PRESIDENT APPOINTS COMMITTEE ON LABOR HEADED BY WILSON

Secretary of Labor Selected to Lead Federal Investigation on the Pacific Coast.

Washington, Sept. 21.—(I. N. S.)—President Wilson Thursday afternoon moved to settle the labor difficulties threatening the war industries in the mountain districts and on the Pacific coast.

A letter to Secretary of Labor Wilson from the chief executive was made public disclosing the details of the plan, the gist of which is the appointment of a commission to get in personal touch with the employes and employers where there are industrial disturbances, or threatened disturbances. The commission, which will be headed by Secretary of Labor Wilson, would report personally to the president in all matters requiring his immediate and personal attention.

The president's letter to the secretary of labor, bearing date of September 19, follows:

"I am very much interested in the labor situation in the mountain region and on the Pacific coast. I have listened with attention and concern to the numerous charges of misconduct and injustice that representatives of both employers and employes have made against each other. I have decided to appoint a committee to visit the localities where disagreements have been most frequent, as my personal representatives.

The committee will consist of William B. Wilson, secretary of labor; Colonel J. L. Spangler of Pennsylvania, Verner Z. Reed of Colorado, John H. Walker of Illinois, and E. P. Marsh of Washington. Felix Frankfurter of New York will act as secretary of the committee. It will be the duty of the committee to visit in each instance the governor of the state, advising him that they are there as the personal representatives of the president with a view of lending sympathetic counsel and aid to the state government in the development of a better understanding between employers and employes, also with the state governors.

"The committee should endeavor to learn the real causes for any discontent which may exist on either side, not by the formal process of public hearings, but by getting in touch with the workers and employers, by the more informal process of personal conversations. I would be pleased to have the committee report to me, personally, from time to time, such information as may require by personal and immediate attention.

(Signed) "WOODROW WILSON."

CARMEN EXPECT THEIR WAGE DEMAND WILL BE GRANTED BY OCT. 1ST

Tentative Understanding Said to Have Been Reached by Company and Employes.

Irrespective of the decision that may be given by the public service commission on the application of the Portland Railway, Light & Power company to increase fares to 6 cents, the carmen's union expects that its demands for increased wages will be met by October 1.

This was the statement Thursday by a union official. No ultimatum to the effect that the increase must be made has been given, according to this official, who says instead that "a tentative understanding" has been reached between officials of the company and the union's heads.

The same official furthermore said the union men and President Griffith of the company had held a series of meetings last week in which the company head was again reminded of the date when higher wages are expected.

No hint of what the carmen would do should the company fail to meet the demands was given, but the union official denied that a strike would be called immediately. While the car men are in favor of the 6 cent fare, and believe the company is hard pressed for funds with which to meet the increase asked in wages, they are not bound by any agreement that failure on the part of the public service commission to allow the 6 cent fare would mean they were not to get the increase.

The increased wages are expected regardless of the outcome of the rate case, and the carmen say that it is up to the company to raise the money somehow.

Deputy in Coroner's Office Is Arrested

Mother Says He Enticed Child to Rear Office at Morgue; Woman Also Held on His Complaint.

Deputy Coroner R. J. Loynes was arrested Thursday on complaint of Mrs. Carrie Eaton of 291 Third street, who charges him with having enticed her small daughter into a rear room at the public morgue. The warrant under which Loynes was arrested charges "disorderly conduct."

Mrs. Eaton was also arrested on a warrant sworn out by the deputy coroner. She is charged with having carried concealed weapons. Both were released on their own recognizance, and their cases probably will come up in municipal court Friday.

Mrs. Eaton told the city attorney's office, when seeking Loynes' arrest, that she found her eight year old daughter in a rear room at the public morgue, and that the child told her Loynes had offered her five cents if she would go there with him.

Loynes says that Mrs. Eaton rushed frantically into the coroner's office, brandishing a revolver and threatening to shoot him. Mrs. Eaton admits that she had a revolver with her.

At the request of the war department the chief forester has designated George H. Cecil, district forester at Portland, to assist in recruiting two battalions of loggers and lumbermen, as part of a second Forest regiment which will be known as the Twentieth Engineers (Forest) regiment.

Each battalion will consist of three companies of 250 men each, all of whom should be experienced loggers or mill men. Special request has been made for a limited number of men especially qualified for sawyers, sawmill engineers, filers, ratchet setters, millwrights, electricians, edgermen, foremen, woods bosses and motortruck operators. Information regarding this regiment can be secured at the district forester's office, Beck building, or at any forest supervisor's headquarters in Oregon or Wasrington.
