Boys Work Satisfactory

While the force available for this vork is unknown as yet, it is estimated the department of agriculture, has been working to make the service highly efficient in relieving the labor shortage in fields and orchards.

work is unknown as yet, it is estimated hat more than 500 boys aged 14 years or more will be in the camps during vacation season, thereby releasing an equal number of men for other branches of work. More than 1000 boys can be used, should that number apply.

The Hood River valley growers, for whom the boys served last year, are eagerly seeking their help this year, which is in itself sufficient testimonial of the satisfaction of the work done. Workers are paid piece wages, earnings depending upon the dexterity and physical strength of the boys. Average earnings of the boys are estimated to be about \$3 for a day of nine or 10 hours, out of which they must pay their board, amounting to about \$1 a day.

the camps are met by the growers paynishing straw for the beds and fuel for

the camp. In case the grower cannot harge is increased to 25 cents a day. A careful check is kept on all the details of the busineess transactions between the grower and the boys, by the directors and assistants who attend to DRESS SUITS for rent, all sizes. Unique Tailoring Co., 309 Stark st.
