CONFERENCE ON NEW FREIGHT TARIFFS TO BE HELD IN CHICAGO

Will Attend Meeting of Federal Railway Administration.

F. W. Robinson, traffic manager of the O-W. R. & N. Co. and chairman of the committee of freight traffic men of Northwestern lines under the federal railway administration, left for Chicago last night to confer with Regional Director R. H. Aishton and other railway administration heads regarding the application of new freight rates to be in effect June 25. Mr. Robinson and his committee held an all-day session Wedneseday and prepared an outline of the work necessary in making the new rates effective in the Northwest.

Preparation of new tariffs for the roads affected by the rate increase order will require considerable time and the distribution of these tariffs before June 25 will necessitate prompt action. It is probable that instructions will be wired from Chicago to heads of traffic departments of Northwestern lines as soon as definite methods have been decided

Local officials are uncertain as to the manner in which many rates should be worked out and await explicit instruc-It is considered probable that many rates will be worked out as arbitraries instead of adhering strictly to the percentage increase. Each line will prepare and distribute

its tariff schedules and the present committee will remain in charge of traffic business in the Northwest until discharged by the regional director. Whether a new committee will be ap-pointed probably will be determined during the conference in Chicago.

Drive Is Put Over Women Must Take Livelier Interest Than in Any Previous Drive.

Every club of women should be represented tomorrow at the Central library, when Bishop Sumner will outline the War Savings Stamp campaign. A regular called meeting has been issued to the Federation of Portland Women's clubs for 2 o'clock, but the meeting is not intended to be limited to organizations in the federation. There are many societies of women which are not affiliated with the federation and it is also desired that these be represented by as many members as possible. The fact that some clubs have adjourned for the summer should not prevent their being represented.

It is of the greatest necessity that women participate actively in the big drive of June 28 in the way of doing canvass, and also in the organization of volunteer work in the house-to house savings clubs. President Wilson's procof Violence in Cell; Attorneys May lamation, issued yesterday, lays stress on the need of these savings clubs, as well as participating in the general
