INFORMATION

(302D DAY OF 1917)

Coming Events

Land Products Show, Portland, beginning November 5.

Today's Forecast

Portland and Vicinity—Tonight fair and warmer, Tuesday rain; moderate southeasterly winds.

Oregon—Tonight fair, except probably rain in northwest portion, warmer; Tuesday rain in west, fair and warmer in east portion; moderate southeasterly winds.

Washington—Tonight cloudy, with rain in west portion, warmer; Tuesday rain; southeasterly winds.

Weather Conditions

A high pressure of considerable intensity overlies the western half of the country, with its center over Wyoming and Colorado; this high was attended by a considerable fall in temperature over the southern Rocky Mountain and west Gulf states, where they now range from 15 degrees to 30 degrees below the seasonal average. A storm of considerable energy extends from the Lake region in a southerly direction to Louisiana; it was attended by precipitation in the middle Mississippi and Ohio valleys and by higher temperatures west of the Mississippi river. Temperatures this morning are below normal everywhere except west of the Mississippi river and Louisiana and eastern Texas.

The conditions indicate probably rain and warmer tonight; there will be rain Tuesday. The winds will be moderate southeasterly.

ALFRED H. THIESSEN, Meteorologist.

BAKER EXPRESSES CONFIDENCE IN HIS REVIEW FOR WEEK

(Continued From Page One)

peated heavy counter attacks in this segment. These were repulsed.

"While the British attacks during the past week have been carried out with imposing effectiveness, it is apparent that the British command is maneuvering in order to gain tactical advantages at a minimum cost.

"The casualties of the enemy are rising steadily. Slowly the allies are enlarging their gains in Flanders, driving into the heart of German resistance in the west.

French Succeed by Surprise.

"The German armies fight on stubbornly. If any further evidence of allied superiority be needed it seems to be supplied by the decisive success won by the French the last week.

"This offensive was launched on a six mile front near the west end of the Chemin des Dames at dawn on October 23.

"General Petain so well masked his preparations that the enemy was taken by surprise as to the exact terrain chosen for the attack and was overwhelmed before being able to organize a concentrated resistance.

"The German lines were penetrated to a depth of well over two miles at one point.

"This first attack was immediately followed by a second assault in this same sector, crowned with full success

Strategic Retreat Expected

"In three days' fighting the French have taken 12,000 prisoners 120 guns of large caliber and a great quantity of other booty not yet enumerated.

"The possession of the captured fort of Malmaison, the key to the entire ridge and the villages beyond, now makes it possible for the French to enfilade the German positions along the Chemin Des Dames as well as to fire directly through the valley toward the fort of Laon.

"General Petain showed himself a past master of strategy in beginning a battle to obtain so decisive a victory in so brief a period.

"The time has apparently come for another 'strategic retreat' of the enemy. It means that the German must again retire to a new entrenched and carefully prepared line if he intends to resist further in the west.

Bad Weather Aids Enemy

"It must be admitted that the German 'retreat' executed as a result of the battles of the Somme last year was carried through with consummate skill. The enemy retired, destroying all cover and taking up positions of marked tactical and strategic strength.

"But the battle of the Somme had but one wedge. Today we have the wedge of Flanders and that of the Aisne is being outlined.

"The bad weather continues to be the enemy's best protection. He is relying upon this factor to impede the allied advance and by shrouding the battle area in slush, rain and fog, give him a respite until he can prepare himself to meet a fresh onslaught.

"News from the Italian front proves that the Austrians are able to bring sufficient pressure to bear in Berlin in order to secure German assistance.

Italians Are Pressed

"As the result of the concentration of an imposing array of artillery and massed battalions, the Austro-German forces have succeeded in piercing the recently won Italian position in the Tolmino sector."

"The broken, steep, mountainous character of the terrain makes it difficult to hold entrenchments when once certain strategic objectives have been attained. These the Austrians have apparently captured in this sector, which may result in the abandonment by the Italians of the Bainsizza plateau which they won after so valiant a struggle only a few weeks ago.

"Italy is passing through a difficult moment.

"We must remember, however, that in May, 1916, the Austrians attempted a similar onslaught. Then they had fine weather, a well-chosen terrain, and above all the far superior fighting vigor of their armies to rely upon.

Loss to Russians Serious

"At that time the Austrians won decided successes during the initial days of the fighting and pressed on to the edge of the Italian plain, only to be stopped and driven back.

"In the east, German naval operations in the vicinity of the islands at the mouth of the Finnish gulf were not carried through, with serious losses both in men and material.

"The Russian resistance apparently is consolidating.

"The Germans, using the islands as a base, have now gained a foothold on the adjacent mainland.

Attempt to Land Halted

"The first landing on the Werder peninsula at the northern end of the Gulf of Riga was successfully carried out. A further attempt at another point failed.

"It is not probable that the Germans will undertake, for the time being, more than a strengthening of the positions now held in the Riga sector.

