

DRIVE PLANS FOR LIBERTY LOAN TO BE LAID TUESDAY

Committee Members From Each of the Oregon Counties Will Assemble for Conference.

R. E. SMITH TO BE MANAGER

Executive Committee for State Is Named and Work Is Outlined for Coming Campaign.

Machinery for the next Liberty loan drive will be assembled next Tuesday in a meeting of the Liberty loan central committee of Oregon and representatives of a committee from each county. The meeting will be held in the Multnomah hotel, beginning at 10 o'clock in the morning and lasting all day.

Robert E. Smith has been appointed executive manager of the state campaign by James K. Lynch of San Francisco, governor of the federal reserve bank of the Pacific. Mr. Smith, formerly of the Liberty loan central committee, which is comprised of the following: J. C. Ainsworth, George L. Baker, Franklin T. Griffith, William A. MacRae, A. L. Mills, Emory Olmstead, Edgar B. Piper and Nathan Straus. Mr. Smith was named chairman of the committee, and Mr. Mills chairman of the organization committee.

Blaine Haddock, attorney for the O.W. R. & N. Co., has been selected as assistant executive manager to aid Manager Smith, and G. V. Wimberly, formerly assistant cashier of the Douglas National bank of Roseburg, will be office manager.

Report on Conference Results

Opening the program building at a meeting Tuesday, a report will be given on the results obtained by the conference held recently in San Francisco by representatives of executive committees of the state. Edward Cookingham, A. L. Mills, Edgar B. Piper and Robert E. Smith were the representatives of the Oregon committee at the conference.

Acceptances have been received from all but two county representatives by the executive committee which made the appointments.

Organization of the state for the big drive will be made with the thought in mind that the organization must be capable of reaching the smallest political subdivision in the state.

"The machinery of the drive will not be limited to the county committees, but executive boards from each local banking town will be assembled," said Executive Manager Smith today.

Each Town to Have Board

"There will be a banking board for each banking town in the state. They will be named by the executive committee, with the endorsement of the county committee. A sub-committee of the executive banking board will be composed of speaking, publicity and canvassing committees. Each school district will have an actual working team. The teams will work under the executive local banking committee.

"A message will be received soon from the governor of the federal reserve bank of the Pacific urging that the state central committee hold conferences with the executive banking boards in each county seat.

"With each of the banking towns as the nerve center for its community, it is

ROUMANIA TO END DISPUTE WITH RUSSIA

PETROGRAD, Jan. 25.—(U. P.)—The people's commissaries today wired the soviets of Vladivostok and Harbin firmly to resist the landing or entry of any Japanese or Chinese troops from war craft.

The commissaries were informed that Colonel Bled of the British army, just arrived in Petrograd from Jassy, had brought word of Rumania's desire amicably to adjust the matters in dispute between that country and the Bolshevik government.

Last week the Bolshevik government was reported to have served a 24-hour ultimatum on the Rumanian government threatening war if Rumania did not instantly release Russian and Austrian army officers and punish Rumanian soldiers responsible for their arrest.

Petrograd, Jan. 25.—(U. P.)—A report that the United States would recognize the Bolshevik government very shortly was circulated in Petrograd today. Officials refused comment.

believed that the greatest efficiency will result.

Six Sub-Committees Planned

The activities of the executive committee of the state central committee will be carried out by six sub-committees. The publicity committee will be composed of J. C. Ainsworth, chairman; George M. Trowbridge, vice chairman; Frank Freeman, Frank McGittigan and Henry E. Reed.

Edgar B. Piper will be chairman of the speakers' committee, Franklin T. Griffith of the headquarters committee, A. L. Mills of the organization committee, William MacRae of audit and finance committee and Robert E. Smith and Emory Olmstead of the progress committee.

Mr. Olmstead and Manager Smith will leave for Seattle tonight, where they will confer with committeemen of Washington. Plans for the drive will be discussed and efficiency suggestions considered.

