Today's Aid to Beauty

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair-washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of canthrox (which you can get at any druggist's) in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a stiffness which makes it seem much heavier than it is. After a canthrox shampoo, arranging the hair is a pleasure. (Adv.)

That Nifty Silk Sport Suit

that you admired so much on Jane—say, but it sure was a pippin. But did you know that she bought it at Cherry's? Yes, and only paid a small part of the price cash when she got it \$25! Yes, indeed, that is all she had to pay for it. They also have some wonderful values in Jersey sport suits for \$26. Better go and look them over.

Their store is at 339-31 Washington street—Pitcock block. (Adv.)

Floor Waxing
Hardwood floors should be thoroughly cleaned before being waxed and polished. Let our men do this hard work for you.

Mrs. Luis Abelli (Crystal Hyland), who with Mr. Abelli left a few days ago for the latter's home in Bolivia. Mr. and Mrs. Abelli have made their home during the past year on the George Hyland ranch back of Vancouver, Wash. Their charming suburban home overlooking the lake was the scene of many pleasant social gatherings and they will be much missed among a wide circle of friends in Portland.

Pretty Girls at Pantages
THE Mimic World of 1917, the headline act as Pantages this week, is a sensation. It is a musical comedy feast, boasting of that unusual combination, a chorus that is not only a thing of beauty but a joy forever as to voices. The girls are beautiful, the costumes colorful, the musical numbers catchy and the comedy sparkling. From opening chorus to final curtain, the act seems with cleverness, served with snags and froth. Felix, of the well known vaudeville team of Felix and Cairo, is at his best in an impersonation of George M. Cohan. Fritz Schuff is accurately and charmingly imitated by Hattie Herlein, the girl with the worth while voice. The Hudson sisters, Helen and Ola, frolic delightfully as the famous Dolly sisters, and Jura Nilova adds an interesting portrait of the great Kubeik, violinist. Other delineations of famous stars are equally noteworthy. Seldom is an offering received with more acclaim than Monday's enthusiastic audiences accorded the Mimic World. Other acts in the entertaining bill were Clark and Walker, smart comedians; Joe Roberts, banjoist of note; Lampinina, illusionist; Smith and McGuire, singers and dancers, and Billy Abrams and Agnes Johns in a domestic playlet. "When Hubby Realizes" The thirteenth episode of "The New and Improved" Ruth Roland, includes the usual measure of thrills and suspense.

Billie Burke Coming
Billie Burke, adorable heroine of filmdom, in "The Mysterious Miss Terry," a screen play by Gaiety Burgers, will be an early attraction at the Columbia theatre. Miss Burke is seen as an actress in disguise, living at an ordinary boarding-house. It is said to be a part particularly suited to her piquant beauty and appealing femininity. "Money has nothing to do with happiness," says the film-haired beauty. "Work is a definite and fixed occupation—is the only thing that will keep a woman young, keep her happy and keep her beautiful. Money, with nothing definite to do, is the deadliest

disaster in the world." It would seem that Miss Burke practices what she preaches, for she has been busy all summer in the picture studios, and this fall will be working in the "movies" during the daytime and playing on Broadway in a spoken play at night, under the direction of her husband, F. Ziegfeld Jr.

Jack Pickford to Wed
Jack Pickford, the clever portrayer of "The Varmint" at the Liberty theatre, has another distinction besides being brother to the famous Mary. He is soon to join the "Only Their Husbands" club, which numbers among its prominent members Elliott Dexter, Lou Tellegen and Owen Moore. Olive Thomas, seen here last week in "An Even Break" and one of the most fascinating of the younger motion picture stars, has announced her engagement to the attractive young "Varmint." Jack has been a film star several years and is just old enough to get caught in the registration. Olive is just 20. They have been sweethearts for a long time and both are in her Los Angeles.

ROAD BONDS ARE SOLD BY BOARD OF CONTROL TO EASTERN BROKERS

Prospects Are, However, Government Will Not Match \$400,000 for One Highway

Salem, Or., Aug. 21.—State Treasurer Kay, acting for the state board of control, Monday awarded the \$400,000 of 4 per cent road bonds to E. H. Rollins & Son of Chicago, for \$388,040. This was the highest offer received when bids were opened last week.

This money is to be applied in matching the federal appropriation for improvement of forest and post roads in the state. While the state treasury will be available, the prospect for getting the cooperative work under way on the road selected by the state is not bright, because of the inability of the state highway department to prove to the satisfaction of the government that the road will be a rural post road.

The state highway commission selected a stretch of five miles, known as the Wolf Creek hill road, on the Pacific highway, this side of Grants Pass, on which to begin the expenditure of the cooperative fund. The project would cost \$3,600, it is estimated. So far the government officials have declined to approve of using the government funds on that road.

