COMMODORE HARDY WILL VISIT JAPAN AS

Portland Man Plans to Make the Journey Under the Auspices of the Japanese-Oregon Society.

"Commodore" E. H. Hardy, probably the sole survivor of the Perry command which visited Japan 61 years ago, will leave Portland October 27 on another visit to that country on a lecture tour under the auspices of the Japanese-Oregon as

The plan to have the commodore go to Japan was originated by S. Seno, editor of the Japanese paper here. It was talked up among the local people and they raised all of the money for the trip. M. Matsu will go with him to act as interpreter. There was some question at first

as to whether or not the veteran warrior could make the trip, but he was examined by two doctors and found to have a blood pressure of 120, about the same as any young man of 30, and his body was in good condition. "The doctors said I was fit for anything," he said. "I'm ready today for a fight or a frolic."

The commodore went to Japan on the Mississippi, and was later made one of the crew of the Pohattan when t delivered the treaty after it had been ratified by the senate and signed by the president. That was
