HOLMAN AND YEON IN HEART TO HEART TALK CLEAR UP DIFFICULTIES

Chairman of Commissioners Proposes That District Foremen Make Reports.

A heart-to-heart talk between Roadnaster Yeon and County Commissioner Holman, Friday, cleared the atmosphere round the roadmaster's office and deined the position of each in the pending controversy over the reorganization of the county road department.

The chairman of the board of com-nissioners assured the roadmaster that he did not question his integrity, but regard to the cost of the Vista house. He said he had lost confidence in the coadmaster, who had told him in the beginning that the building would not ost the county more than \$18,000, when t had cost three times as much.

Yeon Explains Estimates

Roadmaster Yeon explained that the early estimate was based on the plans taken over from the Vista House association, but that it would have been a crime to have finished the building on the lines proposed. There would have been, said he, no permanency- to the building, which it was proposed to make of wood and plaster.

The roadmaster further asserted that everything done on the Vista house had been with the approval of the majority of the board of commissioners and that he had in no way usurped the authority

"The trouble with you," Mr. Holman, the tax dodgers, like Goldsmith-men who are opposed to all public improvement. They never do anything for the community themselves. That is your trouble, Mr. Holman, and the sooner you correct it the better it will be for you." Monthly Reports Asked For

In the matter of the reorganization of the road department the roadmaster said that the plan proposed by Chairman Holman to have the district foremen report to the board of commissioners once a month would be subversive of all discipline and efficiency.

Commissioner Holman contended that the language of the resolution he had introduced plainly expressed that there was no intention of depriving the roadmaster of any authority. The only purpose, he said, was to get a more intimate cooperation between the administrative and construction forces. Furthermore, it would, he claimed

prevent the board from getting into another such irregular proceeding as the building of the Vista house. He was seeking, he said, to get the best results through full cooperation.

Tourist Business Not Hurt by War

S. Benson Reports Southern California Not Affected by Conditions Except That Hotels Have Raised Rates. That the war is not having any great appreciable effect on the tourist business of Southern California is the re-

port of S. Benson, chairman of the state highway commission, who has just returned from Los Angeles.
"The only difference noted," he said, "is that tourists instead of filling the big hotels are filling the apartment houses. The reason for this is that the hotels advanced their rates about 25

per cent. Consequently people took apartments which were advanced only While in California, Chairman Benson made inquiry as to the road work being done by that state. There is to be no curtailment this year, he said, on account of war conditions.
