Police to Guard Gotham Waterfront

Plan to Guard New York Harbor With Troops Will Be Held in Abeyance, Is Decision Announced After Conference.

New York, Nov. 26.—(I. N. S.)—At a conference of federal and local officials Sunday night it was decided that for the present the plan to man the New York waterfront with troops will be held in abeyance.

It was feared that there would be the risk of interfering with the police rights and duties of the city government. The officials learned that most of the plants that it is designed to protect are now under heavy guard of private watchmen.

It was held that it would require upward of 10,000 troops properly to guard the waterfront, and it was believed that these men could be used to better advantage elsewhere.

Our advice to any wearer of glasses is to drop in occasionally and have us make sure your glasses are straight and properly adjusted. We make no charge for this little service, no matter where you got your glasses, and your eyes will be much more comfortable, much less apt to bring on headaches.

Are You SURE Your Glasses Aren't Crooked?

We find many cases of serious headaches that are the gradual result of merely a little accidental bending of frames—so slight the wearer didn't suspect it, but enough to derange the line of vision and thus overstrain the eyes.
