

FINE DISTINCTION IN DETERMINING HAZARDOUS WORK

Industrial Accident Commission Holds That Hauling Ship Knees Is Not Hazardous.

CHANCE TO APPEAL DENIED

Logging and Cutting Timber for Ship Knees Is Held to Be Hazardous Occupation.

Salem, Or., March 23.—Logging and cutting timber for ship knees is a hazardous occupation. Loading and hauling those ship knees out of the timber is not a hazardous occupation.

That is the fine distinction drawn by the state industrial accident commission and resulted in the commission denying compensation to James Siddall, whose leg was broken last June while employed in getting out ship knees for T. T. Parker & Son, near Arlie. As to whether Siddall was in the employ of Parker & Son or J. F. Ulrich, of Polk county, was the point of the accident is a disputed point.

Technical Point Is Raised

Ulrich presented to the commission a claim for compensation for Siddall. The commission rejected the claim, but never notified Ulrich of the action taken, and when the matter did come to Ulrich's attention in the form of a threat of a suit for damages for personal injuries, he was advised by his attorney that the time for appeal had passed.

Chairman Beckwith of the commission says the records do not show that Ulrich was ever notified by the commission of its rejection of the claim. Ulrich says that the commission refused to waive the time limit for an appeal and permit him to take the matter into the courts, but Beckwith and other members of the commission say they have no recollection that Ulrich ever made such a request of them.

Question as to Employment The compensation law as amended, makes no reference to an appeal being taken by an employer, but the time in which an injured workman may take an appeal is limited to 30 days after the date of the decision by the commission.

A TIME FOR STRONG NERVES

There Is No Tonic for the Nerves That Is Not a Tonic for Every Other Part of the Body.

Many people are worrying themselves sick over the high cost of living. War time with its excitement and hysteria is a trial to the strongest nerves. To those whose nervous systems are run down by overwork or worry, to those who are on the verge of neurasthenia, it is a time of danger.

If your hand, your thumb or foot trembles when you try to hold it still, if the lines are shaky when you write, if you have tremors of your lips or chin, your nerves need strengthening.

These signs often precede a serious nervous breakdown. In meeting this condition it is necessary to exercise care in the diet and take a nerve tonic. Dr. Williams' Pink Pills contain ingredients that build up the nerves at the same time that they tone up the system in general and help in preventing nervous disorders from developing can not be disputed.

There is no tonic for the nerves that is not a tonic for every other part of the body. There is no form of debility that does not rob the nerves of nourishment. The remedy therefore for nervous breakdown is a tonic that will build up the general health, revitalize the blood and enable it to carry to the nerves the elements that they need.

Dr. Williams' Pink Pills are an ideal tonic for this condition because they are non-alcoholic and non-narcotic. Patients should avoid alcoholic stimulants.

The Dr. Williams' Medicine Co., Schenectady, N. Y., has published a little book on nervous disorders that contains a chapter on neurasthenia in which the symptoms are fully described and the correct treatment given. The booklet is free on request.

Dr. Williams' Pink Pills are sold by your own druggist or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50.—Adv.

NUXATED IRON

You can tell the Women with Iron in their Blood— Beautiful, Healthy, Rosy Cheeked Women Full of Life, Vigor and Vitality.

Dr. Ferdinand King, New York Physician and Medical Author, says physicians should prescribe more organic iron—Nuxated Iron—because it is the greatest cure to the health, the vitality and beauty of the modern American Woman. He warns against the use of metallic iron which may injure the stomach and in some cases corrode the stomach lining. He says that the use of only nuxated iron, taken three times per day after meals, will increase the strength and endurance. It will increase the strength and endurance. It will increase the strength and endurance. It will increase the strength and endurance.

BELLAN'S Absolutely Removes Indigestion. Druggists refund money if it fails. 25c

Siddall had been employed by Ulrich on the latter's farm. Parker & Son, who were logging ship knees, made an agreement with Ulrich to haul the ship knees at 40 cents each and Parker & Son were to maintain a gin pole, used in loading the knees. Ulrich sent his team and Siddall to the hauling. The gin pole got out of repair and Siddall undertook to fix it, and in this connection sustained the accident which broke his leg.

