Man Was Accidental

Pendleton, Or., Oct. 16. - That Dr. William R. Scott of Athena came to

his death through the accidental dis-

charge of an automatic shotgun Fri-

day, was the verdict of the coroner's

jury drawn to investigate the circum-

stances of the tragedy. There was

conclusive evidence of an accident and

"in view of the evidence at hand," the

jury felt justified in bringing a judg-

CRAFT IN COASTWISE TRADE WILL NOT BE TAKEN AT THIS TIME

Commandeering Is Merely to Be Prepared for Any

WELLS RETURNS

Beaver and Rose City Will Continue Indefinitely on Present Schedule, Says Agent.

The shipping board has no intention of taking over vessels in the coastwise trade on the Pacific coast at 4:15 p. m. The commandeering of all vessels of 2500 tons or over is merely done to be prepared for any emergency and for placing the business of such steamers under the control of the government.

Such were the statements of W. D. Wells, Portland agent of the San Francisco & Portland Steamship scompany, who returned Sunday night from a trip of 16 days in the East to view conditions. He spent four days in New York several days in Washington and other large cities.

"While at Washington I had a talk with a member of the shipping board," said Mr. Wells, "and he gave me the information I have just outlined." The steamers Beaver and Rose City of the San Francisco and Portland line

are the only vessels plying at this port to come under the commandeer order. and Monday were formally taken over by the government. "Under the system they will con-

tinue indefinitely on their present schedule," said Mr. Wells, "and there is a probability that there will never be any need for them in war service.' Mr. Wells said he had received no official word concerning the commandeer order, but presumed that such word had been conveyed to the officials at San Francisco.

San Francisco Awaits Orders San Francisco, Cal., Oct. 16 .- (U. P.) -San Francisco shipping men today awaited anxiously receipt of orders from Washington showing to what use Pacific coast vessels over 2500 tons burden would be put under the govern-ment's requisition effective Monday. The understanding is that the vessels not immediately needed will be operated by the owners on the govern-

are expected to be ordered immediately to Australia for wheat, while the Mat sonia and Maui probably will become hospital ships.

ment's account.

The Pacific Steamship company expects the government to take the Pres-Officials of the Oceanic and Sierra, now running to Australia.

QUINAULT SURVIVORS AT S. F.

Material About Stranded Ship Has Been Rescued.

San Francisco, Oct. 16 .- (I N. S.)-The survivors of the Brookings steamer Quinault, which went ashore between Shelter cove and Point Gorda last week, arrived at San Francisco Monday morning. They were to have been taken aboard the steamer Sea Foam, but on account of the fog they decided to drive from Shelter cove to Fortune and take the train to San Francisco. Captain Peterson and his crew were examined yesterday afternoon United States Inspectors Guthrie and seemed to show that the vessel ran ashore in a dense fog.

Martin and Henry Lund, the two divers who were on board, on their way north to bring up the bullion from the hold of the Brother Jonathan, will not lose their diving apparatus.

The Brookings company received a telegram yesterday stating that the diving suits and pumps had already been taken out, and that the cargo in the hold of the vessel would probably be saved as well as the oil drums. The vessel is resting easily on the rocks, with the certain promise of destruction the minute the sea begins to get angry.

-STRENGTH-And How To Gain It

INSTEAD OF EXERCISES, PATENT FOODS AND MEDICINES, TAKE PHOSPHATE WITH YOUR MEALS.

The demand today is for men and women who are strong in every sense of the word-possessing the physical You're worth only a dollar strength necessary to endure hardships and fatigue; the mental strength to grapple with difficult problems; the nervous force which endows the body with vigor and vitality; the will power to triumph over adversity and turn defeat into victory. But such glorious strength is impossible so long as your nerves are weak and exhausted, and therefore if you would be really strong you must first care for your nerves. Weak, exhausted nerves need food, and for this purpose physicians strongly ecommend the use of the organic phosphate known among druggists as bitro-phosphate, which most druggists stock in 5-grain compressed tablets, so that if you feel your strength is failing from any cause, you should get a supply of these bitro-phosphate tablets and take one with every meal. Practically all of the minor aliments afflicting mankind, as well as many of the more serious maladies, can be traced to nervous exhaustion and lowered vitality, and probably this explains why such a remarkable impravement in the general health is invariment in the general health is invariably noticeable when bitro-phosphate is taken as directed, and the nerves are thereby revitalized and made strong. (Adv.)

CATARRH CAUSED BY A GERM

nose and throat and are causing the disease.

There is a preparation which does this called Hyomei (pronounced Higho-me). Hyomei is a germ killing vaporized air formed from the purest oil of Eucalyptus combined with other healing and antiseptic ingredients. You breathe Hyomei through the mouth and nose by means of a little hard rubber inhaler which druggists furnish with it. This medicated germicidal air penetrates into every fold and crevice of the mucous membrane of your nose and throat, kills the catarrh germs that lodge there, soothes, reduces and heals the swollen inflamed membranes, stops the discharge and opens up the clogged nose and air passages in a truly wonderful way. The Owi Drug company and many other leading druggists in Portland and vicinity sell Hyomei with the positive guarantee that it must cure catarrh or that the money paid for it will be refunded. (Adv.) refunded.

Medical authorities state that nearly

nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the tomach, and not, as some believe, to a lack of digestive juices. The deli-cate stomach lining is irritated, diges-tion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well. Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Mag-nesia (in powder or tablet form—never quid or milk) is harmless to the stomach, inexpensive to take, and is the most efficient form of magnesia for stomach purposes. It is used by thou-sands of people, who enjoy their meals with no more fear of indigestion. (Adv.)
