25 CARS IDLE ON TRACK BUT BAKER MILLS GET NONE

Freight Carriers on Siding Below Eugene, but No Explanation Is Forthcoming.

TELL M'ADOO, IS SUGGESTION

Eastern Oregon Industries Suffering Shutdown Because of Inability to Get Empties.

Salem, Or., Feb. 23 .- Twenty-five cars have been standing idle on sidetracks on the Eugene-Marshfield branch of the Southern Pacific company for the last week, while the state is suffering from a car shortage, according to a letter received this afternoon by the public serv ice commission from seven citizens of

While these cars have been shunter onto a sidetrack and left there out of use, the Baker lumber mills and the La Grande flouring mills have been forced to close down because they could get no cars to move their output. The letter from Mapleton, which is signed by Lane Martin, M. C. Murray,

Walter W. Fraer, L. P. Demoss, C. H. Burtenshaw, Martin Noffsinger and B. E. Camp, says the cars are mostly box cars and eastern cars. Public Service Commissioner Corey telephoned the information to Frank . Miller, chairman of the commission, wh in Portland and suggested that Mr. Miller take the matter up with Director General McAdoo and endeavor to have

the eastern cars can be loaded for their return to the eastern lines. How the cars happened to be left o the sidetracks on the Eugene-Marshfield line is not known here, as the Southern Pacific has been reporting a

Rheumatism

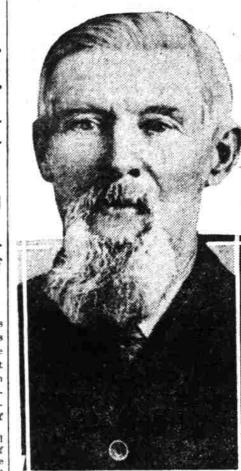

A Home Cure Given By One Who Had It

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted, and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

Nationally Known for Economy

THE reputation of the Grant Six as an Leconomical car is based on actual performance-owners named it "the economical car" long before claims of economy became so general in motor car advertising.

Owners average 20 miles to a gallon of gasoline and 900 miles to a gallon of oil. No six built gets better mileage from tires.

The new Grant Six satisfies in every other way also. It is a strikingly beautiful car and it is roomy and easy-riding. Its overhead valve engine, its cantilever rear springs, its full-floating rear axle, the long wheelbase, the adjustable front seats, the excess capacity of cooling, oiling and electrical systems, are a few of the features in which the new Grant Six is superior to any car of comparable price.

All thoughtful Americans realize the importance of the motor car in maintaining national efficiency. The price and the high economy of the Grant Six should make it your choice if you are buying a car this spring.
