Special Reports Indicate That Sea sonable Fruit in Small Sizes Is Dragging With Some Shading of Prices-Large Sizes Firmer.

Dragging and slow trading is shown generally for apples in the big consuming centers Movement of apples from the Pacific North west to the territory east of the Rockies con-tinues heavy, shipments to date this season being placed at 12,622 cars, compared with 11,238 cars for the same period a year ago. Special reports received from eastern center indicate that the requirements of the trade ar well taken care of at this time, and that the warehouses are filled. It is noted, however, that none of the so called very late keepers are movare unable to accept further orders beyond that period because of various conditions. BOLSHEVIKI NOTE TO UNITED STATES BEING "CONSIDERED," IS WORD

Washington, Nov. 26 .- (I. N. S.)-The proposals of the Bolshekivi government of Russia for a three months armistice on all fronts during which to arrange a world peace conference were being "considered" by the United States government today. The proposals which were handed to Ambassador Francis early last week. were forwarded to the state department by way of Stockholm. The doct ment has been laid before President Wilson by Secretary of State Lansing Beyond saying that the proposals were "being considered," Secretar Lansing would not discuss the Bol sheviki note today. It is accepted as

certain by diplomatic Washington that there will be no reply to the armistice proposal. To reject the proposal through a dip-

The state department is not likely take this step.

The text of the Bolsheviki note does not differ from that published in press dispatches from Petrograd last week,

Some of the girls are temporarily out of the city enjoying visits with friends and relatives. All picketing of the company exchanges has been dispensed with since last Saturday, when more than a score

of girls were arrested charged with violating the anti-picketing ordinance. More than 200 telephone company employes at Oregon points outside of Portland are included in the referendum vote to return to work.

It is expected that some strikers will begin work this evening. Union representative C. W. Hurd of Portland, who attended the San Franisco conference, today disapproved of the action of the Seattle employes in rejecting the agreement by an overwhelming majority. He said: leattle vote shows that the radicals have een busy. It looks to me that the seattle workers must either abide by the majority decision or make themselves outlaws so far as their unions are concerned."

Seattle Workers Balk

Seattle, Wash., Nov 26 .- (I. N. Seattle workers, by a vote of 1280 to 28, rejected the terms of the agreement submitted by the federal mediation committee through L. C. Grasser of San Francisco, vice president of the International Union of Electrical Workers.
