

# DUBLIN CALM, BUT CROWDS TALK OF ARREST OF REBELS

Apparently Government Has Made Clean Sweep of Leaders and Left Sinn Feiners Guideless.

## GERMAN INFLUENCE DENIED

Members of Organization in Street Talk Defy Government to Show Proof of Hun Plot.

Dublin, May 21.—(U. P.)—John Dillon, chairman of the United Irish League, today appealed to America to withhold judgment upon the present grave situation in Ireland until the Irish people can be heard.

Dillon asked that the United States be not deceived by "propagandist misrepresentations, aiming to prejudice the American people and the American government against Ireland."

He characterized the government's action as "suspicious," and said he believed the government's sweeping arrests were "aimed against the Irish self-determinationists as much as against the alleged German plot."

Dublin, May 21.—(U. P.)—Dublin today is outwardly still very calm. The streets are thronged with groups of men discussing the blow which fell upon the Sinn Feiners when more than 100 arrests were made.

It is evident that the government made a clean sweep of rebel leaders in every community. It seems to have left the Sinn Feiners guideless and uncertain what action to take next, although they appointed Alderman Kelly and John MacNeill to replace De Valera and Griffith.

Kelly and MacNeill are of the milder element and are expected to counsel moderation and no violence.

In their street talk the Sinn Feiners defy the government to show proof of a German plot for an Irish uprising and demand the proof be quickly produced.

The more radical ones savagely and openly avow that talk of German influence is a plot by England to kill Sinn Feiners.

"If the government has got the goods," they said, "then we'll repudiate our leaders and get others. However, we do not believe that so many have been connected with a German plot."

Sinn Fein headquarters have reopened. Officials announced that 84 leaders have been arrested and they expected more arrests.

The interior of Ireland is calm. Evening newspapers demand that the government produce proof of its German claims and charge that the government announced the alleged plot simultaneously with the visit of the American labor delegates so as to blacken Ireland in the eyes of the Americans.

The American labor men have met Lord French, lord lieutenant of Ireland, and John Dillon, M. P.

All Sinn Feiners are deeply interested in what effect will be produced in the United States by the events now transpiring.

The anti-conscription fund, it was learned today, is now nearly \$1,000,000.

Evidence Will Be Made Public London, May 21.—(U. P.)—Official evidence of complicity between Sinn Fein leaders and Germany will be made public shortly, it was learned here today.

Senator Ollie James Is Critically Ill Washington, May 21.—(U. P.)—Senator Ollie James, Kentucky, is critically ill of Bright's disease at Johns Hopkins hospital, Baltimore.

Sees Picture, Hangs Self Calumet, Mich., May 21.—(I. N. S.)—Henry Rickard of Hubbel was found dead in his home today, having hanged himself after coming from a picture show. It is believed the picture affected him. He leaves a wife and four children in poor circumstances.

## TYPES OF SINN FEINERS

At the left, Countess Markievicz, who has been a Sinn Fein leader for a number of years. At the right, T. St. John Gaffney, formerly a U. S. consul in Germany, who was discharged for violating neutrality and later became an active pro-German propagandist in this country, later going to Ireland to stir up rebellion there.

## AIRPLANE FACTORY DESTROYED IN FIRE

Entire Block Swept by Flames in San Francisco; Loss Is Placed at \$1,000,000.

San Francisco, Cal., May 21.—(U. P.)—The plant of the Fowler Airplane company and a cabinet factory next door which was making airplane parts, were totally destroyed by fire, which apparently started in several places at the same time today.

The first swept the entire block of wooden structures bounded by Howard, Mission, Twelfth and Thirteenth streets. Damages were estimated at nearly \$1,000,000. Fourteen flats were destroyed. The Walter White Hardwood Lumber company was burned out.

Threatening Letters Received A new shipment of Irish linen to be used in making airplane wings was "burned up." Robert Fowler, owner of the airplane factory, said the linen was worth several hundred thousand dollars.

The L. & E. Emanuel company, cabinet makers, who were making airplane parts for Fowler under a government sub-contract, have recently received anonymous threatening letters.

The fire started about 7 a. m. At 9 o'clock it was practically under control. Firemen saved some of the machinery from the Fowler plant.

Two Airplanes Destroyed Two completed airplanes which were to have been delivered to the government today were destroyed. Two others were delivered yesterday.

The Fowler company's plant has been under close guard for several weeks, according to Sidney Bibbero, director of the factory. He said some of the linen and other valuable material had been removed from the factory recently and the linen destroyed was probably worth about \$50,000.

Lutheran Schools Bar Hun Language Hillsboro, Or., May 21.—Three German Lutheran ministers, L. Stuebe, H. J. Kolb and E. W. Lucke, in charge of the parochial schools of that denomination, have issued a signed statement saying that the German language no longer would be used in the classrooms. Their announcement declares their organization is absolutely loyal and condemns the Hohenzollerns.

