37 CHILDREN DIE IN ASYLUM BLAZE

Most of Youthful Victims, Feeble-Minded or Epileptic, Ran Back Into Fire.

Norman, Okla., April 13.—(I. N. S.)—Thirty-seven children are among the dead in a fire which early this morning burned to death more than 60 inmates of the Oklahoma asylum for the insane here and destroyed three ward buildings of that institution. A large number of patients also are reported seriously burned and injured in other ways.

Most of the children were feeble-minded or epileptic and efforts to save them were thwarted by many of them in excitement and fear, running back into the flames after being carried out.

The fire broke out about 4 o'clock this morning in the institution's dining room. The cause has not been ascertained. Before fire fighters had arrived, the flames had spread throughout that building and to those adjoining.

Efforts to save inmates were handicapped by inability of the patients to understand what was expected of them. Children could not be persuaded to march out. Even those who apparently understood the commands shouted to be prevented from marching to safety by others who clung to them in terror.

The flames spread so rapidly that
