Planting of Winter Potatoes Now Urged

San Francisco, Aug. 11 .- (I. N. S.)-Planting of winter potatoes in the back yards and vacant lots throughout the entire state is urged by the state council of defense, in a bulletin sent to the county councils of defense and various patriotic and agricultural organizations

The state council believes that the price of potatoes will skyrocket this winter owing to the heavy demand for this necessary product by American troops and our allies.

JOURNAL ADVERTISING

Hundreds of Letters Come in Willows for Furniture.

"Our business has more than trebled -is four times as great as when, al most a year ago, we inserted our little inch and a half ad on the industrial page of The Journal," says James L. Gulley of the Thayer, Shaver & Gulley company, 193 East Water street. "And more than this," Mr. Gulley added, "from all our other advertising we have received but meager results. But The Journal has certainly paid us," and he said this with an

emphasis the earnestness of which was unmistakeable. Hundreds Send Letters A few weeks ago it was announced in these columns that the Willowcraft

Furniture company was in the market for all willows offered at 8 to 10 cents pound. Say, we had about 400 letters in relation to that announcement," said . H. Bristow, secretary treasurer of the company, "all of which shows that the people generally read those

pages carefully."

Similar expressions come from nu merous concerns which have their cards among the manufacturers, and so sensible has the feature appeared to others that it is being taken up by the manufacturers in many of the larger cities both east and west. One of the principal parts of the Thayer, Shaver & Gulley Machine works business consists of changing a great deal of stuff in its line. automobiles over into trucks, at small expense. For example, a one ton Ford truck is produced at a cost of \$370; 1% tons, \$420; two tons, \$470; their auto. The same may be said of Cadillacs, to eat anything else.

Several pages of register are filled with names of parties using trucks of this character, with the result that the Thayer, Shaver & Gulley concern is "driven Response to Requests for to death" to keep up with orders on its books.

Filled in Portland is manufacturing an \$18,000

Coopey Says Portland having a Buyers' Week. How nice it would be if we could tell those buyers that the goods we are selling are all made right here and are guaranteed to be just as represented and good as the best. As these merchants represent the producers of the various parts of this and joining states, they would be pleased to buy home made goods, knowing that pay-rolls means customers for them. **ATTACHMENTS** for all makes of cars. l-ton attachment \$360 l½-ton attachment 419 2-ton attachment 460 Phone East 7437. 193 E.