## HAND OF HUN IS LAID ON UKRANIA

German Domination Gives Kaiser Opportunity to Rush All Food Into the Fatherland.

Berne, May 21.—(I. N. S.)—General Skoropatski, who recently proclaimed himself hetman of the Ukrainians, has been gravely wounded in street fighting in Kiev, the capital of Ukraina, according to information received here today.

The hetman's palace was besieged and attacked several times by troops faithful to the old anti-German government.

A state of civil war in Ukraina has grown out of the revolts against Germany. General Von Elchhorn, commander of the Austro-German forces in Ukraina, has received orders to put down the rebellion.

It is now believed that the German military authorities will assume complete power in Ukraina and that the new government at Kiev will be dismissed.

Absolute domination would give Germany an opportunity to rush food and cattle to their own country from Russia and levy indemnities upon the poor peasants.

It is reported that Germany will soon declare the old paper money in Russia worthless and will substitute German currency, which will be the sole legal tender, thus forcing the peasants to turn in their Russian paper money.

Austrian Town in Flames Geneva, May 21.—(I. N. S.)—A delayed dispatch from Vienna quoting the newspaper Fremdenblatt said that the town of Rimas Zombati had been burning since last Tuesday.

Rimas Zombati is in Austria-Hungary, 73 miles northeast of Budapest. It has a population of about 600.

Expect End of War This Year Amsterdam, May 21.—(I. N. S.)—"Germany expects an honorable end of the war this year," said Von Richthofen, leader of the Left group of National Liberals in the Reichstag in an interview by the Berlin correspondent of the New Journal of Vienna, according to information received here today.

Dr. von Kuehman, German foreign secretary, was quoted in an interview in the Vienna press as saying:

"The new Austro-German alliance is not intended to divide the world into two hostile camps. The object of the alliance is to guard the world's peace."

German agents are busy in Austria endeavoring to allay the public distrust of the new compact.

## Boarder of Years Buys in Order to Keep Hotel Open

Hillsboro, Or., May 21.—The Tualatin hotel, built here in the 60's, has changed hands, the Footes, owners for several years, having sold it to William McQuillan, retired farmer and lawyer. The Footes last week advertised that they would close their dining room, after it had been open to the public for over 20 years. McQuillan had lived the major portion of the time at the famous hostelry, and when he objected to the shutting up of the dining room the proprietors told him he had better buy it. McQuillan asked the price, which is said to have been in the neighborhood of \$10,000, and he immediately paid a substantial sum to hold the bargain until deeds could be signed.

The hotel is located on Main street in the heart of the main business district and has a frontage of 66 feet, the lot running through the entire block.

## NOT A VACANT BED IS AVAILABLE HERE FOR EMERGENCY INJURIES

Two Hospitals Must Be Built Within 60 Days Unless City and County Combine.

"There is not an available bed in any Portland hospital for an emergency injury case, so crowded are the hospitals with patients. Two hospitals must be built on the University of Oregon medical school campus in South Portland within 60 days unless a combined city and county hospital is constructed."

This is what Dr. K. A. J. Mackenzie, dean of the medical school of the University of Oregon, told the members' council of the chamber of commerce, which met yesterday afternoon to discuss means of reconstruction and of retaining wounded and maimed soldiers.

Absolute domination would give Germany an opportunity to rush food and cattle to their own country from Russia and levy indemnities upon the poor peasants.

It is reported that Germany will soon declare the old paper money in Russia worthless and will substitute German currency, which will be the sole legal tender, thus forcing the peasants to turn in their Russian paper money.

Other speakers were Frank Shepherd, who has charge of war reconstruction in the Northwest, and Lieutenant Mackinnon, one of the Canadian soldiers in Portland for the Red Cross drive.

Lieutenant Mackinnon said that so effective was the work of the Red Cross on the battlefield that an injured soldier had a 90 per cent chance for recovery if he was removed from the field in six hours. He said he had treated a Red Cross hospital, and 98 per cent if sent to England.

Reconstruction will be commonwealth conference topic Professor Young of U. of O. suggests working out Post-War Needs.

University of Oregon, Eugene, May 21.—Reconstruction will be the general topic of the tenth annual commonwealth conference, to be held in Portland June 20 and 21, according to a preliminary bulletin just issued by Professor F. Q. Young of the department of economics and sociology, who is director of the conference. The reconstruction topic is divided into two parts—international after the war, and state.

Oregon's reconstruction problems are listed in the bulletin under the following headings: Land settlement; forest utilization; the problem of an economic power for factory, field and home; an adopted transportation rate system with adequate facilities; a reconstruction finance system; a reconstruction employment system; the problem of selecting a staple industry or two for which Oregon has comparatively the preferred combination of continuing advantages and fostering it on well-matured public welfare basis; and the problem of adapting Oregon's educational agencies so that the rising generations may be best equipped for the ever-increasing democratic cooperation of the future.

For the consummation of Oregon's after-the-war needs Professor Young suggests the mobilization of city officials, county authorities, agents for service in the legislature, and expert leaders for the respective developmental undertakings decided upon.

