Treating Eyestrain

Our Opthalmoscope and Retinoscope is One of the Most Scientific Eye-Testing Instruments in the World. With It We Can Read Your Eyes Like a Book.

¶ It is not necessary when glasses are required to make one trip to the oculist for examination—another trip to an optician for the filling of the prescription—with two charges and a divided responsibility.

¶ Our method is a method of convenience—of concentration.

¶ Our skilled optical specialists and opticians are under one roof, as well as the factory for making the glasses—a double service with but a single thought—to give complete satisfactiton.

¶ The one-price policy prevails at our establishment, same price to everybody and the same high-grade service in the way of glasses to everybody at the same price.

¶ Our 26 years' experience is at your disposal.

SAVE YOUR EYES
