

CHECKING ENEMY ALIENS BIG TASK

Chief of Police Doubts That His Men Can Complete Job in Time Allowed.

That the registration of enemy aliens is going to be a far larger task than was at first anticipated, is the opinion of Chief of Police Johnson, who stated Sunday that while he was making every plan conceivable to handle the large number of registrants, he was in doubt whether or not they would be taken care of in the time specified by the government order—February 5 to 9 inclusive.

It is estimated that there is in the neighborhood of 2000 enemy aliens in the city of Portland. The order requires that the registrant must call for his own registration blank and fill it out within the time specified. This necessitates the handling of the men twice. The law requires that they must furnish four photographs of themselves, not smaller than 2 1/2 inches in size. In addition the police will take the fingerprints of every registrant, and this one feature alone will require considerable time.

"Even if we are able to handle one registrant every 10 minutes, or 60 every 10 hours, we would only be able to register 300 men in the five days allowed by the government order," said Chief Johnson. "We will do everything we can to carry out the order, but the way it appears now, we are going to be pressed for time to carry on the work."

The registration will be held at police headquarters on the fourth floor in the gymnasium. The work will start on Tuesday morning, February 5, and will continue until Saturday night, February 9.

After the registration is completed the police are then required to look up the records of those registered and ascertain that their statements are true.

Rev. A. A. Morrison Flays the Kaiser

Brands Ruler as Self Constituted Prince of Heaven Who Claims Divine Mission is Conquering of World.

German aims and doctrines were scored Sunday by Rev. A. A. Morrison, who branded the kaiser as "the self-constituted prince of heaven; a temporal king who, in the absence of God on earth, claims that it is his divine mission to conquer the whole world and make Germanic salvation supreme."

Dr. Morrison said that the triumph of this Kultur would mean decadence of the rest of the world. He attacked the "cunning, sophisticated and deceitful kaiser who imagines that those nations which he is fighting are too ignorant to get along in this world without the divine assistance of the Prussian system of militarism."

Paul Spath Blocks Bad Check Worker

Paul Spath, manager of the Bay City market, Fourth and Yamhill streets, blocked the efforts of a bad check operator Saturday night, when the latter presented a check for \$18.75 apparently signed by M. Gardner of the Gardner Cigar company.

Spath took the precaution of calling the cigar company by telephone to assure himself that the paper was all right. While he was telephoning, the man who gave his name as George Harris made a hurried exit into the crowd of shoppers outside. The check was turned over to the police. The same party is said to have passed several worthless checks bearing the same signature during the past 10 days.

Fall From Auto Bus Causes Skull Injury

John W. Richardson, 45 years old, was taken to Good Samaritan hospital early Sunday morning, suffering from a possible fracture of the skull as the result of falling from a St. Helens auto bus near Wilbur and Richardson, who is said to reside at Seapocket, was in an unconscious condition last night when police investigated the case and was unable to give any information about the accident.

It is thought that he fell from the bus at about 8:30 yesterday morning, although the accident was not reported to the police until some time later.

Old Man Is Rescued From Burning House

Starting from an unexplained source about 10 o'clock Sunday night, flames totally destroyed the home of Andrew Beck, at the corner of 12th and Seaside and Wall street. Beck, who is 62 years old, and practically an invalid for the past three years, was asleep in the home at the time but was rescued by neighbors who rushed through the flames and carried him to a nearby home. He was taken later to the emergency hospital suffering from shock.

D. A. R. Holds Election
The Dalles, Or., Jan. 21.—The annual meeting of the Quenett chapter of the Daughters of the American Revolution was held in this city Friday evening at the home of Mrs. C. J. Crandall. The organization in The Dalles is only one year old, and in that time 21 members have joined. Mrs. R. L. Patterson, state regent, of Salem was present at the meeting.

Officers for the ensuing year were elected. They are: Mrs. C. J. Crandall, regent; Mrs. Joseph Stadelman, vice regent; Mrs. W. A. Kirby, recording secretary; Miss Margaret L. Sampson, treasurer; Miss Elizabeth L. Lang, registrar; and Mrs. F. W. Bailey, historian. Miss Anne M. Lang and Mrs. J. E. Anderson were elected as the board of directors.

Quenett was chosen as the name of the local chapter because this is an Indian name that Lewis and Clark applied to the mouth of Mill creek, near this city, where they were camped at one time, and which is the site of the first American flag to be planted in the vicinity of The Dalles.

The chapter has been very active in war work, providing kits for all enlisted men from Wasco county, 23 in all. It has also arranged military celebrations and entertainments, all proceeds over to some military cause.