"The retirement of the advanced enemy lines to a depth of 15 miles in the region of the Dvina is reported.

"Engagements of some magnitude are noted along the Roumanian and Macedonian fronts, where artillery duels and raids are increasing in frequency. These, however, are not of more than local importance.

American Progress Favorable

"In Mesopotamia, the British are continuing and consolidating their advance, driving enemy detachments out of important tactical points in the flanks, thus strengthening their whole line of defense.

"Rumors of an important move by the Turks, reinforced by certain picked German and Austrian units under the command of General Falkenhayn, which have repeatedly been reported throughout the near east, have as yet failed to materialize.

"The training of our troops in France progresses steadily and favorably. Certain units have taken their places in the front line trenches under actual battle conditions."

Wheat of Argentine May Sell Spot Cash

Buenos Aires, Oct. 29.—(I. N. S.)—In view of the scarcity of shipping and owing to the straitened international situation, the National bank has presented to the government a proposition suggesting that foreign orders on the Argentine wheat crop be placed through diplomatic channels with local banks. It is proposed to open a credit of $100,000,000, to be guaranteed by Argentine bonds which will be deposited with the legations in question. This, it is argued, would solve the difficulties involved in the exportation of gold.

Poor Health Cause of Suicide

Salt Lake City, Oct. 29.—(I. N. S.)—Despondent because of ill health and lack of employment, E. L. Moffett, a newspaper man well known on the coast, lies dead in a local undertaking establishment, the victim of his own act. His body was found in his room in a lodging house, where it had laid for probably the past two days.

The last seen of Moffett alive was Thursday afternoon. He had cut an artery. Little is known of his relatives and local newspaper men will take charge of the burial arrangements

FOUR AUTO SMASHES MAKE SUNDAY RECORD FOR PORTLAND FOLK

Child Run Down and Probably Fatally Injured, Machine Over Bank, Car Hits One.

Helen Lucinia, 10-year-old daughter of Mrs. R. Lucinia, 471 Patton road, probably was fatally injured when she was struck by an automobile driven by A. F. Fisher near Kendall station Sunday night. She was taken to St. Vincents hospital suffering from a fractured skull. According to Mr. Fisher the girl ran into the road with some other children, crossing directly in the path of his auto. Patrolmen Wright and Nelson who investigated the accident, reported that from tire marks on the pavement where the car skidded, Mr. Fisher must have been traveling at an excessive speed, as he did not stop within 80 feet.

Mrs. Hilda Anderson of 150 North Nineteenth street, suffered a badly bruised hip when the machine in which she and her husband, A. V. Anderson, were riding was struck by an automobile driven by Mrs. A. Klimesch, 1399 Mallory avenue, Sunday night, at East Thirty-seventh and Hancock streets. The Anderson car was turned over on its side, Mrs. Anderson being thrown several feet, Mr. Anderson escaped with minor bruises.

A Mount Scott car struck the automobile of John Eisenblatt, a Scappoose rural carrier, at East Thirty-fourth street and Hawthorne avenue Sunday night, and, according to Motorcycle Patrolman Gouldstone, knocked the machine 150 paces, or nearly a block and a half, before it stopped. Mrs. Eisenblatt was thrown out and badly bruised, and her three children, who were with her and their father in the car, were shaken up but escaped without serious injury. The automobile was wrecked.

R. V. Stanley of Vancouver barracks was painfully cut about the head and a woman companion, whose name was not learned, was suffering from the shock as the result of the automobile in which they were riding going over a 20 foot bank near Milwaukie Sunday afternoon.

The machine turned completely over when Mr. Stanley lost control of the car, as they reached the approach of the bridge leading to the old Friars' club, but the occupants were thrown clear of the car as it went down the bank. Mr. Stanley was taken to Sellwood hospital by a passing autoist, and the woman was taken to a nearby home.

Seattle Over Her Mark

Seattle, Wash., Oct. 29.—(U. P.)—Incomplete returns today indicated Seattle had oversubscribed her second Liberty loan allotment of $15,000,000, by more than $5,000,000. This estimate was made today by Campaign Manager George W. Allen.

Other returns were: State of Washington $44,000,000; Idaho $10,500,000; Oregon $25,250,000.

A cyclometer has been specially designed for measuring the distances covered by railroad cars.

We follow nature's plan as closely as possible and set each tooth in a socket—the whole framework being anchored by the two or more teeth remaining in the mouth.

You can use these teeth with as much comfort as you could those nature gave you in the beginning—and they will not cause you any pain or inconvenience.

In short, we give you a new set of teeth—to use in just the same way you would use the teeth if a new set were to grow in your jaws.

Now, isn't that worth investigating?

If you are suffering with a torturesome "bridge" or a bothersome makeshift of a partial plate that you are wearing in your pocket half the time—isn't it worth your while to follow the lead of over 10,000 people who are enjoying good teeth and consequently good health?

You can have an examination of your teeth free of any charge or obligation by calling at our office.