"It is our opinion that the evidence so far presented will not warrant a finding by the secretary of agriculture that this project conforms to the act," says L. I. Hewes, government district engineer at Portland, in a letter to State Highway Engineer Nunn. He refers to the provisions of the Shaefer bill, under which the federal appropriation is made. The point is that the data furnished by the highway department do not show "the future service of the proposed road as a rural postroad."

"We will be unable to furnish to you any further proof that this road will ever be used as a rural postroad," says the secretary of agriculture. "It seems that such proof would be almost impossible, as any project on which we might request aid, as it is a matter always adjusted by the government at such times as the population justifies the establishment of such route."

It would appear that the government officials want to spend the money for the improvement of rural postroads already established as such.

Auto Dealers' Tour Party Visits Salem

Salem, Or., Aug. 21.—Arriving in Salem about 11 o'clock Monday forenoon, members of the Dealers' Motor Car association, of Portland, who are making a business-pleasure run to Southern Oregon and return, spent five hours in the capital city.

They were met at the state fair grounds by W. P. Burns, Elbert Thompson and George Vick, representing the Salem Commercial club, and accompanied into the city. At noon the Salem Commercial club was host to the visitors at a luncheon at the Marion hotel. F. G. Dekebach was chairman. William McDitchie, Jr. and G. E. Halvorsen made short talks to which response was made by the visitors, and Mrs. W. Carlton Smith sang.

After luncheon it had been planned to take the dealers on a spin through the grounds of the state hospital and other state institutions, but they preferred to talk shop with local dealers and acquaint themselves better with local conditions.

Good Fellowship
GOOD fellowship, in the general acceptation of the term, stands for anything but what it really is. A "good fellow," either male or female, is supposed to be a good mixer. He is supposed to have no qualms about anything. His or her reputation, health and wealth are not supposed to stand in the way of the pleasures of his comrades. Many crimes have been committed in the name of good fellowship.

"Be a good fellow" has caused many young men and women to slip down the ladder that leads to the pinnacle of real manhood and real womanhood. Beware of the man or woman whose only aim is in being a good fellow for that means associations of a questionable quality, communion of a low order, intimacy without regard to qualification, joint interests—regardless of consequences. Good fellowship rightly meant and understood stands for kindness without intimacy, gentleness without profligacy, joint interests of a higher order and communication of good works.

Let every woman be a good fellow in that sense and no harm can come to her or hers by her actions. In good fellowship there is no jealousy—no envy nor backsliding. The olden, golden rule, "Love your neighbor as yourself," should be studied and analyzed and digested and then enacted during every hour of the day. There has never been an opportunity so propitious as the present time while the world is at war. Women must exercise real good fellowship. We have work to do and we must all do it together with one mind. The moment our first boy crossed the ocean to defend our liberty the electric current of motherhood was touched. The mother thought in every woman's heart responded to the call—"I must do for my boys." Everything that good-fellowship and love can do for them. It is good fellowship that brings women together to sew, knit and cook for our boys. In that work of love no woman has time for selfishness, jealousy or envy. If she is profligate with her money it is such a good cause that she can reap nothing but satisfaction and happiness by her generosity. It is not within the power of man to do what women can do for our fighting boys.

Men are busy with the affairs of the country. They do not understand what details are, except with figures. Therefore it is left to the women to attend to such things.

Comfort kit is as important to every boy as our work bags and hand bags are to us. They need warm mufflers in winter, woolen helmets, wrist levers and knitted bandages. The hospitals need pajamas for the wounded. Good fellowship should bring women together in every community, however small.

Seattle, Aug. 21.—(I. N. Four Cent Fare Is Under Discussion

Olympia, Wash., Aug. 21.—(I. N. S.)—Members of the state public service commission have left here for Seattle, where the four cent street car fare on cars of the Puget Sound Traction, Light & Power company will be discussed with officials of the company.

The commission recently suspended new tariffs of the company abolishing the four cent fare. It is now considered the question of a four cent fare is a matter of franchise provision and the state commissioners have no power in the matter.

Despite the commission suspended the schedule abolishing the lower fare and today's hearings will go into the question.

OAKS AMUSEMENT PARK

CHAT NO. 78

For special features the Oaks Park surely is outdoing any precedent. The fireworks Saturday night were a revelation to Portland people. Crowds were held spellbound while wonderful displays were drawn in lines of fire—beautiful rockets shot into the air and burst into scores of vari-colored stars, and even our own American flag waved with fiery stars and stripes. Sunday Portland's finest divers took advantage of the splendid springboards and clean, fresh water at the Oaks. Mrs. Constance Myers performed some of her most difficult dives while hundreds of people looked on, and the two Payne girls did some beautiful work. It really was a treat to the spectators and bathers who springboards and clean, fresh water at the Oaks.
