That this is von Hindenburg's present strategy was shown by advices from the Italian front today. There have been new concentrations of Teutonic troops in that district, and the fighting there is said to be the most savage on the whole Italian battlefront.

**Italy Awaits Final Phase** Rome, Nov. 20.-(I. N. S.)-All of Italy today awaits the quickly ap-

proaching final phase of the battle of the Piave. Military experts sound a note of caution, saying that the Germans and Austrians have massed mighty armies in the north and that their artillery pplies are tremendous. If the high command decides upon retirement to the Asiago and the giv-

ing up of Venice, the public will recognize it as a necessary step preliminary to a successful counter drive against the invaders.

"Why does Portland continue to submit without effort to correct the condition that makes the freight rate per bundred pounds \$1.63 from Klamath Falls to San Francisco and \$1.76 from Klamath Falls to Portland?

"The business handled in freight and passengers at the Southern Pacific station at Klamath Falls last year aggregated \$1,000,000, Doesn't Portland want some of that business? But how can Portland expect to get it under exist-ing conditions?" Direct Route Wanted

Mr. Lee asserted that the Strahorn railroad when built will be a 400 mile system, that it merits support now and that evidence of support of the pro-ject on the part of Portland would make the people of Klamath county "feel that Portland considers this productive 2800 square mile area really a part of Oregon and your business territory." "Klamath county does 95 per cent of

its business with California," concluded Mr. Lee, "and the people of Klamath county have to go 90 miles into California in order to reach Portland. We are looking for the day when we can come direct, when freight rates will be lower to Portland than to San Francisco and we can do business with Portland. Then we will celebrate by bringing a whole trainload of people from Klamath county to get acquainted here. President Foster Speaks

# GRAND DUKE NICHOLAS MENTIONED AS ASPIRING TO THRONE OF RUSSIA

Paris, Nov. 20 .- (U. P.)-The Grand Duke Nicholas Nicholaievitch has been put in command of General Kaledine's Cossacks in a plan proposed by that general to restore the monarchy in Russia, according to a dispatch from Vienna, via Geneve, printed today in l'Information.

The grand duke, it was declared, had arrived at Kaledine's headquarters at Kharkoff and offered his services. The general "gave the grand duke com-mand of the Cossacks and promised to restore the monarchy and proclaim the grand duke regent," according to the Vienna version.
