Tells Everybody What Lydia E. Pinkham's Vegetable Compound did for Her.

Chicago, Ill.—"It gives me great pleasure to let others know that I improved in health with the first bottle of Lydia E. Pinkham's Vegetable Compound; after taking two bottles I am entirely well. Before taking it I could not do any kind of work without a pain in my back, as I suffered so much from inflammation, I had headaches, was always tired and no appetite. Words cannot express my gratitude for the good your medicine has done me, and through me to my family. I recommend Lydia E. Pinkham's Vegetable Compound to all women suffering from female troubles, particularly to Danish women."—Mrs. Meta Damgaard-Matzen, 2137 Kimball ave., Chicago, Ill.

Appeal Made by Babies Very Strong

Good Reason Exists Why Tag Sale Saturday Makes Such Strong Appeal.

By Vella Winner
THE innocent and utter helplessness of babies combine to make their appeal stronger and more convincing than that of any other class of dependents, hence the interest that is already manifested in the tag sale Saturday of this week for the benefit of the Baby Home, where 60 little bits of humanity varying in ages from a few days to three years, are being housed, fed, clothed and otherwise cared for by the grace and generosity of the state of Oregon and her people.

More babies are seeking admission than there are little coats to accommodate and the sale of tags is to purchase additional coats for the children and to do some necessary painting inside of the home. The sale on Saturday is in charge of the Woman's Cooperative League with Mrs. Edna H. Bell, chairman of the committee. Dignified club presidents and young school girls have a common interest in babies and are valiantly their attention of assisting in the sale with equal sympathy and interest. Little Elizabeth Cooper, aged 10 years, of University Park, is the youngest girl, saying she had seen the tag day announced in the newspapers and that she would get a little playmate to help her with her current activities. Two 200 tags in their neighborhood. Mrs. Cecelia Evans, whose husband is employed in the juvenile court and who is herself a great lover of children, has volunteered her services, declaring "too much cannot be done for the babies." Miss Bessie Welch and Miss Louise Meserve, two Lincoln high school girls, are conducting their young friends to assist in the sale.

The services of the Portland Woman's club have been offered by the president, Mrs. C. B. Simmons. The Monday Musical club, of which Mrs. L. T. Newton is president, will sell tags, as will also the Corriente club, of which Mrs. J. C. Alexander is president, and the auxiliary to Company B Engineering Corps, of which Mrs. Helen Cryzier is president. Mrs. Ida Hunt of Milwaukie has asked for a number of tags to sell in her town. Mrs. John Owen of Rose City Park has taken 100 tags and is securing Rose City park women to assist in the sale. The Alameda Park club, through its president, Mrs. Albert J. Browning, has tendered its services. Others who have volunteered for the sale are Mrs. Robert S. Clark, Mrs. A. R. Mattingly, Mrs. Mullin, Mrs. Aldrich, Mrs. E. Frank Walker, Mrs. Marie Patterson, Mrs. C. H. Hickox, Mrs. Sherrill, Mrs. E. M. Carlow, 23 Laurel street. The club has 13 new members. At a previous meeting the club had enthusiastically voted to support the work of the Drama League during the winter. It is expected that all members will take advantage of the opportunity of hearing Dr. E. S. Bates on the University of Oregon series of lectures, beginning Saturday, November 24, on the subject of "Shakespeare, the Actor."

Household Hints

"I just told the woman when she presented that card, that I was economizing all that was possible; and wouldn't it be a good idea to have a deposit box in our neighborhood. But," patiently explained her hearer, "it is not the deprivation of your family table slowly, then scald the quinces. To every pint of pippin jelly put one pound of the finest sugar, boil it and skim it clear. Put quinces that are to be done whole into the syrup at once and let it boil very fast, and those to be done in halves a little later, by themselves. Skim again and when fruit is clear put some of the syrup into a safety deposit box, even though the money may be saved on foods; it is saving so that our fighting boys and our fighting allies may eat—that is what is asked for us."

And then they began comparing notes and recipes as to best means of keeping up a palatable and nutritious diet for the families while at the same time eliminating such articles as are best sent abroad. And the food pledge went understandingly into one more window.
Cocoa Cookies.—One half cup of shortening, 1 cup sugar, 2 eggs, one third cup of milk, 1/2 cup cocoa, 4 teaspoons baking powder, 4 cups of flour. Tatting Taboo in Busy Days of Knitting

At Club Meetings and Lectures Needles Are Kept Clicking Away.
"KNIT and the world knits with you, tat and you tat alone."
That above is the wartime version of that old couplet that made for good nature, for verily it is now necessary to knit than to laugh nowadays. And by knitting is not meant "tatting"—the making of sky blue sweaters or baby pink scarfs for yourself or some of your women friends—but the knitting of helmets, scarfs, sweaters, wristlets and socks for the soldier boys who are offering their lives on land and sea. The truly patriotic woman of 1917, scorning tatting and crocheting and embroidery with which to occupy her leisure moments and bends her energies in Red Cross activities, spending from one to three days at one of the work rooms in the making of surgical dressings and then her odd moments at home on the streetcars, at club meetings, lectures and teas, she may be found busily knitting away, not losing a moment. Indeed, knitting is king of indoor sports these days. As some one has said, "Each thought a purr, each purr a prayer." By the sign of the knitting needle are they known. No place is safe from them. The bridge scores the neglected. When learning a new dance step the charming purr murmurs, "Do I purr here?" to the utter amazement of the dancing teacher, who has not had time to keep with current activities.

At the outbreak of the knitting fever, gossip languished. Every eye was fastened to the gray or olive drab and every lip moved nervously while we tried to learn to throw the thread over the needle with less than 26 muscular reactions. But no more. The needles click regularly now and the rows grow evenly while the knitters say, "Did you hear—now I cast off three—yes, you know, I was so surprised—well, I should have purr'd that—well, personally I think it's good so on. It takes longer, but eventually the news leaks out. And you must be careful of your vocabulary. Does it contain "cast on," "bind off," "setting up," and such phrases? If not, you must be looking into the matter, or how can you enjoy the delightful magazine articles of the day? One interestingly begins k 1, p 2, *p 1, slip, 1 st., k 2 and repeat from start. How these bits ever get past the censor we don't know.

About 100,000 manufacturers, wholesalers and other distributors of staple goods are now under the licensing provisions of the food control act.
