

1000 ALIENS ARE ADDED TO ENEMY LIST IN PORTLAND

United States Attorney Reames Sounds Warning to Austrians as to What They Cannot Do.

FEW WOULD BE CITIZENS Restrictions as to Crossing the Bridges Will Be Enforced as Is With German Alien Enemies

With the number of alien enemies in Portland to be increased by approximately 1000 Austrians by the declaration of war on Austria, United States Attorney Reames has issued a statement warning all alien enemies of the rules they must obey under the president's proclamation.

Attorney Reames bases his statement that there are about 1000 Austrians in Portland on the number of applications for naturalization papers, from draft registration and from reports of industrial firms.

An alien enemy, defined as a male of 14 years of age or more of any nation at war with the United States, may not go up in any kind of aircraft or balloon. He cannot, except for a public use, go within three miles of land on any waters of the United States.

He cannot go within 100 yards of any waterfront or railroad freight terminal connected with docks. Special provision to allow alien enemies to cross Portland's river bridges has been made by the attorney general on the suggestion of Attorney Reames.

Other places an alien enemy will not be allowed are Washington, D. C., and the Panama canal zone. An alien enemy shall not have in his possession a firearm or any explosive or maxim silencer or any implement of war.

Exception to this ruling will be taken if the case warrants it. Attorney Reames said, if the alien lives in a sparsely settled part of the country and possesses a firearm for protection from wild animals or for hunting. He may receive a permit to own firearms with federal approval.

Warnings Are Sounded He will not be granted a permit under any circumstances, however, to operate or have in his possession a wireless outfit or any sort of cipher code or signaling device, or documents printed in cipher.

An alien enemy can not go within more than a half mile of any army, arsenal, navy yard or other locations where military supplies are manufactured and stored.

An alien enemy believed to be aiding or about to aid the enemy, or who may be regarded as a danger to the public peace or safety, or who has violated or is believed to be about to violate any proclamation of the president, will be arrested and confined in a penitentiary, military camp or any other place of detention as may be directed by the president.

Attorney Reames calls attention of enemy aliens to the sections of the president's proclamation which prohibit writers of verbal attacks against the government or any of its policies.

Applying for Citizenship He also cites the provisions which give the attorney general the power to designate from time to time any further restricted areas in which alien enemies will not be permitted.

The impending declaration of war on Austria has brought a number of Austrians to federal and county offices during the past few days on inquiries about naturalization papers.

Several have taken out first papers, but most of them make no application when they find that the months are required for a final naturalization certificate to be awarded.

DEALERS IN RUBBER WANT TO BUILD HUGE FLEET OF AIRSHIPS

Offer to Work With Government to Develop Armada That Will Submerge Germany.

Washington, Dec. 7.—(L. N. S.)—America will have an air fleet of from 150,000 to 200,000 air planes, costing anywhere from \$2,000,000,000 to \$6,000,000,000, if tentative suggestions offered to the aircraft board by seven of the largest rubber manufacturers of the country are developed to the maximum.

Proposal was made that all of the available factories in the country be put immediately to work on the manufacture of parts for a staggering air fleet. The rubber men offer their services, collectively or individually, to manufacture all their allied and collateral factories to aid the aircraft board.

Available Resources Ample At present, under the program that calls for 20,000 airplanes and the expenditure of \$40,000,000, only about 10 per cent of the available resources of the country are being utilized. Under the development of all the resources, it is estimated that this country could produce with the least effort 12,000 airplanes a month. The United States would be able to submerge Germany in the air, cut short the war, save hundreds of thousands of lives and untold billions of dollars.

This situation was learned Thursday following a conference between the rubber men and Howard K. Coffin, head of the Aircraft Board.

Prominent Rubber Men Present The committee included Harvey S. Firestone, president of the Firestone Tire & Rubber company; Harry E. Dunn, president of the Fire Rubber company; Paul W. Litchfield, vice president of the Goodyear Rubber company; Charles B. Raymond, vice-president of the Goodrich Rubber company; George B. Hodgman, president of the Hodgman Rubber company; Charles T. Wilson, president of Charles T. Wilson company, importers of crude rubber; and Edgar B. Davis, director of the plantation of the United States Rubber company.

