CUT THIS OUT OLD ENGLISH RECIPE FOR CA-TARRE, CATARRAL DEAP. NESS AND MEAD NOISES.

If you know someone who is troubled with head noises, or Catarrhai Deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. We believe that Catarrh, Catarrhai Deafness, head noises, etc., are caused by constitutional ulsease and that salves, sprays, inhalers, etc., mereitemporize with the complaint and seldem, if ever, effect a permanent cure. This being so, much time has been spent in perfecting a pure, gentle, yet effective tonic that should quickly dispel all traces of the catarrhal poisson from the system. The effective prescription which was eventually formulated is given below in an understandable form so that anyone can use it in their own home at little expense.

Secure from your druggist 1 or lightly supported the position of manager of the branch office and yards of the Willamette Valley Lumber company at Monmouth, formerly held by her husband. In addition to caring for her infant son, Mrs. Hamilton will hold down the job until her husband's return from the war. She is a former ballas girl, before her marriage having been Miss Hattle Swith a

use it in their own home at little expense.

Secure from your druggist 1 oz. Parmint (double strength). Take this home and add to it 1/2 pint of hot water and 4 oz. of granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose should begin to relieve the distressing head noises, headache, duliness, cloudy thinking etc., while the hearing should rapidly return as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are often overcome by this efficacious treatment. If nearly 90 per cent of all ear troubles are directly caused by catarrh, there must be many people whose hearing may be restored by this simple home freatment.

Every person who is troubled with lead noises, catarrhal deafness or catarrh in any form, should give this prescription a trial.