"The fact that the government will need about \$8,000,000,000 at the end of the fiscal year makes it apparent that the next drive will be larger than the last one," Manager Smith said. "The size of the bond issue, however, is to be determined partly by the total of subscriptions of war savings stamps and certificates."

Miniature Service Flag Is Displayed

A miniature service flag bearing 418 stars is being displayed in the window of the local branch of the Fisk Rubber company. The number of these stars has since grown to 449. It is an exact copy of the large flag now flying from the administration building at the general offices of the company in Chicopee Falls, Mass. Two of the stars represent employees who have joined the colors from the local branch. These are John Hall and Robert Wilson.

Marshfield Title Not Clear

Salem, Or., Jan. 25.—In a written opinion given to Adjutant General Williams, Attorney General Brown advises that the city of Marshfield's title to the block offered as a site for a new armory is not clear. He suggests that a suit should be instituted to clear the title.

MEMBER FEDERAL RESERVE SYSTEM

AUTO ACCIDENTS LEAD TO FILING OF THREE SUITS FOR DAMAGES

Seid Back, Ching Wan and Daniel Back Are Defendants in Action for \$15,000.

Mrs. E. M. Farnham demands \$10,000 damages from P. D. Cunningham in a suit filed in the circuit court this morning in which she alleges she was injured May 23, 1917, when an automobile in which she was riding was struck by a car driven by Cunningham at Wasco and East Tenth streets.

John Murringer demands \$15,000 damages in a suit against Seid Back, Ching Wan and Daniel Back, who, he alleges, ran into him with an automobile at Hawthorne avenue and East Twelfth street, August 12, while he was riding on a bicycle.

Jennie Gearhardt seeks \$5000 damages from J. E. Schultz and W. A. Ullman of the Willamette dairy, alleging that she was run into by an auto truck owned by the defendants, December 10, near their dairy on Union avenue.

NEW ENOCH ARDEN BREAKS RULE

Mr. Tamley Does Not Play Game According to Tennyson.

The latest Enoch Arden is William H. Tamley, according to the suit filed in the circuit court by Emma F. Shove, Thursday afternoon, asking for an annulment of her marriage to Sam Shove. But this time Enoch did not act exactly in accordance with Tennyson's hero. He and the present Mrs. Shove were married at Vancouver, B. C., in 1910. He deserted her two years later, and some six years afterward let it be known to her that he had secured a divorce. The wife married Shove, November 19, 1917. Tamley now tells her, she alleges, that he did not get a divorce at all, hence the present suit.

Harry Dixon asks for divorce from Helen Dixon, alleging cruelty. She asks for the custody of a minor son. They were married in Portland, April 11, 1909.

Married at Syracuse, N. Y., in 1876, Frank P. Root asks for a divorce from Ida Root. He alleges desertion on her part in 1908. He states that they were living in Michigan in 1909 when he left for Oregon. She refused to come with him, he alleges. Since then he has repeatedly written her to come to him and has offered to pay all expenses of the journey, but she will not live in Oregon, she says. They have a son, Frederick, age 40.

MILE-A-MINUTE TIME IS BEATEN

Traffic Officer Testifies to Making 65 Miles an Hour Chasing Potter.

L. B. Potter was going so fast in his new car on the Columbia river highway Wednesday that Traffic Officer Taylor had to hit it up 65 miles an hour to catch him. Taylor testified before District Judge Dayton. Potter was going west on the Corbett straightaway. Taylor's motorcycle was standing by the roadside as he passed. Taylor said he caught up with Potter near the bridge by the Auto club, three or four miles away. After he had told Potter to appear Thursday in the district court, Taylor said, he went ahead and hid in the brush, waiting for Potter to come along again. Presently, he said, Potter heaved in sight, driving along at a furious rate. The officer took after him again, but this time his motorcycle went wrong and he had to give up the chase, he said. Judge Dayton fined Potter \$25.

