That the potato crop of Western Washington is showing up rather well, is the word brought back to Portland by George L. Davenport, the well known shipper of this city. Mr. Daveaport has just returned from an bxtensive tour of potato growing sections of Western Washington. He says that the crops in the vicinity of Auburn, Everett and Mount Vernon are rather good. He considers them much better than Western Oregon in volume,

and can scarcely account for this, as soil and climatic conditions are so similar. Western Washington growers are now buslly engaged in digging their potatoes. They are selling freely, considering the condition, average sales by the growers being around \$27@ 28 a ton at country shipping points. Additional supplies from that section

coming forward to the Portland market, and are meeting with favor because of the scant local offerings. Local growers have sold some supplies at \$1.27 per cental, f. o. b. Willam-ette valley shipping points, but the volume is just large, and most of them are asking \$1.50 per cental; in fact, are not anxious to just now at any price.

Along Front street the market continues firm, although on a nominal basis. Sales are not liberal, neither are the offerings,

OREGON BEANS NOW OFFERED New crop Oregon beans are being offered to the local trade and the quality is excellent. Small whites have been placed nominally at 15be a pound with Lady Washington at 13c. trade is still waiting.

DATES ARE ADVANCED AGAIN
Dromedary dates are again showing a sharp
advance here, due to the institity of the
tratle to accure sufficient supplies. Sales are
noted as high at \$4... per box, but some business is shown at \$4.50.

An order for approximately 500,000 cases of low priced salmon, the largest individual business sever known here, is hanging over the Pacific Northwest market.

While it is uncertain as to whether the business is English or French, it is known that it comes from one of the European countries and will become public properly as soon as details are completed.

It is stated that the order will be for chums and that the greatest scramble for supplies the Pacific Northwest has ever known will soon be shown. New York, Oct. 26 .- (I. N. S.) -Strength in

CANNED SALMON IS **BOOMING IN PRICE IN**

Big Orders Cannot Be Filled and Demand even at Extreme Advances in Value Has Been Greater Than Packers Can Take Care Of.

An order for approximately 500,000 cases of low priced salmon, the largest individual busi-ness ever known here, is hanging over the Pacific Northwest market.

Utah Copper was the weakest of the Copper group, declining % point to 79%. The other copper shares held steady.

Tobacco Products advanced 1 point to 55%.

The other creat \$1.75 per dozen but only a small amount of stock is available under \$1.80. The opening price for this grade this season was 85c per

Totaceo Products advanced 1 point to 55%.

Central Leather declined 1½ to 72%.

Declines in the early trading were followed by moderate railies. Some of the stocks on the decline touched new low figures for many years. Canadian Pacific sold down to 142, followed by a rally to 143%. Union Pacific touched 117%, from which it rose over 1 point.

Marine preferred, after moving up over 3 points to 92%, reacted to 91%, while Atlantic Guif yielded to 103%.

There was an increased demand for the copper issues, Utah gaining 2 points to 81%.

The steel stocks, after slight recessions, became strong. U. S. Steel common railied 1 point to 104%, and fractional upturns were made in the other steel issues.

Chicago, Oct. 26.—(I. N. S.) — Unusual strength was shown by the corn market at the opening here today, with prices making a sharp advance. The volume of trade was considerably larger than it has been for several days, and prices were inclined to fluctuate rapidly. With shorts fair buyers, December corn advanced to \$1.20%. January corn also was active, and trade in May futures was brisk. Provisions were firm, but trading was light and confined almost entirely to January products. There was little selling pressure, and buying was limited. Oats continued quiet, with prices showing fractional advance over yesterday's close.

Squirrels Taking Wheat in Interior And Cause Worry

That in these days of food conservation and the need of all the breadstuffs that the world can produce, much grain is being wasted in Eastern Oregon, is the assertion of Fred VanHorn, a producer of the Echo section, who was formerly connected with the Oregon-Wash-ington Railroad & Navigation com-pany at Pendleton, Mr. VanHorn says that the squirrels are taking much of the wheat crop of that secto combat the pests. He asks government action in eradicating them. According to VanHorn the squirrels took 10 acres of his wheat out of 35 (planted, within a period two days. He says that the sheep ranges in that section are breeding grounds for the pests and that drastic action is needed to save the props.

484 717 Much complaint is being made by when growers of the interior regarding the delay in securing payment for their wheat supplies sold for the account of the government. Gwing to the fact that the government will not pay for wheat until it has been duly in-

apected and a tidewater warehouse receipt turned in, growers have not secured payment promptly. The congestion of freight which delays receipts and haspection has been the most vital factor in causing the slow payment. Most of the interior shippers have been advancing a large percent of the government wheat price to the growers and have charged

interest on this amount until the stock is accepted by the inspectors and turned over to the buyers. This has caused much concern among growers and their complaints are loud and frequent. Millstuffs are showing a rather badly mixed 7.29 Millstuffs are showing a rather state.

Four States of Seven in Twelfth Federal Reserve District Attain

Minimum Quota in Liberty Loan-Oregon and Washington

Liberty Loan Standing—Four states of the seven in the Tweifth federal reserve district have oversubscribed their minimum quotas in the Liberty loan according to figures received Thursday afternoon by C. A. Miller, manager of the Oregon campaign. These states are California, Utah, Arizona and Nevada, while Idaho is close to making her quota, leaving only Oregon and Washington behind. The standing of the states is as follows:

State. Minimum quota. Subscribed, Utah. \$10,419,885 \$11,500,000 Arizona ... \$1,419,885 \$11,500,000 Arizona ... \$1,419,885 \$11,500,000 Arizona ... \$10,419,885 \$11,500,000 Arizona

been exceeded. The maximum quotas of carbonal and account of the company and the armount expected from a native are stated for a national subscription of the amount expected from an Secretary von Kuchmann's recent speech as his text.

"Can France make any concessions to Germany?" he asked, and then, before his audience could answer in the termination of the second blett of the same of the countries of the count
