Notice to the Public

IN accord with the general condition of the times and in response to the call of our government to eliminate all waste, we have decided to make the following changes in the conduct of our business, effective December 1st. All deliveries and credits will be discontinued—thereby reducing the cost of doing business, we believe, at least 20 per cent. This amount will now be shared by the public and the government will profit by the elimination of waste made necessary by excess and overhead in conducting a delivery and credit business.

The past volume of patronage which it has been our good fortune to enjoy, we trust will be granted us in the future.
