

MINISTER IS ARRESTED IN SEATTLE FOR BEING INSIDE OF BARRED ZONE

Rev. John Martin Baurnschwieg Is Alleged Alien Enemy; E. Robinson Also Held.

Seattle, Feb. 21.—(U. P.)—Rev. John Martin Baurnschwieg, alleged German alien enemy, and E. Robinson, said to be secretary of the Lumber Workers' local of the I. W. W., are under arrest here today in the general tightening of the United States net against anti-war agitation.

Rev. Mr. Baurnschwieg is charged with having resided in the zone barred to aliens since his arrival in Seattle last Monday. He is 26 years of age and was a student at the Baldwin Wallace theological school in Berea, Ohio, until a week ago, when he was traced to Seattle.

When placed in the detention station for investigation, 500 addresses of Germans were taken from him.

A trunkful of I. W. W. literature was found when Robinson was arrested by Immigration Inspector Thomas Fisher on orders from Washington, D. C. It is said the seized papers indicate the I. W. W. had planned to close down the industries of the state by May 1.

Newport Demands Building of Railroad

Newport, Or., Feb. 21.—The Newport Commercial club is preparing a complaint to be filed with the public service commission demanding that the Southern Pacific build the railroad from Yaquina around the bay to Newport, about four miles. All passengers and freight are, at present, unloaded at Yaquina and required to use a ferry to reach Newport. In the summer time the ferry is crowded to capacity and the extra fare and freight charges and inconvenience have caused much dissatisfaction.

\$200,000 Worth of Grain Lost in Wreck

Newburgh, N. Y., Feb. 21.—(I. N. S.) A freight train of cars loaded with grain was wrecked near Marlborough Wednesday, causing damage estimated at about \$200,000. The accident which occurred on the West Shore railroad was caused by the train running into a rock slide.

Dr. Boyd Speaker At Flag Service

Hood River, Or., Feb. 21.—A service flag containing 97 names was dedicated Wednesday afternoon by the Hood River high school in honor of the students who are now serving in the army and navy. Dr. John H. Boyd of Portland delivered an address. The large auditorium of the high school was crowded.

NAVY WILL BE INCREASED TO 200,000 MEN

WASHINGTON, Feb. 21.—(U. P.)—The navy will be authorized to recruit to a strength of 200,000 under a bill soon to be introduced by Representative Padgett, chairman of the house naval committee, it became known Wednesday afternoon.

The present limit is 150,000 and the permanent limit \$7,000. The law now provides that the officer personnel shall be 4 per cent of the enlisted strength.

Representative Padgett and Secretary Daniels have agreed that under the proposed bill the officers' personnel will be increased, lieutenant commanders and below being apportioned on a basis of 4 per cent of 150,000 and grades above lieutenant commander on 4 per cent of 87,000.

PETROGRAD BELIEVED OBJECTIVE OF TEUTON

(Continued from Page One)

would not mean a break between the allies and Russia. Premier Lenine was chief advocate of the wireless sent from here announcing Russia's willingness to sign the German peace. Four other commissaries supported Lenine, while four opposed him. The opinion prevails here that Petrograd's fate will be decided in a fortnight.

On the north the Finnish revolution is under way; on the west and southwest the Austro-Germans are advancing, while on the south, the Cossacks are threatening. This leaves Siberia and the Pacific ocean route the only one open for the envoys.

The Russian armies are concentrated at Vitebsk under General Bonchbruyevitch to halt the German invaders. German Near Finland. Vitebsk is a Russian province bordering on Courland and Livonia. Its capital of the same name lies about 250

miles east of Riga and 300 miles south of Petrograd.

Commanders of the Russian army on the whole front have ordered demobilization halted and wired the soldiers in Petrograd:

"Do your duty; defend the revolution."

The members of the left created a stormy scene in the executive committee when they heard Lenine's report on the decision to announce Russia's willingness to sign the peace pact. If the Germans spurn the offer, they said, there is certain to be a terrible battle.

"If General Hoffman continues the war, he will restore the nobles and landlords and bankers," the Pravda declared. "We will fight to the last bullet and the last man."

The Bolsheviks sent an ultimatum to the Don Cossacks, ordering them to surrender. A desperate rifle battle followed. The Cossacks retreated to Rostoff (on the Don river about 25 miles from its mouth), where they are being besieged.

By an overwhelming majority the Bolshevik and revolutionary Socialists of the left in the central executive committee voted to defend Petrograd at all costs. A mobilization of all workers is being considered.

Information was flashed to the Smolny Institute that if the majority Socialists do not break with the German government the independent Socialists will start a civil war. The Germans have occupied Hapsal (a seaport on the Gulf of Finland 58 miles south of Reval) and arrested all the officials and members of the Soviet.

Rada Accepts Protectorate Is Report. From Dvinsk (125 miles east of Riga) the enemy is advancing toward Pskoff (an important railroad center about 100 miles northwest of Dvinsk and 175 miles southwest of Petrograd).

The Austro-Germans are concentrating along the southwestern front while forces of the Ukraine Rada are concentrating at Brest-Litovsk under German general.

A report was received from Kieff today that the Rada had proclaimed acceptance of the Austro-Hungarian protectorate.

London, Feb. 21.—(U. P.)—German detachments, 20 miles east of Vitebsk, distributed proclamations declaring resistance to Germany was futile and that German forces are preparing to occupy Petrograd, according to an agency dispatch from the Russian capital today.

Russians Abandon Ammunition. Petrograd, Feb. 20.—(U. P.)—(Delayed.)—German forces are attempting to cut the Libau-Romen railway. The Russians are retreating without resistance, abandoning material and ammunition. Turkish troops have appeared near Trapesund.

The reference to "Trapesund" probably means Trebizond, an important Black sea port, captured some time ago by the Russians. It is in Asiatic Turkey.

Germans Advancing on Reval. Copenhagen, Feb. 21.—(I. N. S.)—Three groups of German armies are now operating on the Baltic coast and the Drvina river. One is driving toward Reval, at the Gulf of Finland, with Pe-

trograd as its probable final objective; another is investing Livonia, while a third is pressing eastward from Dvinsk in the general direction of Moscow.

Reval, the Russian fortress menaced by the Germans, is 200 miles southwest of Petrograd and was one of the chief bases of Russia's Baltic sea fleet. It has a population of 65,000. In an official statement issued by the war office it was stated that the German troops driving against Reval had passed through Werder. Werder is about 60 miles from Reval.

England Refuses Recognition. London, Feb. 21.—(I. N. S.)—High interest was aroused today by the report that the British government has notified the British consul at Kiev to inform the Ukrainian government that England will not recognize any peace in the East which does not take into account the self determination of the

Poles as to their own future. It was the general belief that England's action reflects the attitude of all the allies.

Plague Falls, Flyer Hurt. New York, Feb. 21.—(U. P.)—Walter Crowe was seriously injured when his airplane, fell at Love Field, Texas, according to word received here today. He suffered brain concussion.
