureau of Naturalization, in Charge.

ABLE SPEAKERS OBTAINED

Object of Sermon is to Further Work of Cooperating With Public Night Schools for Aliens.

Final arrangements for the second Citizenship convention to be held in connection with the National Education association convention next Wednesday and Thursday are now assuming definite form.

The convention is being held under the direction of Richard K. Campbell, commissioner of the bureau of naturalization of the department of labor.

Night School Work Encouraged. The object of the sessions is to further the national work of this bureau in cooperating with the public night schools in preparing naturalization candidates for citizenship responsibilities.

Mr. Crist made a survey of the public schools throughout the United States two years ago, visiting Portland at the time.

Prominent Speakers Obtained. President Wilson took active part in the first convention and delivered an inspiring address.

Wider Use of Schools Urged. The department of the N. E. A. for the wider use of school houses is to hold its sessions the morning of July 10 and 11 at the same auditorium.

Evergreen Route to Lewiston Is Sought. A. J. Elrod of Pasco, who is organizing the Evergreen Highway association, has arranged for a meeting in the Portland Chamber of Commerce July 19, to lay the program before Portlanders.

Associated with Mr. Elrod in the enterprise are a number of live wire residents of Pasco.

It has been planned that the proposed route be explored by a committee to consist of Captain I. M. Howell, secretary of state of Washington; Mr. Elrod and others.

It is reported that a pass has been found of comparatively easy grades over the mountains between Boise and Lewiston, which can be traveled the year around.

Highway Board Calls For Bids on Paving

Sealed bids will be received by the state highway commission July 20, for the following construction work:

Grading and hard surfacing the west side portion of the Pacific highway from the Multnomah county line to Newberg, approximately 15 miles; grading and hard surfacing on the Columbia river highway from Astoria to Svensen, a distance of approximately nine miles; grading and hard surfacing on the Pacific highway from the Clackamas-Marion county line five miles each, a total of 10 miles; hard surfacing approximately 6 1/2 miles on the Pacific highway in the Siskiyou mountain section, pavement to be of cement concrete, 10 feet wide, with three foot shoulders; hard surfacing an additional one mile in Yamhill county on the Yamhill-Nestucca highway near Sheridan, concrete surface.

'BE A VOLUNTEER' IS APPEAL BEING MADE TO MEN OF OREGON

Recruiting Station Making an Effort to Fill Up Gaps in Battery B Before Call.

"Be a Volunteer" is a phrase that will appear all over Portland. Arrangements have been made by Adjutant-General White and Captain C. F. Hogan with the street car management and the department stores to display this sentence prominently with appeals to the young men of Oregon to enlist.

At the recruiting office, 106 Fifth street, enlistments are being vigorously urged for Battery B, the new organization of field artillery authorized by President Wilson. Lieutenant C. L.

Johnson is in charge of this work under Captain Hogan, and a detail of Battery A in uniform with a field piece is stationed in front where explanations as to the operation and mechanism of the gun are given with great courtesy and patience all day long and well into the night.

Lieutenant Johnson has received a long distance telephone from four young men at Ashland requesting that places be held for them. He requests all who intend to join and whose business or personal affairs keep them from coming in immediately to telegraph or telephone him without delay.

Efforts to the enlisting force are being turned to Battery B as the other units fill up. There are still a few vacancies in the cavalry battalion, and enlistments are being received for Company C, Oregon Engineers, and the Oregon Naval militia.

"Coffee Dan" Is Dead

San Francisco, July 6.—(I. N. S.)—"Coffee Dan" Davis is dead. The news will carry far from San Francisco for the veteran restaurant keeper, Daniel S. Davis was known to tourists and visitors from all parts of the country. Death came late yesterday at the age of 87 years. "Coffee Dan" came to San Francisco in 1849 around the Horn and has lived in San Francisco ever since.

WHO BOSSES 'PEN,' IS LATEST PROBLEM FOR CONTROL BOARD

Law Says Governor Is, but Executive Thinks Others in Power Share the Burden.

LEGAL ADVICE IS NEEDED

Olcott and Withycombe Differ on Interpretation of Statute Passed Last Session.

Salem, Or., July 6.—What does chapter 174, laws of 1917, which says "the governor shall have full authority and complete direction over the Oregon state penitentiary," mean?

Governor Withycombe, at a meeting of the state board of control Thursday afternoon, took the position that the new law gives him complete authority over the management of the institution, including all appointments of employees and regulations, but that the state board of control is responsible for expenditures for improvements and the like.

Olcott's Idea Differs

Secretary of State Olcott said he had never considered the law in that light, as he had understood the law gave the governor complete jurisdiction over the prison and its management. State Treasurer Kay was not present at the meeting.

Up until 1913 the governor had full jurisdiction over the penitentiary. The 1913 legislature passed a law placing the control of the prison in the hands of the state board of control, the same as all other state institutions.

At the instance of Governor Withycombe the 1917 legislature passed the present law, vesting in the governor authority over the institution. But the governor evidently does not want to take full responsibility for the institution.

Section three of the law says: "For the reason that the governor is charged with the responsibility of conducting the affairs and government of the Oregon state penitentiary,

the provisions of this act are to be liberally construed." It is probable that the question of the extent the law confers authority upon the governor will have to be put to the attorney general for settlement.

State Wards May Work

Salem, Or., July 6.—Boys from the Oregon state training school and girls from the state industrial school soon may be seen in the berry patches of Willamette valley farms picking berries for wages. The state board of control, at a meeting Thursday afternoon, authorized the superintendents of those two institutions to permit their charges to engage in berry picking if they so desired.

Superintendent Hale of the boys' school said he wished to send a group of 20 boys to pick berries near Newberg. One of the employees from the school will accompany the boys and have charge of them. The boys will be allowed to keep all the money they earn.

Railroads Make Report

Salem, Or., July 6.—Operating revenues of the Superior valley railroad for 1916 amounted to \$342,047, according to its annual report. Operating expenses were \$246,370. The net income for the year was \$41,409.

Operating revenues of the Central Railroad of Oregon for 1916 were \$17,870, and operating expenses were \$14,750. The net income for the year was \$1,172.

Flax Seed Sold

Salem, Or., July 6.—The state board of control has approved the sale of 2000 bushels of flax seed to the Portland Linseed Oil company at \$2.75 a bushel, f. o. b. Salem, and the sacks to be returned.

The board approved an increase in the salary of the supervisor at the state training school for boys from \$85 to \$95 a month, and an increase in the salary of the supervisor at the state tuberculosis hospital from \$60 to \$70 a month.

Electrical Workers' Strike Averted

Aberdeen, Wash., July 6.—(I. N. S.) Twenty-eight girl telephone operators returned to work here today and a sympathetic strike of 6000 electrical workers on the Pacific coast was averted.

Settlement of the difficulty was reached late Wednesday at a conference of labor and employers' representatives and Henry M. White, federal mediator for the department of labor. The girls will receive an increase of 25 cents a day and the company agrees not to discriminate against members of their union.
