New Novel by Harold MacGrath
"The Luck of the Irish," a new novel by Harold MacGrath, has just been published by Harper & Brothers. It is a romance of mystery and adventure. From New York to Singapore, the luck of the Irish leads the hero into thrilling situations. A young New Yorker, Irish by birth, fell in love with a girl whose father had been the window of the cellar where he worked. Though he had never seen the face above them, he knew it belonged to a young and, he hoped, good looking girl. An unexpected legacy gave him a chance of realizing one of his dreams—riding an elephant in the Orient. On the deck of the steamer he recognized the shoes and the girl, and it was his luck to save her from dire peril.

A European violin instructor has invented a diagram printed on paper to be pasted on the neck of an instrument to show a pupil where to place his fingers to produce desired notes.