Under the inspiration of excellent work already put under way by the aircraft board, the rubbermen had before them these vital facts: Germany boasts that it will build an air fleet far greater than that contemplated by the United States. It has more than 400 factories working to the end, in the month of July it constructed 2500 air craft of various types. Within a year it will have added approximately 30,000 airplanes to its service at this rate.

Dutch Minister Not Welcome at Capital Washington, Dec. 7.—(U. P.)—Dutch Minister Van Rappard was rapidly coming persona non grata with the American government when his home office recalled him, the United Press learned today. Van Rappard's retirement from the Washington post had been known for some time, but the real reason behind it developed with the announcement of the appointment of his successor. Van Rappard was credited with spreading pro-German propaganda, notably peace matters, and with standing in the way of Dutch-American embargo negotiations.

This government never made a formal protest against Van Rappard's activities, but in a roundabout way Holland was advised of the minister's displeasing activities. These wholly unofficial hints were soon followed by an announcement that Van Rappard would return to a position at The Hague.

CALIFORNIA RANCHER WILL REMAIN IN JAIL TILL READY TO LEAVE

Augustus B. F. Orr Sees Romance With Mrs. Hodler Fade Into Financial Cataclysm.

Following a hearing before Judge Roseman, in municipal court Thursday afternoon, Augustus B. F. Orr, prominent California rancher, will remain in jail until he is ready to depart for California. An agreement was reached to this effect by James Craib and Thomas Mannix, attorneys for Orr and Mrs. Hodler, shortly after the hearing, in which the court held that some form of punishment should be given to the man.

Orr was arrested Tuesday night on complaint of Mrs. Della Hodler that he had threatened to kill her, the culmination of an attempted settlement of financial matters existing between the man and the woman, in the office of Attorney Mannix, Tuesday afternoon.

Trouble Arises Over Debts The trouble arose over certain sums of money which each claimed the other owed, which had their source in the collection of \$4800 by Mrs. Hodler under power of attorney from Mr. Orr, and part of which the latter claimed still due him.

Subsequent to the death of his first wife, who was Miss Mollie Burke of Portland, and until about a year and a half ago, Orr lived at the Hodler home, leaving for California shortly after the close of a case in the supreme court in which he received \$75,000 from his wife's estate.

While he was at the Hodler home Louis Hodler, Mrs. Hodler's husband, charged that Orr had alienated his wife's affections for him, and filed suit in the circuit court to recover \$50,000 damages. Service on Orr in this suit was not obtained until the man was arrested here on the complaint of Mrs. Hodler.

Mrs. Hodler Sues for Divorce After the alienation suit had been filed, Mrs. Hodler sued Hodler for divorce. In settling this suit Mrs. Hodler gave her former husband, it is said, \$4000 in cash and a mortgage on a large amount of property which she owned in the neighborhood of Vancouver. Later she brought action against Hodler for a return for part of the property.

It is said that before Orr gets a chance to leave for California he will be served with a federal warrant, charging him with having in his possession property of the United States government. When Orr's room was searched, after his arrest on the charge preferred by Mrs. Hodler, an army .45 calibre revolver and cartridge belt were found among his effects.

Guard on Riverfront Falls Through Dock Dwane Goodman, a soldier on guard duty "somewhere on the Portland waterfront," fell through a hole in a dock Thursday night and dropped 15 feet to a pile of crushed rock. He was cut and bruised about the head and face, and was treated at the Emergency hospital. The soldier was on guard after dark, and being unfamiliar with his post, accidentally walked into the hole. He missed falling into the river by a few inches.

Morton Is Again Without Power

Morton, Wash., Dec. 7.—Following nearly six months of electric service either greatly impaired or lacking entirely, due partly to low water, and then the death of the manager of the power company C. O. Smith, another tie-up came Tuesday evening when the big head of water broke out the flume leading to the water wheel.