The Most Despicable Person in the World is the Greedy Man. You can help his downfall by investing in Thrift Stamps.

Fats From the Kitchen Traded For Store Soaps

Portland housewives are saving their soap fats left from cooking and exchanging them for soap at the local grocery stores, in obedience to the request of Food Administrator W. B. Ayer. A pound of the unclarified fats has a market value of one bar of soap. The leftovers from the kitchen are turned over to the soap manufacturers who have agreed to make the exchange through the grocery stores.

Hundreds of pounds of fats are ordinarily thrown into the garbage can and it is to turn this waste product into an article of intrinsic value that the campaign has been started in Portland in keeping with a nation wide conservation program.

ATTEMPT TO DISRUPT DAIRYMEN'S LEAGUE IS CHARGED IN LETTER

Meeting of Organization Is Called to Meet in Portland on Next Wednesday.

Charge that a group of Portland milk distributors are conniving to break up the Oregon Dairymen's league, that they may buy milk from the dairymen below the cost of production, is contained in a letter addressed to members of the league Saturday by its president, Alma D. Katz.

A general meeting of all dairymen and

buterfat producers is called for next Wednesday morning at 10 o'clock in the Central library hall to consider the situation.

Two distributors, the Oregon and Riverview dairies, have already been sued for an accounting by the league. The call for the meeting read in part:

Harmony Declared Lacking
"League matters have reached the point now where the creamery men who ought to be our friends and work in harmony with us are making deliberate, concentrated and united effort to break up the league in the hope of being able, in our opinion, to buy our product below the cost of production and sell it at the present prices, thereby injuring the producer without in any sense benefiting the ultimate consumer."

If we are to permit the creamery men to place themselves in position to dictate the price of milk and buterfat to the farmer by dealing with us as individuals rather than as an association of producers, then we are to drop back to the old conditions that prevailed before this league was organized.

Meeting is Important
"This meeting is the most important ever called by the league. It is the final

turning point in our affairs. We want every member to come and bring his neighbors who haven't seen the benefit yet of league membership, because producers of milk and buterfat shipping to the Portland market as well as to the condensary are vitally interested in the matters that will come before you.

"Federal food commissions throughout the United States have increased the price of milk, because milk is worth more than is being paid for it. Oregon dairymen are desirous of protecting the consumer. The industry must be saved and the ultimate consumer must not be forced to pay too high a price."

Slackers Are Held On Federal Charge

Charles Lagese, alias Harry Spencer; Harold Gomeriger and Felix Olabarría were returned from Eastern Oregon Sunday by Deputy United States Marshal Pace. They are charged with failing to respond to the call for examination when drawn in the draft. They are held in the county jail.

RED CROSS CHAPTER AT PILOT ROCK SAYS STORY IS ERRONEOUS

Mrs. Belts of That Place Declared to Have Three Sons and None in Service.

Acting under the instructions given by E. L. Amidon, who said he represented the Portland chapter of the American Red Cross, Aronsons company manufactured and donated a service pin with eight stars to be given to Mrs. Henry Belts of Pilot Rock, Or., in honor of

eight sons which she had given to her country.

A letter received by The Journal from the Red Cross chapter of Pilot Rock states an error has been made and that Mrs. Belts of that city has three sons and that they are not in the army. The letter follows:

An article appearing in your paper January 17 relative to the fact that the Portland chapter A. R. C. was going to honor Mrs. Belts by having a special service pin made because she was the woman in this county that had given the largest number of sons to the service of her country in defense of right and justice, requires investigation and correction. In the first place, she has only three sons and none of them are in the service of their country. The oldest son is farming here; Clyde, the boy who gave that interview, is around town waiting for the draft, and the youngest boy is very much below draft age, and I believe attending school in Pendleton. The only truth that he told was his own and his mother's name. I am sure that Mrs. Belts feels the position she

has been placed in very much, and in justice to the Portland chapter would want to have the correction made.

"Pilot Rock and surrounding country has many creditable things on record, both patriotic and otherwise, and is very proud of what she has accomplished along many lines. Amongst other things there are 76 young men in the service of their country mostly volunteers, but none of them bear the names of Belts, and to my knowledge no mother or father has given more than two sons, some have given their all—one—and are proud to do it, but we only want credit and honor where it is due. Yours sincerely,

"Chairman A. R. C., Pilot Rock Chapter."
"ANNE E. D. SCHLEGEL,
Chicago, Jan. 21.—(I. N. S.)—Lazarus Finkelman, 109, the oldest man in Chicago, is dead here. Until a week ago he had never been ill.
