first step forward in the first stay spangled world's series ever played here this afternoon when they whipped the Giants, 2 to 1.

In the shadow of the Stars and Stripes, Eddie Cicotte and Slim Sallee fought to a finish in one of the greatest games ever played in a world's series. It was hard, rocky traveling at every step. A powerful smash by Happy Feisch into the leftfield bleachers was the straw that turned the balance to Chicago.

That came in the fourth inning. The first White Sox run crossed the plate in the third. Cicotte himself provided the start for a row of hits. Cicotte singled but was thrown out at third by Robertson on J. Collins' single, the latter going to second. Collins scored on a double by McMullin,

the Sox from a tied score. The action was fast and tense at every step. The crowd was kept on its toes by great fielding, and cheered wildly the strong, valiant efforts of the rival hurlers.

The White Sox connected for the same number of extra hits, with McMullin's double, which scored J. Collins, and Felsch's

For the Glants, Robertson's double was without result, as he was left stranded at second.

Although Chicago furnished one of the greatest outpourings ever seen for world's series, including those who got into the park and those who didn't, the Windy City apparently takes its victories with less upheaval than does Where Boston has been in the habit of staging wild parades about the field for years, past, the White Sox crowd was content to let loose one great roar as the last out was made and then beat it for home. The game by innings follows:

MANAGER MILLER IS EAGER FOR RESULTS

Bankers Will Meet Secretary McAdoo for Conference Next Wednesday.

"Oregon hasn't awakened yet in the

second Liberty loan campaign," de-clared C. A. Miller, state campaign manager, this morning. It was the first word of complaint since he arrived in Portland to take charge of the regon campaign for the government. The state has been apportioned \$16,-500,000 of the \$3,000,000,000 second Liberty bond issue. If the people of the nation subscribe \$5,000,000,000, as expected, Oregon's share will be \$24,-500,000. Yet, while subscriptions in San Francisco alone up to Friday evening last night totaled \$6,500,000, and the state of Washington reported more than \$1,650,000 this morning. Oregon as a whole had reported only \$653,100 up to 10:30 o'clock this morn-

ing, and Friday's total for all Oregon

was but \$188,050. Day's Increase Half Million Though there was an element of encouragement in the fact that the inrease had been nearly half a million dollars in a day, there was no evidence that the banks had made the necessary efforts to bring in their large subscribers, or that the people generally had roused to the importance of decisively loyal support of the government in its second appeal for funds with which to finance the war.

There seemed to be forgetfulness hat the government's 4 per cent second Liberty bonds are the soundest investment in the world because backed by all the taxable wealth of 313,150 the United States.

Citizens Must Wake Up There seemed to be an oversight of the fact that the government must have the money in order to prosecute the war thereby protecting the very property which should produce the

Wilson Commends Congress

Washington, Oct. 6.—(I. N. S.)—The president of the United States today issued a statement commending the work of the adjourning Sixty-fifth congress.

The president's statement follows:

"The Sixty-fifth congress, now adjourning, deserves the gratitude and appreciation of a people whose will and purpose believe it has faithfully expressed. One cannot examine the records of its action without being impressed by its completeness, its courage and its full comprehension of a great task. The needs of the army and the navy have been met in a way that assures the effectiveness of American arms, and the warmaking branch of the government has been abundantly equipped with the powers that were necessary to make the action of the nation effective.

"I believe that it has also, in equal degree and as far as possible in the face of war, safeguarded the rights of the people and kept in mind the considerations of social justice, so often obscured in the hasty readjustments of such a crisis.

"It seems to me that the work of this remarkable session has not only been done thoroughly, but that it has also been done with the utmost dispatch possible in the circumstance or consistent with the critical matters dealt with. Best of all, it has left no doubt as to the spirit and determination of the country, but has affirmed them as loyally and as emphatically as our fine soldiers will affirm them on the firing line."