It has not been learned when service can be resumed. Mrs. Olive Smith, wife of the late manager, is expected home this week. Definite action in all respects regarding the plant is awaiting her coming. She took the body of her husband to Los Angeles, where internment took place.

Vancouver Woman Is Bruised by Auto

Mrs. M. B. Gardner, living on the Pacific highway near Vancouver, was taken to the Emergency hospital Thursday afternoon, suffering with a badly bruised leg, received when she was struck by a machine driven by Miss Norma Pence, daughter of Dr. E. H. Pence of the Westminster Presbyterian church, at Broadway and Washington streets.

Mrs. Gardner was going west on Washington. About halfway across Broadway she stepped back a few paces to ask Mrs. O. Rockney, 377 1/2 East Thirty-fifth street, a question, when the running board of the machine struck her. Miss Pence said she sounded the horn, which the two women say they did not hear. Mrs. Gardner was subsequently taken home in the Pence automobile.

George Warren Wins From Meiss With Cue

George Warren surprised the billiard fans at the three-cushion tournament at the Waldorf parlor by defeating H. J. Meiss last night. Their handicaps were 32 and 23, and the scores 21 and 22, respectively. Warren's victory makes him a sure entrant for the finals, having won five games and lost two.

The fourth division of players has also concluded its games with Roth and Herman as the winners for the finals. There are several ties to be played off, besides two regular games in the first division. Condon and Lundstrom have yet to play Harry H. Hicks, and if Condon defeats Hart and Hicks Lundstrom, there will be four ties to play off in the first division. Interest in the tournament is reaching a high point, and it is expected that all the games will be completed in a few days, when the finals will be arranged.

The Waldorf billiard parlor will stage the city championship billiard tournament for the three-cushion title for the city of Portland immediately upon the completion of the tournament now going on at the Washington street rooms. The tournament will be open to all billiard players who are residents of Portland, and there will be no handicaps.

Already several entries have been made, and from the interest taken in the preliminary tournament now closing, the city championship tournament is expected to be a lively one.

Scott Named Benson Captain Benson Polytechnic football players have elected Winfield Scott as their captain for 1918. Last season was Scott's first year in the interscholastic and despite the fact that he was the smallest player in the league he showed up in great style.

Pacific Team Wants Contest The Pacific Athletic club football team is anxious to arrange a contest for Sunday. Manager Mike DeCioce is claiming the 150-pound independent championship of the state for his aggregation.

New York Boxing Is Up for Court Action

New York, Dec. 7.—(L. N. S.)—The fate of boxing in New York under the new state constitution may be decided today. A decision in the case of proprietors of the Broadway Sporting club, of Brooklyn, was expected from Magistrate Eastbrook during the day. John Weinstein and several associates were arrested again last night on warrants issued by Brooklyn police.

Langford Beaten Up In Training Quarters

Chicago, Dec. 7.—(L. N. S.)—Homer Smith, the Michigan six feet two inch heavyweight, matched to meet Bill Brennan at Racine Monday, rules favorable in the betting. Sam Langford, who is training Smith, reports him fit and ready to win. Langford has not fought since he was defeated by Jess Willard. Smith showed Langford some boxing yesterday when he split his lip, brought a claret from the nose and bruised his face.

The boy who can do that to me is some man. I'll back him against the best," said Langford.

Practice in Zero Weather Des Moines, Iowa, Dec. 7.—(U. P.)—Despite a 10 below zero wind and snow-covered field, the all-state gridiron squad continued its practice for the game with Camp Dodge eleven here Saturday. More football stars from various points in the state continued to report today.

Indiana Grid Star Enlists Bloomington, Ind., Dec. 7.—(L. N. S.)—Lynn W. Howard of Ripon, Wis., fullback of the University of Indiana football team, is a member of the quartermaster's department of the United States army today. Howard enlisted as a first class mechanic and already has left for Camp Taylor.
