W.S.S. CHAIRMAN OF KLAMATH SAYS OUTLOOK BRIGHT

Indians, He Declares, Are Disappointed in Action Withholding Development Funds.

CROP PROSPECTS ARE FINE

Grain Acreage Greatly Increased and Much New Land Brought Under Plow.

Captain J. W. Siemens, chairman of the Klamath county war savings committee, which made an enviable record the W. S. S. campaign, is making a hurried business visit to Portland. Klamath county sales of Thrift Stamps and War Savings Stamps up to date have totaled \$22,000 and with the effective preliminary work accomplished it is expected that there will be a steadily increasing volume of sales.

"Miss Edna Wells, secretary of the committee, has thoroughly organized the work in the school districts," said Captain Stemens, "and, covering a territory larger than some of the Eastern states, it is no small task to accomplish the initial work for the kind of a campaign the north end of Klamath county, is more difficult to reach from Klamath Falls during the winter season than from Portland. Indeed, supplies sent to that postoffice from Klamath Falls must be sent around by way of Portland. We anticipate a steadily growing volume of sales, now that people understand the desirability of this method of helping Uncle Sam finance the war.

Klamath Indians Want to Help tural and livestock industries of the mated in Portland, April 4. Klamath Indian reservation. Congress recently provided that \$500,000 be set aside to enable the Indians to buy cattle to stock their farms. Cate Sells, commissioner of Indian affairs, has declared that this money shall not be available until 1919. This is contrary to the understanding of the public and a disappointment to the Indians. The purpose for which the appropriation was sought was to enable the Indians to secure the stock in order that they might help supply the nation with beef during the war and for needs of the future and make their livestock industry profitable as soon as possible.

tion of the fund would be diverted from its original purpose to put up buildings needed at the agency or sub-agency of the reservation. The Indians are now circulating a petition asking that the money be used exclusively to buy cattle, for which it was intended, and they

The forested district is also to a large extent good range land during the summer season and the Talent Irrigation slashings are being cleaned up as the timber is removed.

Promising Outlook for Good Crops "The present outlook is promising for a good crop year, both on irrigated lands nation in the war."

Captain Siemens has the distinction of the irrigation project. of being one of the busy men of his part of Oregon. He is president of the Huns Impose Severe First Trust & Savings bank and holds numerous minor posts of responsibility and public service. Incidentally he owns and directs the operations of several ranches, including the famous Altamont horses known on the turf, but which from Switzerland show the irrigation system has been reconstruct- sace-Lorraine. German Agents Try To Incite Indians

Reno, Nev., April 11.-Piute and Goshute Indians in Nevada and Utah have been incited to rise against the whites, according to information given O by loyal Indians to federal officers Wednesday. Agents, supposed to be German, have distributed arms and poison among the Indian tribes and by propaganda have stirred up considerable excitement, it is said. The Indians, however, have been peaceable toward whites for many years and federal authorities expect no trouble.

STATE LAND BOARD GRANTS EXTENSION OF TIME ON LEASE

lason C. Moore Agrees to Protect People in Matter of Summer and Albert Lakes Deal.

Salem, Or., April 11.-The state land board, at a meeting Wednesday afternoon, consented to an extension of time on Jason C. Moore's lease on Summer and Abert lakes, in Lake county, on condition that before April 22 he will deposit with the state a surety bond guaranteeing the payment of \$15,000 to the state before December 20 of this year. Is Out for Senate The bond must have the approval of

the attorney general. Secretary of State Olcott held out against granting the extension unless posited \$15,000 in cash with the state, as required under the terms of the lease and only consented to accept the surety Treasurer Kay agreed that no further extensions shall be granted.

The three members of the state land board agreed that unless Moore and his associates make good on the lease be Boardman was arrested Wednesday fore the end of this year they will collect on the surety bond and cancel the

Maher of Portland. They said they had interested George T. Cameron of San Francisco, president of the Santa Cruz-Portland Cement company, in the project of extracting the minerals from the lakes, and that already they have an order for delivering a large quantity of soda ash which they expect to obtain

If the development proceeds, under the terms of the lease the state will receive a minimum of \$25,000 a year in royalties from the product taken from the lakes, for a period of 40 years.

Hair Often Ruined By Washing With Soap

Soap should be used very carefully, if ou want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and ruins it.

The best thing for steady use is just rdinary mulsified cocoanut oil (which s pure and greaseless) and is better han the most expensive soap or anything else you can use. One or two teaspoonfuls will clease

the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich. creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft and the hair fine and silky, bright, lustrous, fluffy and easy to manage.
