## MILK SITUATION FOR CITY'S CONSUMERS BECOMING CRITICAL

Will Have to Be Sold.

CONDENSARIES PAY MORE

Communication Sent Last Week By the Distributors.

With distributors and producers apparently ignoring the price recommendation of the emergency milk amission, Portland's milk supply situation seems more serious than ever, Robert Ireland, one of the large distributors, declared this merning that if present conditions continue, the distributors will have no option but to prevent further losses by going out of business. As long as the producers who also distribute milk fail to act on the commission's recommendation of a price of 12% cents a quart the distributors cannot act on it and cannot pay to producers, he said, the price of 6% cents a quart recommended by

Condersaries Paying More

At present, he explained, the price paid by condensaries to producers is more of a controlling factor in the price paid by distributors than any other element and word from Seattle Tuesday night that the condersaries of Washington and Oregon are about to pay \$2.75 a hundred pounds for milk, an increase of 15 cents a hundred, makes the situation more difficult as long as the local dairymen-distributors refuse to increase their price to consumers in conformity with the milk commission's recommendation.

Percy A. Smith, secretary of the Oregon Dairymen's league, denied this norning that the league intends to esblish a central milk distributing lant in Portland or has taken any Reps in that direction.

Commission Preparing Answer He intimated, however, that within days the dairymen will serve notice a the distributors that they must have 2.90 a hundred pounds for milk as commended by the milk commission, stead of the \$2.51 now being paid. Henry E. Reed, chairman of the ergency milk commision, announced ast week by the distributors. The bankers setting forth the purpose of distributors stated they would be unble to adopt the commission's price ommendation unless the dairymen-Istributors also adopted it. # LANG & CO.

Secures Rainie Agency

W/E beg to announce to the people of Portland, and to the trade generally, that Lang & Company have secured the distributing agency for the "wonder beverage," the NEW RAINIER.

After having fully investigated every phase of the manufacture of this remarkable nonalcoholic drink, which included the most exhaustive laboratory tests for purity, and healthfulness, satisfying ourselves of its high merit and general superiority over all other so-called cereal beverages, a contract was entered into which gives us control of the sale of Rainier in all cities and territory where Lang & Co. operate wholesale houses.

Rainier, we find, is the only soft malt drink in the world that passes through the allimportant stage of final fermentation and emerges in the form of a pure, wholesome, foamy beverage of the most delicious flavor, yet free from the slightest trace of alcohol.

Physicians, especially, will appreciate the difference between a beverage that is just merely the product of boiled or steeped grains, flavored to taste, and the NEW Rainier, which is the purest essence of selected grains and hops, in perfectly balanced proportions, scientifically finished even to thorough fermentation. This can only be accomplished under a recently patented process, controlled by the Rainier Products Company of Seattle.

> .YOU can drink Rainier—all you want of it—with the fullest confidence that it is fully predigested and that it will not ferment in the stomach, thereby causing indigestion. Invalids and convalescents will find it delightfully refreshing and highly nutritious because of its high food value and invigorating qualities.

> Just a word in closing: Rainier is not offered as a near-beer or beer substitute. It stands wholly on its merits as a wholesome, appetizing, non-alcoholic drink of deliciously satisfying flavor - a home drink of unusual excellence, strongly recommended for old and young alike. A drink that can be ordered from your grocer or druggist and served on the family table.

The trade will hereafter be supplied by Lang & Co., Portland; and its branches in Oregon and Idaho.

> Rainier is served in all leading cafes, hotels, clubs, soda fountains, and on dining cars and steamships.

#### Many people are worrying them-selves sick over the high cost of living. War time with its excitement and hysteria is a trial to the strongest nerves. To those whose nervous systems are run down by overwork or worry, to those who are on the verge of neurasthenia, it is a time of danger. There is no tonic for the nerves that is not a tonic for every other part of the body. There is no form of debility ust, 1915, when exposition crowds brought the total to \$236,935. that does not rob the nerves of nourishment. The remedy therefore for nervous breakdown is a tonic that will build up the general health, revitalize the blood and enable it to carry to the nerves the elements that they need. Dr. Williams' Pink Pills are an ideal tonic for this condition because they are non-alcoholic and neurasthenic patients should avoid alcoholic stimulants.
