Spruce Association
Is Formed Saturday

The incorporation of the Western Spruce Association as a non-profitable organization under the laws of Oregon, was announced Saturday. Thomas A. Sweeney is president, and Frank Waters secretary. The association has taken offices at 426 Yeon building.

"The purpose of the association is to cooperate with the spruce production division of the United States signal corps in its program for the saving of spruce," said Mr. Sweeney.

"We feel that the proper study of the methods of saving and the best ways of getting out the material will be of great help to the government. We will endeavor to bring together men of small means, owners of timber in order to aid the drive for spruce with which to manufacture war planes. We will make no charge for any service we may render to assist the government."