TESTIMONY IS NEARLY ALL IN

Suit Against Alameda Company Asks for An Accounting.

The taking of testimony in the case of L. M. B. Simons against the Alameda Consolidated Mines company will be concluded today.

Circuit Judge Stapleton, before whom the case is being tried, has been holding sessions of his court in the offices of the defendant company in the Board of Trade building to gain convenient access to the large number of books involved in the suit.

Simons is suing for an accounting, alleging that he and 10,000 other stockholders are being deprived of their rights and interests in mining property of fabulous wealth in Josephine county.

The suit was begun December 12 and this is the twentieth day court has been held in the defendant's offices.

LEGAL PROCESSES ARE DODGED

Deputy Sheriff Brings Athlete Back Despite Efforts to Prevent Action.

Deputy Sheriff G. C. Marks returned Thursday night from California with Raymond P. Judge, the University of Washington athlete who is under indictment here on a charge of non-support.

The officer has an exciting tale to tell of dodging habeas corpus writs and other legal documents issued on behalf of his prisoner, who was fighting extradition. Judge was ordered released at Stockton, but was re-arrested immediately by Marks on a fugitive warrant taken to Oakland. Marks had tickets to Portland on the Shasta Limited. Getting wind of another writ, he took his prisoner to Sacramento by auto. There he was obliged to dodge another legal process, but escaped with Judge by electric train to a nearby point.

STATUTORY CHARGE IS FILED

William Tyler and Mrs. Harry Henderson Arrested by Constable.

William Tyler, whose marital troubles gained him some prominence in the courts a year ago, was arrested Thursday with Mrs. Harry Henderson by Constable Mark Petersen. A complaint charging a statutory offense was made by the woman's husband. They were released on bail.

Tyler and his mother, Mrs. Parmella Tyler, 32 years old, were in court a year ago. The mother was defendant in a \$200,000 suit for alienation of affection begun by her daughter-in-law, Vina I. Tyler, who has since secured a divorce. It is said the suit was compromised.

TWO SUITS ARE NOW ON TRIAL

Jury Is Being Chosen in Real Estate Case; Damage Suit Being Heard.

John F. Daly wants a commission on a \$15,000 real estate deal from John Clark. A jury was being selected in Circuit Judge Tucker's court this morning to try the matter.

The \$15,000 damage suit of Stanley Malecki, 7 years of age, against the Portland Railway, Light & Power company, will be begun before Judge Tucker this afternoon.

It is alleged in his complaint that he was struck and run over by one of the defendant company's streetcars July 25, 1916, at First and Sheridan streets. Re-

KELLAHER IS ASKING FOR INFORMATION ON BIG CITY BUS LINES

Commissioner Wants Line on Investments and Profits of Municipal Undertakings.

At the request of Dan Kellaheer, commissioner of finance, Mrs. C. L. B. Kellaheer, municipal librarian, has mailed questionnaires to the leading cities in the United States seeking information on the operation of motor buses.

The city officials to whom the questionnaires have been addressed have been asked if the city operates a municipal bus line; if so, its investment and profits derived therefrom; and if the city licenses motor buses.

The questionnaires ask for complete information on any method in which motor buses are operated.

CLOSER SCRUTINY ON SCALES

Inspector Jones Finds Fewer Violations Than in Former Years.

Scale-users are giving more attention to the proper maintenance and operation of scales than in the past. During the fiscal year ending November 30, 1917, E. D. Jones, sealer of public weights and measures, inspected 262 scales. Of this number, 77 were condemned and 121 were ordered repaired.

Special attention last year was given to automatic tanks and pumps used in the sale of gasoline, kerosene and lubricating oils. Sealer Jones tested 240 tanks and pumps, sealed 218 and ordered 22 repaired. Slight defections on 27 pumps and tanks were adjusted or repaired before being sealed.

