\*Afternoon report of preceding day.

**TOWN TOPICS**

**Organ Recital Pleases.**—The last of a series of municipal organ recitals was given Sunday afternoon at the Auditorium by Frederick W. Goodrich to an audience of about 1500. Mr. Goodrich played delightfully a splendid program and Mrs. Rose Friede Giannelli, contralto, assisted with a group of songs which were most appreciated. Mr. Goodrich's most ambitious number was the overture to Rossini's "Semiramide," a brilliant work, and it was given with charming effect.

**Hammond Going to Montana.**—Lieutenant E. B. Hammond, who is in charge of the local United States marine recruiting station, will leave tonight for Montana, where he will swear recruits into the service. He expects to visit the cities of Great Falls, Butte and Missoula, where he understands there are enough recruits to require a special car for their transportation to Mare Island. The lieutenant will be out of the city for a week.

**Church Adds Twenty-Five.**—Following Dr. J. H. Boyd's Sunday morning sermon at the First Presbyterian church on "The Cross of Christ in the Light of Today," 25 members were received into the church, by letter, reaffirmation and profession of faith.

**Dr. Parrish Returns.**—Dr. George Parrish, city health officer, has just returned to Portland after a week's visit to Oakland, San Francisco and

**Get The Stomach A Chance To Work**

We can't expect the stomach to act normally if the natural avenues of elimination are blocked so it cannot dispose of its refuse. When the bowels are constipated the stomach is called upon for work beyond its capacity and the result is bloating, belching, headache, and discomfort generally, and unless the condition is promptly relieved, serious illness.

An effective remedy for constipation is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. It is a combination of simple laxative herbs with pepsin that acts on the bowels in a gentle, natural manner, without griping or other pain or discomfort, affording speedy relief. Get a bottle of Dr. Caldwell's Syrup Pepsin from your druggist and have it in the house when you need it; it costs only fifty cents and is the ideal family remedy, mild enough for children and old people, yet sufficiently powerful for the strongest constitution. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.

CHAPTER LVIII.

Learned conversation, the demeanor of one set apart by Providence to deal with those who are hopelessly "inferior."

"Jewels, some philosopher once said, should be hung inside, but they are jewels such as service to one's fellow man, tolerance, kindness, generosity and other virtues. When the jewels are hung on the outside they prove to be humbug, bluffs and buncombe. And the reason would seem to be that the soul of the latter is 'on the bum.'"

Humility, which includes a modest sense of one's own real merits, a state of mind without arrogance or self assertion, has no place in the recipe for that "respectability" which is prescribed by the dental college as a necessary part of a dentist's training.

Look at your average "ethical" dentist in action and see the "respectable" veneer he has hung inside his course in the professional school and from long association with others who are, with polite polish and profound pomposities, making you think that they know more in a minute than you can ever hope to learn.

"Outward appearance" Why, that's ninety per cent of the game when a peacock-stroke is the goal.

It takes a lot of work to make some people have that "outward appearance"—lots of currying combings and antiseptic washing powders to take the customer out of the hide; lots of manufacturing and massaging to put on the polish; lots of hammered brass and gold leaf, to make the finished article work while "respectability" of this sort is "freed" put up by the "ethical" practitioner, the distinguishing carriage, the

**All Firemen Asked To Buy Liberty Bond**

Every member of the fire bureau is to be personally requested to purchase at least one \$50 Liberty bond in the drive through the department to be made by the fire chiefs and men of the bureau.

C. A. Bigelow, commissioner of public affairs and head of the fire bureau, proposes to list every purchaser in the fire bureau on an honor paper to be posted in every engine-house.

"Every fireman will be seen personally," he declared this morning. "We are going to find out who has the interests of his government at heart."

Two thirds of the members of the Eighth company, Oregon Coast Artillery, were too sick to drill last week. The company is housed in tents at Fort Stevens. The ground is wet and many of the men are badly in need of shoes, it was asserted. They may buy the shoes themselves or wait two or three weeks for the government to fill a requisition. Practically all the men are suffering from colds and there are said to be mild cases of pneumonia.

These statements were made at a meeting of the auxiliary at the public library. Telegrams are being sent to Secretary of War Baker and to all Oregon senators and congressmen protesting against housing the men in tents.

**Proceeds Will Go To Red Cross Fund**

Proceeds from four of the market stalls to be operated on the Yamhill street public market Wednesday, Thursday and Friday are to go to the allied Red Cross fund, according to arrangements made with C. A. Bigelow, commissioner of public affairs, today.
