

BOTH SHIPMENTS AND ORDERS MORE THAN LUMBER CUT

Actual Shortage Is Not Unexpected in Spite of Fact Production Is Near Capacity.

MARKET IS MUCH STRONGER

Delegation to Washington on Way Home, but Did Not Learn Regarding Price to Trade.

During the last three weeks lumber manufacturers of Western Oregon and Western Washington have shipped 24,363,354 feet more than they were able to cut, and accepted orders for 4,560,444 feet more than they shipped...

The presence of retailers in the market in large numbers is an indication that they do not expect prices to lower. As a result, stocks in the hands of present prices are considered low.

Government Prices Not Expected While it is not known whether the government intends to fix the price to the trade, purchasers of lumber evidently do not expect government prices...

Following are comparative figures showing production, orders and shipments for each of the last three weeks:

Production: May 25, 76,322,548; June 1, 77,981,639; June 8, 74,724,902. Orders: May 25, 328,609,084; June 1, 337,839,296; June 8, 340,130,102.

Car Supply Is Ample The car supply is ample to care for the needs of the mills, but the unusually heavy volume of buying has resulted in an accumulation of unfilled orders.

Overseas shipments for the week were the heaviest for many months, aggregating 6,416,328 feet. The lumber that moved by water to California aggregated 3,967,982 feet.

The welcome news from Washington, D. C., that the railroad administration has exempted log shipments from the application of the 15 per cent minimum, which had been incorporated in the recent order increasing freight rates 25 per cent, occasioned much relief to the lumbermen...

Labor supply in the mills remain normal, as the movement to the harvest fields has not started. As a result, production for the week was normal, figuring the normal day on the eight hour basis.

Production on the eight hour day operation substantially 10 per cent under the production under the 10 hour operation. A group of 113 mills last week produced 65,995,103 feet.

Delegation on Way Home Officials of the West Coast Lumbermen's association, who have been in Washington, D. C., for two weeks, attending hearings before the government's price fixing committee in charge of lumber schedules, are now on their way home.

Mr. Hazen is chairman of the cost accounting committee of the association, and was the principal witness before the price fixing committee. He had charge of the composite comprehensive report recently prepared by a crew of expert accountants...

Boy Who Wanted to Join Navy Missing Francis A. Lane, the 16-year-old son of Mr. and Mrs. R. Lane of 574 Belmont street, left home Saturday evening and went to the Hammond theater, where he was last seen.

W. S. S. PAPER TO BE SENT TO EVERY FAMILY IN OREGON

Four Page Supplement Carrying Message of Thrift Is Now on Press; Full Data Are Given.

VOLUNTEERS ADDRESS CARDS

Women, Aided by County Employees, Complete Work; Ministers to Tell of Pledge Day.

One of the means of publicity for the War Savings Stamp drive, to educate the people of the importance of pledge day, is a four-page paper, or supplement, now on the press. This supplement is the effort of the promotion committee and its contents cover every phase of the War Savings Stamp information. There is a striking cartoon on the front page, one which has attracted attention throughout the country and it is flanked by the proclamation of the president and an important notice to every county committeeman in the state.

Failure of the Lincoln high school students to address 95,000 postal cards carrying the proclamation of the president for Pledge day, June 28, resulted in volunteers among men and women coming forward to their friends and undertook the work Saturday afternoon in Liberty Temple and Sunday their labors were supplemented by the deputies in the assessor's office and other offices in the court house.
