Southern Pacific Urges Gardening

Declaring that he "would rather like to see a good garden growing this summer at practically every section house," W. R. Scott, vice-president and general manager of the Southern Pacific company has enlisted the company's army of mechanics in the campaign for assisting the food administration.

Scott has asked all Southern Pacific superintendents to encourage the planting of vegetables on company property wherever practicable. Agents, section foremen and employees of the maintenance-of-way department from Portland to El Paso and San Francisco to Ogden are being instructed to convert to vegetable gardens all suitable ground around their places of employment.

In addition, the company is endeavoring to lease all cultivatable land which it owns and where practicable, right-of-way land, adopted to truck gardening or agriculture is being leased.

Last year's vegetable gardening was undertaken along the company's lines by hundreds of employees with great success. This year the right-of-way vegetable will be produced in quantities that should have an appreciable effect on the H. C. L.

ECZEMA
Also called Tetter, Salt Rheum, Pruritus, Milk Crust, Water Poison, Weeping Skin, etc.

For fifteen years I have been treating one disease alone, ECZEMA. I have handed over one million cures. I don't pretend to know it all, but I am convinced ECZEMA is a curable disease, and the disease is due to an excess of acid in the blood, and closely related to rheumatism and cancer.

ECZEMA is called by some people Itch, Tetter, Salt Rheum, Pruritus, Milk Crust, Weeping Skin, etc. It is a disease of the skin, and it makes no difference when I say it can be cured, I mean just what I say—CURE—CURE, and not merely patched up for a while to relieve worse than before. It makes no difference what other doctors have told you, or what all you have tried, all I ask is just a chance to prove to you that this vast experience has taught me a great deal that would be of help to you. If you will write me today I will send you a free trial of my mild, soothing, guaranteed treatment that will do more to convince you than I or anyone else could in a month's preaching. It's all up to you. If you can't say more with esteem and refuse to merely write to me for free trial, blame yourself. No matter where you live, I have treated your neighbors. Merely dropping me a postal today is likely to give you more real comfort in a week than you ever expected. Do it right now. Your very life may be saved.
