Salem, Or., Sept. 15 .- Attorney General Brown has filed in the supreme court briefs for the state in the Hyde land fraud cases, which are on appeal from seven circuit courts. The briefs fill two large volumes, making a total of 723 printed pages.

Immediately following the Pendleton term of the supreme court, which comes in October, the attorney general said he will move to have the Hyde cases advanced on the court calendar so an early hearing may be had, because of the public importance of the cases, which involve about 30,000 acres of land which it is contended have been taken from the state by fraud,

Great Fraud Charged "The testimony of the witnesses who testified at Washington, or before the referee, as well as those included in the stipulation," says the attorney general's brief, "leaves no question as the method used by Hyde in his and transactions. Six out of seven circuit courts, be-fore which Hyde land fraud cases were tried, found that the school lands had tried, found that the school lands had obtained from the state by fraud should be returned to the state. The seventh court, presided over by Judge Campbell of Clackamas county, held that a law passed in 1901 cured the title to the lands and estopped the state from recovering the lands,

All seven cases are on appeal to the supreme court and are being merged into one hearing.
