

SIXTY-ONE VIOLATORS OF TRAFFIC LAWS ARE FINED AND ONE JAILED

Bench Warrants Issued for Two Who Fail to Answer When Names Called in Court.

Sixty-one violators of the traffic ordinance appeared in municipal court Wednesday, nearly all of whom paid fines, ranging from \$1 to \$20. A number of cases were continued for sentence by Judge Rosenman, where the offender convinced the court that an attempt was being made to comply with the ordinance, especially in the charges of glaring headlights.

The stiffest sentence meted out was drawn by W. R. Nellis, who was ordered to pay a fine of \$20 and spend 10 days in jail. He was charged with doing 50 miles an hour on the Sandy road. L. L. Hewitt paid \$10 for passing a streetcar while it was discharging passengers. Fred Hamilton paid a fine of \$7.50.

Two bench warrants were issued by the court, when the offenders failed to answer the roll call for W. M. Rogers and C. M. Rogers, the charge against J. C. Wilson was dismissed.

Crozier said the many checking up on rifles required by law caused the delay.

appropriated \$100,000,000 as an emergency fund before the war was declared," said Hitchcock.

Chamberlain presented an answer by asking, "Why did you first ask for a share of this sum?"

The first formal request was made in August," said Crozier.

"You got it as soon as you asked for it, didn't you?" asked Chamberlain.

ning to equip our army with guns never tested in the field.

"Crozier didn't see any danger. Wadsworth brought out the fact that more than 30,000 light machine guns will be needed to equip the 45 divisions of the army.

"And none of these has yet been delivered," asked Wadsworth.

"None," replied Crozier.

"When will they begin to be?" "Next April."

"And why don't we use the Lewis as the English do?" insisted Wadsworth.

"We are getting enough guns from the French," answered Crozier.

"But we are certain that all our troops that get into the theatre of war before next April will be equipped with these light French machine guns."

The French guns shoot French ammunition," Crozier said, "but are later to be made in this country so they will shoot American ammunition."

Throughout the summer the American output of machine guns for our forces was practically nothing, Crozier said.