Because a pump is correct when tested, Sealer Jones says, does not mean that all gas sold through it will be sold at its correct measure, and, although it is believed that the majority of operators measure gasoline correctly, buyers should exercise the usual business precaution of watching the stroke of the pump and see that the full amount to deliver the required amount is taken by the operator.

Sealer Jones reports the following miscellaneous work conducted by his department during the year: Wood measured, 7322 cords; coal reweighed, 28,636 pounds; flour weighed, 1800 pounds; ice weighed, 11,170 pounds; vegetables oil weighed, 844 pounds; auto sand and gravel trucks measured and certified, 7.

Police Jobs in Demand

Scores of applications are being received by the municipal civil service board from men who are anxious to join the police force. An examination for eligible men for appointment to the force has been set for February 7. From the eligible list the appointments to the police force will be made during 1918.

Dry Law Breach Costs \$100

L. E. Ellinger pleaded guilty before District Judge Dayton this morning to a violation of the prohibition law and was fined \$100. The arrest was made by Deputy Sheriff Christofferson.

Car Company Wins Suit

A jury in Circuit Judge Gatens' court returned a verdict for the defendant in the \$10,000 damage suit of Ella G. Fisher against the Portland Railway, Light & Power company.

Grafting Operation Believed Successful

That the skin-grafting operation performed on Harry G. Weiger, who had suffered severe burns on the legs and thigh, will prove successful, is the belief of attendants at St. Vincent's hospital, where the patient is being cared for. Fully 80 per cent of the grafts will become permanently fixed, it is believed. The growth of 50 per cent of the skin patches is considered to be normal in cases of this kind.

The operation was performed a week ago last Thursday by Dr. C. H. Wheeler and Dr. K. A. J. Mackenzie. Fifty-four men and women volunteered to give up portions of their bodies to save the man's life. Two square feet of surface was covered.

Child Drinks Iodine, Lives

Danny Shaw, 3 1/2 years old, drank from a bottle of iodine at noon today while attending to the arrangement of furniture in the house at 71 East Eleventh street north, which they had just moved into. An interne from the police emergency hospital was sent out and, after working with the lad, pronounced him out of danger.

Theft Charged to Colored Man

George Brown, colored, was arrested by Inspectors Enos and Leonard and charged with larceny of \$20 from Tom Samato, Japanese barber at Second and Davis streets.

Piles Cured in 8 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, blind, bleeding or protruding piles. First application gives relief. 50c—Adv.

WE SENT SONS, ONE MEANING OF W. S. S. TO ONE GOOD MOTHER

Rose City Park Community Church Selects Choice of Number of Slogans Submitted.

"We Sent Sons." When a contest for the best slogan typifying the meaning back of the letters "W. S. S." was held at the Rose City Park Community church, the above, submitted by Mrs. J. H. Colman of East Forty-eighth and Broadway, was the prize winner.

The initials "W. S. S." appear nowadays in almost every place where people congregate. The letters mean War Savings Stamps, and war savings stamps are being sold in aid of the national thrift campaign. This state's quota is \$17,000,000. Back of the thrift campaign is the desire of the people to furnish from their small savings large aggregate amounts to help win the war and to adopt the practices of economy essential to the winning of the war.

Other slogans submitted in connection with the Rose City Park contest were: "Work, Sweat and Save," "Wanted, Soldiers and Sailors," "We Should Save," "We Save Stamps," "Wilhelm Shall Surrender," "War Shall Stop."

Port Is Asked to Pay

The Port of Portland is to be asked by the city to pay \$237.21 of a total of \$4685.91 for the rebuilding of a sewer in Russell street, wrecked last year because of a fill made by the Port of Portland. At the same time as the sewer is rebuilt, the city plans to reconstruct the outfall of the sewer at the foot of the street, which was not damaged by the Port of Portland fill.

Police Jobs in Demand

Scores of applications are being received by the municipal civil service board from men who are anxious to join the police force.