Convict Escapes From State Quarry Salem, Or., May 21.—J. W. Gordon, one of the convicts sent to Gold Hill with the honor gang employed in the lime quarry, has escaped, according to word received at the penitentiary. He was sent up from Baker county for one to seven years for larceny. He escaped once before while out with an honor gang, but was recaptured in Los Angeles.

Captain James Hall Prisoner in Germany With the American Army in Lorraine, May 20.—(U. P.)—Captain James Norman Hall of Colfax, Iowa, who was brought down behind German lines May 7, is alive in a German hospital. It was learned today. He is wounded, but not seriously.

Earl Cloyd Kills Wife San Diego, Cal., May 21.—(I. N. S.)—Earl Cloyd, an employe of the city, today shot and killed his wife, Lillian, and committed suicide. Yesterday Mrs. Cloyd asked for divorce upon the grounds of cruelty.

The Swedish navy will experiment with the use of both fuel and lubricating oils made from native shales.

## U. S. REGULATIONS FOR WOOL ISSUED

Portland Is Named as One of Six Distribution Centers of Country.

Washington, May 21.—(I. N. S.)—Government regulations for the 1918 clip of wool were issued Monday by the war industries board. Prices for the product were set some time ago and the war industries board has ample powers to curb profiteering.

The government, it was announced, shall have a prior right to acquire all the 1918 clip if necessary. Whatever remains will be subject to allocation for civilian purposes.

To provide against the possibility of railroad delay and congestion late in the season, when the crops are moving, distribution centers have been designated for both "fleece" wools and "territory" wools.

The fleece wool centers are Boston, New York, Philadelphia, Chicago, St. Louis, Detroit, Louisville, Baltimore and Wheeling, W. Va.

All "territory" wools must be consigned to one of the following distribution centers: Boston, Philadelphia, St. Louis, New York, Chicago and Portland, Or.

Fleece wool is considered as that which is grown in the states east of the Mississippi river and also the states of Minnesota, Iowa, Arkansas, Missouri, Louisiana and parts of Kansas, Nebraska, North Dakota and South Dakota. All wool not listed as fleece wool is considered territory wool.

In order that the government may have full control of the wool situation, with its operation, as far as possible, to be reserved for military purposes, it is deemed necessary to prohibit manufacturers from buying wool except in the designated distributing centers. And even then manufacturers may buy only of the government and under such regulations as the government may hereafter make, it is pointed out.

Pooling of clips by growers is advised in quantities of not less than minimum carloads of 16,000 pounds. Growers may consign the wool so pooled as one account to any approved dealer in any approved distributing center.

"Growers," says the war industries board's announcement, "are urged to adopt this latter course through county agents or others, thus eliminating the profits of the middleman."

All valuations and grading will be under government supervision and all dealers, it is set forth, desiring a permit to operate, should apply to the wool division of the war industries board, of which Lewis Passell is chief.

Daughter of Former Rose Queen Honored Pendleton, Or., May 21.—Nancy Eileen Cronan, 6-week-old daughter of Mrs. Frank Cronan, today was presented with a set of sterling silverware as a gift from the Pendleton Wool Growers' association.

The gift was presented by Sheriff Tillman D. Taylor, who reigned as King Joy at the Portland Rose Festival two years ago, when the baby's mother, then Miss

## Four More Farm Bulletins Issued By Government

Four additional bulletins of interest to farmers have been issued by the United States department of agriculture and may be obtained entirely without charge by addressing the division of Publications, United States department of Agriculture, Washington, D. C., and asking for any and all of the following:

"A Simple Hog Breeding Crate," farmers' bulletin No. 966. "Cereal Smuts and the Disinfection of Seed Grain," farmers' bulletin No. 939. "The Disinfection of Stables," farmers' bulletin No. 954. "Haymaking," farmers' bulletin No. 943.

Saling, held sway as Queen Murtel. Nancy Eileen's gift consists of a large feeding plate, a cup, knife, fork and spoon. The baby's father is in the federal service, stationed at Camp Lewis.

Spokane Teamsters Strike Spokane, Wash., May 21.—(U. P.)—Employers of the teamsters on strike here rejected today the offer of the teamsters to mediate on the eight hour

## Judge McCamant to Resign Very Soon

Salem, Or., May 21.—Justice Wallace McCamant has announced that he will resign from the supreme court bench as soon as he has cleared his desk of work now before him. This probably will be in a few weeks. He says he desires to return to his private law practice in Portland.

Governor Winyon says he will appoint a Republican nominee for supreme court justice to fill the vacancy.

Sheriff Hurries To Follow Suspect Dallas, May 21.—Sheriff Orr and Deputy Sheriff Hooker were called to Buell in the northern part of Polk county early this morning, where a residence had been robbed Monday night. The burglar was seen as he fled, and it is said he resembled Jeff Baldwin, the escaped convict from Salem. At noon today the officers had not returned.
