Paint and Excelsior Applied by Loggers
Hoquiam, Wash., May 21.—(I. N. S.)—After receiving a suit of creosote paint and excelsior at a lumber camp near Aloha, Wash., because he is alleged to have declared he cared nothing for the other men, a man whose name has not been learned is believed to be here today.

He was locked in a refrigerator car by a party of loggers, and after having had time to meditate on his words he was stripped and given the dose of paint and excelsior. His clothes were taken a mile from the town, and placed in a sack, he started for his outfit. Afterward he boarded a train for this city.

Aphis Destroying Crops
Monmouth, Or., May 21.—The aphis is destroying much of the vetch and leguminous crops in Southern Polk county, according to many farmers. Other grains are not being disturbed by any pest or weather condition and a good yield is promised. The farmers say that two or three hot days would completely destroy all signs of the aphis.

Your War Garden
If the Liberty loan drive or the primary election took so much time that you didn't get your war garden planted, it is not too late to have a very good garden.

You will find that the soil now yields more easily to cultivation than at any previous time of the year. This is due to the rains of last week. Vegetables already growing were profited amazingly by the showers. It is time now to plant the quick growing varieties of sweet corn. You ought to have a few hills of squashes. Look around your neighborhood and see if there is available some well rotted barnyard manure; mix it with thoroughly mellowed earth and make hills in which to place the squash seeds. Two or three hills of squashes, if they do well will furnish you need for next winter. Plant cucumbers in the same way, or, better, for cucumbers, place the manure in a perforated bucket or keg without a bottom and water the plants through the container.

Beans may still be grown satisfactorily, and the soil that was broken early in the season and since that time thoroughly worked over will produce beans in quality and quantity greater than those planted when the soil was still cold.

POLICE SEEK MAN IN UNIFORM AS ONE WHO SHOT EMIL SCHMITT

Condition of Victim of Shooting Is Reported to Be Favorable.
The condition of Emil Schmitt, who was shot in the abdomen Saturday night by a man wearing a soldier's uniform, was reported to be favorable yesterday. He is at the Portland sanitarium.

Schmitt told the officers that he has no relatives in this country, having come from Germany when a small boy. A soldier answering the description of Schmitt's assailant is said to have come to Portland from Vancouver in an automobile with Mrs. Esther Cull to the home of E. R. Hems at 3120 East Fifty-sixth street, southeast, and to have inquired for Schmitt's residence.

Schmitt lives at 5630 Fifty-ninth street, southeast, and the shooting occurred at 3012 Fifty-seventh street, southeast. Four shots were fired. The first pierced Schmitt, the second went through his coat and the other two went wild. Schmitt is about 29 years of age and is married.

Army officers have been notified to be on the lookout for the soldier and all outgoing trains are being watched by the police. Every soldier on the Mount Scott cars Saturday night was forced to submit himself to examination.

Five Industrial Accidents Fatal
Four Men Killed Were Loggers and One Was a Carpenter—Of All Cases Reported, 503 Subject to Law.
Salem, May 21.—Industrial accidents reported last week totaled a total of 559, according to the weekly statement issued by the state industrial accident commission. Five of the accidents were fatal, as follows: Patrick Daily, Medford, carpenter; J. Jakes, Scappoose, logger; Earl Rissue, Warrenton, logger; Music Can, Vincent, logger; A. H. Vegetables may be divided into four groups, based on their ability to withstand heat and cold. The groups are: "Planted two weeks before last killing frost—early cabbage plants from hot bed or seed box, radishes, collards, onion sets, early smooth peas, kale, early potatoes, turnips and mustard." "Planted about the date of the last

killing frost—Beets, parsnips, carrots, lettuce, cauliflower, spinach, wrinkled peas, cauliflower plants, celery seed, onion seed, parsley, sweet corn and Chinese cabbage.

"Planted two weeks after last killing frost—lima beans, pepper plants, egg plant, squashes and melons.

Beans may still be grown satisfactorily, and the soil that was broken early in the season and since that time thoroughly worked over will produce beans in quality and quantity greater than those planted when the soil was still cold.

There is still time in most sections of the west to plant a garden containing several varieties of vegetables," says a bulletin from the department of agriculture. "In some localities it is now rather late to plant such crops as peas, beets, spinach, and others that do not thrive in hot weather. On the other hand, it is too early in many sections of the west to plant the heat-loving plants such as cucumbers, egg plant and so forth.

RED CROSS SALE NETS \$1600 AT MONMOUTH; NEARLY 1000 ATTEND

Cafeteria Dinner Pays Profit of \$175, Sheep Bring \$60 Apiece.
Monmouth, Or., May 21.—The Red Cross sale held at the high school gymnasium in Monmouth Sunday added \$1600 to the local Red Cross funds. About 200 people from the southern part of the county took part in the festivities. At noon a cafeteria dinner was served, from which \$175 profit was realized. The afternoon was devoted to the general auction of chickens, livestock of all kinds, household articles and other things contributed. The fancy-wool department brought \$100 into the fund, and the children's booth of the training school netted \$75. The general auction returns were \$1200.

A. L. Stephenson of Corvallis was the auctioneer. Much of the livestock was sold at a high figure. Two sheep, of fine stock, contributed by Riddell Bros., brought \$80 each. The sale was attended by nearly 1000 people.

A Complete New Stock of Rengo Belt Reducing Corsets
\$2.50 and \$3.75 Pair
Correct fashion lines may be achieved by stout and medium figures, without selecting sizes smaller than the figure demands, if Rengo Belt Corsets are worn. Here are scientifically designed corsets, apparently no different than any ordinary corsets, yet tailored in such a manner as to reduce positively, comfortably and in accord with fashion's latest lines. All Rengo Belt models have the strength to hold and mould the figure absolutely to the designed lines—they will not break or bulge under the most severe strain that the very stoutest figure may put upon them. For that reason the size your figure demands will satisfy you absolutely and you will not suffer the discomfort of attempting to force the figure, as is usual when medium and stout women wear ordinary corsets. There are models for all figures, some with "steelastic" webbing, where extra freedom is desired—and all are boned with double watch-spring steels.

To Help the Red Cross Is Every Citizen's Duty
Now, above all times, is the time to save money, and put it at work safely, and where it will do yourself and your country most good. Our country's part in the great world war will be financial as much as military, and mobilization of dollars must go hand in hand with the mobilization of men.
