His condition is much improved, though his injuries were serious. His chest was badly crushed and he suffered many bruises.

Oregon Placard Adopted.—Ohio and Michigan have adopted the placard used extensively in the work by the Oregon

Social Hygiene society. This news was received in Portland yesterday by the society in a telegram from J. C. English, former member of the executive board, who is now in the east. He said two days' work accomplished the above results. Mr. English wired to Adolph Wolff, treasurer of the Oregon society. He will return to Portland, Sunday.

Restricted Service Ignored.—The Central Labor council Thursday night passed a resolution indorsing the restricted car service for the disposition of the Portland Railway Light & Power company, to pay the increased wages of the employees. It will be presented to the Oregon public service commission when it takes up the matter on a second hearing next week.

Test Station for Headlights Planned

Scheme, if Adopted, Would Be to Give Certificates to Antislots to Prevent Trouble With Traffic Officers.

Due to the increasing number of arrests for violations of the traffic ordinance, principally by drivers and owners of machines with glaring headlights, plans are under consideration by Chief of Police Johnson and the heads of the traffic bureau, looking to the establishment of a test station, where the automobile owner or driver would be given a certificate stating the lights had been tested and found legal.

Since the assignment to duty of the motorcycle squad, nearly 10 days ago, 200 arrests have been made, 75 per cent of which were for glaring headlights. The police department is daily besieged with owners of machines asking advice as to how they shall remedy light defects.

The traffic bureau can recommend no particular kind of lens or reflector which will throw the proper ray, as tests under different conditions show wide variance.

"The whole test," said Chief Johnson, "seems to be in the proper focus of the light, no matter what kind of lens or reflector is used."

Poultry Show Scheduled

Harbor poultry show will be held this year in this city the first week in January. Harry Collier of Tacoma will judge the stock.

North Bank Road Meets War Order

The North Bank road Wednesday night completed the diversion of 400 cars to the Southern Pacific company, ordered by the railroad war board. The cars were delivered in allotments of 25 a day. Wednesday night the North Bank reported a shortage of 1076 cars.

The R. P. & S. company protested the order of the war board and Special Investigator Davies of the American Railway association has been investigating the traffic situation in the Northwest with a view of adjusting the apportionment of cars. Mr. Davies left Wednesday night for Seattle and will return next week. He has interviewed traffic officials of the Southern Pacific and R. P. & S. companies and met representatives of the West Coast Lumber company.

It is understood that Mr. Davies will interview lumbermen and mill owners in the Willamette valley and endeavor to adjust car service to suit their needs.

Here's a hair curling secret that is decidedly worth while. At bedtime apply a little liquid silmerine with a clean tooth brush, drawing this down the hair from root to tip. In the morning when you look in your mirror you will be astonished and delighted to find your hair has dried in as beautiful curls as you've ever worn. The wavyness will look so natural no one will guess it was artificially acquired. You can obtain liquid silmerine at any drug store and a few ounces will last a long time. It is neither sticky nor greasy and is pleasant to use. It is doubly useful because of also serving as a beneficial dressing, keeping the hair soft, silky and lustrous. After one trial you will never go back to the barbarous curling iron.—Adv.