The Distinction Is Drawn Ulrich contended that at the time of the accident Siddall was in the employ of Parker & Son, who were engaged in logging and whose employees were all under the compensation law. He contended that Parker was responsible for the maintenance of the gin pole. The commission ruled that Siddall was in the employ of Ulrich.

As a second point, Ulrich contended that even though Siddall was in his employ, the work he was doing comes under the classification of "logging, lumbering and shipbuilding operations," which automatically brings all workmen in those industries under the compensation law unless they specifically elect to stay out. But the commission drew the fine distinction, as before stated, that while the logging of the ship knees would be classified as a hazardous industry, the loading and hauling of them should not be classified as a hazardous industry, and Siddall should be denied compensation.

LANE COUNTY SHERIFF SHORT, ACCORDING TO STATEMENT BY COURT

Grand Jury Inquiry Expected; Amount, Approximately \$4900, Made Good, It Is Said.

Eugene, March 23.—The grand jury of Lane county, which has been called for next Monday, will, it is expected, investigate charges of irregularities in the financial affairs of Sheriff James C. Parker, who resigned a few weeks ago after an auditing committee, consisting of S. M. Wallis and Fred Fisk, had examined his books. At the time of the resignation it was stated that the books were straight and the money all on hand. It is now given out, on the authority of members of the county court, that a shortage was discovered by the auditors and that Parker raised the amount, approximately \$4900, and replaced it at once. The auditing board, however, reported it to the county court, which demanded Parker's resignation. Parker, it is said, told the county court that no one in the office, except himself, knew of the shortage. D. A. Elkins, who was chief deputy, who has had nothing to do with the tax collections, was appointed sheriff.

Another case to come before the grand jury will be that of M. M. Crow of Roseburg, who was arrested here Wednesday charged with a statutory crime involving his own daughter. Portland, Me., March 23.—Declaring that the United States must prepare for three more years of war, Theodore Roosevelt, in an address Thursday before the Maine Republican state convention, said that Germany will have to be whipped to her knees. He praised the work of Republicans in congress and spoke of "Mismangement" at Washington. "War is won by brains and steel, not by kid gloves and fine phrases," the colonel said.

Harold Grady to Instruct Aviators

Friends of Harold Grady of Portland have received word that he has been graduated from the aviation grand school at Berkeley with high honors and will have charge of a group of aviators expected to leave soon for the flying school at San Diego. Mrs. Grady is teaching dancing at the St. Francis and Oakland hotels. Mr. and Mrs. Grady played the Pantages circuit for several seasons.

Quebec Police Take Deserters of Draft

Quebec, March 23.—(I. N. S.)—City police today clubbed their way through a mob which had formed and was opposing the arrest by Dominion police of deserters who were evading the military service act. Joining forces against the mob, the two bodies reached the police station with the prisoners only by fighting them at every turn.

Killed in Action On Western Front

Lexington, Ky., March 23.—(I. N. S.)—Sergeant Hunter Massee of Nicholasville, Ky., has been killed in action in France, according to word received here today by relatives. He had been in the army for seven years and went abroad with the first contingent.

Port Breaks Record For Tea Inspection

Tacoma, March 23.—(I. N. S.)—Tea inspection records for this city have passed the 44,000,000 pound mark. Never before in the tea history of the United States has there been handled so much in nine months. There still remain three months of the government fiscal year.

Condensed Milk Sales Unsettled

Washington, March 23.—A plan for allowing the sale of accumulated supplies of condensed milk which do not comply with government regulations, today to have been completed a few days ago with Assistant Secretary of Agriculture Pearson, is in the air again. The Oregon delegation will accompany Dr. Matile of Anity for a hearing before Secretary Houston within a day or two.

Fined for Death of Woman

Seattle, March 23.—(I. N. S.)—Two hundred and fifty dollars is the fine paid today by Thomas Odine for causing the death of Ragna Anderson. Odine pleaded guilty. He drove an automobile in which the woman was riding when it collided with a street car and she was fatally injured.
