BY VELLA WINNER

In response to the many requests which come to this department from women who want to know where they can sew for the soldier boys or for the Red Cross, the following schedule is compiled: Official Red Cross sewing room on seventh floor of Lipman & Wolfe's in charge of Mrs. Thomas D. Honeyman is open from 1 to 5 and from 2 to 4 on Monday, Tuesday, Thursday and Friday for the making of surgical dressings and hospital supplies. Tuesday and Friday from 9:30 until 1:30 the time is given over to knitting, there being great need of woolen socks.

The Meier & Frank Red Cross sewing room, in charge of Mrs. M. McCallen, is open for work from 9 until 6 on Monday, Tuesday, Wednesday and Thursday for volunteer workers on all kinds of Red Cross supplies. On Friday and Saturday the rooms are open to give out information.

The surgical dressings committee, located in the Spalding building, is greatly in need of volunteer workers in the making of all kinds of surgical dressings, pads and bandages and the rooms are open on Tuesday and Wednesday from 8 to 12 and all day Thursday. The committee has not completed its investigation and is not prepared to make a report. It was admitted by members that women are replacing men to a considerable extent in Spokane in various lines. Whether this is being done beyond the immediate necessity of war conditions has not been determined.

Battery Recruit Telegraphs From St. Paul for Place.

Banks Filling Up Rapidly.—Recruits to both Batteries A and B of the field artillery are coming in rapidly. One of them is Tom Kennedy of St. Paul, Minn. He wired to inquire if there was room and received answer to come on. Tom came on and last Friday signed up, and Saturday was doing guard duty. He joined A in 1907, served until the battery came back from the Mexican border, and is happy to be with the boys again. "It's the real thing this time—that's why I came 300 miles to join," he said. Battery B wants 28 more men. Battery A will take 10 more. A good carpenter and a horsehoof can find a welcome in B, as also can an experienced trumpeter.

Records All Complete.—There is a great deal of clerical work to be done in the new organizations. Battery B has the advantage of an experienced clerk with Lieutenant Gay as an expert to advise. All work is kept right up to date, and in that way the records are easily filed.

A. J. Neve, Sales Manager of Owl Company, Here Visiting Local Manager.

Drug business at Portland and Seattle leads other Pacific coast cities, according to A. J. Neve, sales manager of the Owl Drug company, with headquarters in San Francisco. Adventures of the Tardy Butterfly

OF COURSE you remember how the kind east breeze took the belated butterfly on his back and helped him to fly. The sun by this time was way up in the sky and the air was warm and pleasant.

"I like earth much better than I thought I would," the butterfly said. "That's good," replied the east breeze cordially, and you'll like it still better after you've seen more."

The butterfly held on tight and they flew over the fields and meadows. But he couldn't help a feeling of disappointment as he looked at the earth.

"Oh dear," he sighed, "I thought the meadow would be green."

"It is in summer time," explained the east breeze, "but this is fall!"

"Is everything fall?" asked the butterfly, "won't I see any summer?"

The east breeze thought a minute. "As far as I can see just now," he replied kindly, "everything has changed. Can't you sleep some place for the winter and wake up next summer? That would be a fine scheme."

The butterfly shook his head. "Thank you very much for your suggestion, he said, politely, "but you see a butterfly has but one day to live—I cannot wait for another summer."

The east breeze was very much impressed with what the butterfly said, and he tried his best to think of something for him to do. At last an idea struck him. "I know," he exclaimed, "why didn't I think of it before? I will blow you over to the lake—it is just the same summer and winter. It is always blue and beautiful. I am sure you will like to see it."

The butterfly was sure he would like it, possibly he would like it, they blew over to the great blue lake. "Oh, isn't it beautiful!" cried the delighted butterfly, "it's bigger than my dreams! Can't we go out on it?"

Now the east breeze thought of going out on the lake, but the butterfly was so interested and happy he

terfly was so interested and happy he hated to refuse him anything. So he blew out over the water—way out over the water—out onto the great big lake. And then—just when they were way out—and the butterfly needed him the most of all—the east breeze suddenly remembered some other duties!

Without saying a word, he slipped away and the poor little butterfly was left all alone on the great lake!

He looked around in dismay. What should he do? And just then he spied a boat. Of course he knew nothing about boats, he only thought it looked solid and comfortable and safe. So he flew over to it and rested on the smooth deck. And there he stayed until the shore was reached.

And you may be sure that was the last exploring he did. He spent the rest of his day looking at the safe things he could easily see.

Beauty Chat BY LILLIAN RUSSELL

Simple Beauty in Dress

EXTRAVAGANCE in dress today may be considered unpatriotic, and it virtually is so. We have not to dress and the sooner dress is recognized by our women as a necessary art-production the better they will appear themselves. Women need no longer be vain. There is no pride in dressing the own skin. Their money may be used to better advantage. Dress is must—and dress well, and appropriately—yet dress and a proper care for it ought not to mind for merely to vanity nor impair in any degree the moral tone.

A woman should care what she wears for her own sake and for the sake of those about her. It is a fault, not a virtue, to be reckless as to the dress she wears on the eyes, just as it is a fault to be indifferent to the feelings of others. In either case there is a sad absence of those subtle and beautiful perceptions that constitute a delicate and gentle mind.

It is difficult for a woman to be really well dressed under the existing prejudice that everybody must be dressed like everybody else. This notion of a requisite livery is paralyzing to anything like development of individual taste.

There can be no originality of scheme until individual taste is admitted to be free and that cannot be until all are completely subservient to law, and that law usually determined by folks who have neither natural feeling for beauty nor education. As for the dressmaker and the tailor, they are merely playing into the hands of various manufacturers whose interest is to sell the goods, be they good or bad. The manufacturers must be kept going, therefore the fashions must change.

It is absurd to expect that every variety of short and tall, grave and gay, young and old, must be dressed the same. It can be so when nature reveals in endless dissimilarity. Alas! perhaps it is a misfortune to be an individual at all. We know the pity, the deep commiseration which artists say ill-natured women feel for those who are congenitally conspicuous—for good looks. Is it a similar commiseration for those who possess the next best thing—good taste? They would destroy the interpretation of a beautiful mind as they would like

the hospital nurse is not only artistic and becoming to all women, but it is studied out for comfort. Simplicity and comfort, then, should be our aim; utility must be always considered, so matter how fine our material. Use old lace if you have it, but never let it be an impediment to action. Let our dress express our patriotism. It need not be made of khaki, nor red, white and blue material. It should express modesty, good taste and usefulness, with enough attractiveness in line and color to be pleasant to the eye of a wounded soldier.

I agree with Lord Bacon, who said: "The virtue of riches is temperance, the virtue of adversity is fortitude."

FOUR WEEKS IN HOSPITAL

No Relief—Mrs. Brown Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Cleveland, Ohio.—"For years I suffered so sometimes it seemed as though I could not stand it any longer. It was all in my lower organs. At times I could hardly walk, for if I stepped on a little stone I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks but when I came home I would faint just the same and had the same pains. A friend who is a nurse asked me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal, it has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home."—Mrs. W. C.
