For Protecting Trousers from Mud, a French Inventor has Brought out a Spur

For protecting trousers from mud, a French inventor has brought out a spur that is attached to shoes like a spur.

HEAVY SALMON RUN ON LOWER COLUMBIA IS RECORD BREAKER

Catch Sunday Night and Monday Results in Hand—some Below to Gillnetters.

ONE MAN MAKES \$600

Canneries and Cold Storage Firms Working Hard to Take Care of Fish; Fishermen Paid 10c Lb.

Astoria, Or., Aug. 14.—What one re-catcher for a local cannery stated to be the biggest spring run of fish he ever saw began Sunday night and is continuing.

Fish Just Coming In

The fact that the catches were confined to the lower end of the river indicate that the fish are just coming in. The fish being caught are those which generally come into the river the latter part of June and July.

10 Cents a Pound Paid

Canneries are paying 10 cents a pound for fish this year, so a three-ton catch means \$600.

Portland Motorists Hit Wood Pile

Corvallis, Or., Aug. 14.—C. C. Ralph, an electrician in the Portland fire department, and Mrs. Ella Ralph, his wife, and Mrs. F. W. Wehso, also of Portland, who were passing through Corvallis about 2:15 Saturday morning, had a narrow escape when the machine in which they were traveling ran into a wood pile on Second street.

Program of Events Rapidly Nearing Completion; Governors and Mayors Invited

Astoria's twenty-second annual regatta will be held August 31 and September 1, 2 and 3. Program arrangements are rapidly nearing completion.

Careless Man Is Dangerous

"Cooperate with the rangers and wardens, they are guarding your interests." A careless man is a dangerous man in the woods.

Not Corvallis Machine

Corvallis, Or., Aug. 14.—The man and woman reported injured in an automobile accident near Canyonville, on the Pacific highway, were not in a machine belonging to Corvallis people as reported.

FOREST FIRE DANGER GROWS WITH OPENING OF HUNTING SEASON

Assistant District Forester Appeals to Those Who Enter Woods to Be Cautious.

SEASON UNUSUALLY DRY

Oregon's Forest Products Are Greatly Needed for War Purposes—Cooperation Is Required.

With Oregon's forests vitally needed for war uses, and with fire danger, due to prolonged dry weather, greater than for many years, the deer-hunting season, which forest officials know as the "fire season," opens Wednesday.

Appeal Made to Hunters

"Clip this out and tuck it in the lining of your hat," said Charles H. Flory, assistant district United States forester, who prepared the following appeal to the deer-hunters.

To Claim Exemption

John Day, Or., Aug. 14.—John E. Wilson, the only John Day man to be called under the first draft, has been notified to appear before the local exemption board at Canyon City Thursday for examination.

National Forest Inspected

John Day, Or., Aug. 14.—J. G. Flack, property auditor of the forest service, with headquarters in Ogden, Utah, spent the last of the week inspecting the property of the Malheur national forests.

Timber, next to land itself, is Oregon's greatest resource.

"Fire is timber's greatest enemy and had in the past destroyed much more timber than has been cut. A season is now at hand that in some respects is worse than 1910 and 1914. Patrolmen and rangers are taxed to the limit. The opening of the hunting season means more people in the woods, and, unless they are careful, more fires, and, as a result, increased losses and damage.

"Hunters and campers owe it as a patriotic duty to their country and state to use extra precaution to prevent the spread of fire."

School Teacher Now Is a Forest Ranger

Earl B. Moore Resigns Place with John Day High School to Start New Duties Next Week at Pendleton.

John Day, Or., Aug. 14.—Earl B. Moore, principal of the John Day high school for the last two years, has resigned that position to take a place as district forest ranger on the Umatilla national forest, with headquarters at Pendleton. He will report for duty at Pendleton early next week.

Teachers' Positions Secured

John Day, Or., Aug. 14.—Three last year's graduates of the John Day high school have secured teachers' positions in Grant county. Miss Lillian Mallory will teach at the Bryan school, on Canyon creek, Miss Beatie McGirr at the Silvie school, in Silvie valley, and Roland Belshaw at the Laycock school, four miles below John Day.

Do Not Build Campfires in Dangerous Places

"Never leave a campfire burning—it's the same as the gun that wasn't loaded." "Put an extra pail of water on the fire, so as to be sure it is out before you leave."

"Do not thoughtlessly drop lighted matches, tobacco or cigarette stubs while in the woods. A large number of fires start from this cause. Break the match into two pieces before dropping it."

"A careless man is a dangerous man in the woods. Carelessness and absent-mindedness are thoroughly out of place in nature. For the protection of your fellow-man, see the game before you shoot. Don't take pot shots or chances. The laurels of bringing home the first meat are soon forgotten, but time doesn't erase the stigma of killing a fellow-man."

"Forest cover in the mountains is necessary to regulate stream flow and furnish refuge and natural conditions for our native game. Also, it is a resource which is bringing in over \$70,000 of outside money, and bids fair to increase five-fold in the next decade."

Meier & Frank Co. LOWER PRICE Down Stairs STORE
