

OVER \$1,000,000 PAID TO INJURED OREGON WORKMEN

State Industrial Commission Reports on Business Transacted by Body for Past Year.

MISHAPS NUMBERED 20,769

Of Number 169 Fatal, Against 83 Who Were Killed in 1917; Industrial Activities Greater.

Salem, Or., June 20.—During the year ending May 31 workmen in Oregon contributed to the state industrial accident fund the sum of \$1,000,000, and drew from the fund in compensation benefits for industrial accidents the sum of \$1,266,427.44, according to the statement issued today by the state industrial accident commission.

The statement makes a comparison of the business handled by the commission during the past year and during the preceding year to show the immense growth in industrial accidents. The sum of \$1,266,427.44, according to the statement issued today by the state industrial accident commission.

violence monopoly. The penalty for each offense is a fine of \$500 and six months' imprisonment for the guilty officials. Officials stated that they intended to institute both civil and criminal action. Western Union officials are understood to have been placed under arrest, that the reason they sent the night letters by messenger instead of in the usual manner, was that they could not handle all of the business in their hands. The messengers, who were held, will be questioned by the grand jury.

PROSECUTIONS ARE TO FOLLOW, OFFICIAL WORD

Washington, June 20.—(I. N. S.)—An official statement issued this afternoon was as follows:

"A number of seizures of telegrams in the hands of agents of the Western Union Telegraph company, at various points between Washington and Boston, were made today on the ground that the matter was being carried by the telegraph company by private express in violation of the postal monopoly and in fraud of the postal revenues.

"For a considerable period of time the postoffice department has had information that the Western Union Telegraph company was sending telegrams by messengers in brief bags on railroad trains instead of by wire between the cities of Washington, Baltimore, Philadelphia, New York and Boston, and other points and delivered to the addressees from the offices to which they were addressed. Such messages sent in this manner constitute a violation of the postal laws and make the guilty party liable to a fine of not more than \$500 or imprisonment for not more than six months or both in each case. Section 4026 of the revised statutes provides that the postmaster general may, by letter of authority under his hand to be filed among the records of the postoffice department, empower any special agent or other officer of the postoffice establishment to make search for mailable matter transported in violation of law.

"Under this authority the postmaster general duly authorized a number of inspectors to cooperate in making simultaneous seizures from the agents of the Western Union Telegraph company, who had been previously identified as engaged in carrying these messages between the cities mentioned. The seizures were effected and more than 1500 telegrams of the character mentioned were taken from these agents of the telegraph company this morning between the points mentioned, and prosecutions will now follow."

Carlton Makes Statement
New York, June 20.—(U. P.)—The following statement regarding the raids made by the government on the Western Union company in this and other cities was given out, in printed form, at the office of Newcomb Carlton, president of the company, today:

"Mr. Carlton would not discuss the subject, as he deemed it improper to do so, since he understood the matter had been presented to the grand jury, but he did say that the public need not be surprised at any attacks that might be made against the Western Union at this time."

Charges were freely made during the recent troubles between the Western Union and its employees in Portland and Seattle that the suitcase method of transmission was employed when operators were quitting. Messengers, it was alleged, would board night trains for Seattle with suitcases full of messages which were delivered in the usual manner at Seattle next morning, just as if they had been sent by wire.

Manager W. A. Robb, it was said at Western Union headquarters today, was out of the city on a brief trip with a visiting official. Other attaches of the office professed ignorance of the procedure during the operating troubles.

One official admitted, however, that this practice might have been resorted to without his personal knowledge.

Reckless Driver Fined
For being in too big a hurry to give the police patrol the right of way and thereby causing an accident, C. E. Ombert was fined \$25 in the municipal court this morning on a charge of reckless driving.

FOOD RIOTS IN VIENNA CALL OUT SOLDIERS

(Continued from Page One)

enormous feeling in Vienna regarding reduction of the bread ration, according to dispatches received here. What is practically a general strike is said to be formulating in Vienna and Neustadt. The trouble is spreading to the provinces.

London, June 20.—(I. N. S.)—Germany has uselessly sacrificed 500,000 men since March 21, it was charged by Herr Hoffman, a Socialist member of the Prussian chamber of deputies, at Berlin, said an Exchange Telegraph dispatch from Amsterdam today.

The cablegram did not state whether or not the accusation by Hoffman was made during debate in the chamber. Germany's first big offensive began on March 21.

POLITICAL EXIGENCIES LED TO ITALIAN DRIVE

London, June 20.—(I. N. S.)—Austria's latest offensive against Italy, which began last Saturday morning, was launched for internal and political reasons, according to captured documents, said a dispatch from Rome today, quoting semi-official statement which had been issued there.

Austro-Hungarian prisoners call the new drive a "hunger offensive." "The enemy in launching his great attack responded to two strong impulses," said the semi-official statement. "First, there was the political necessity of obtaining a military success, due to the internal situation in Austria-Hungary; second, the necessity of obtaining supplies and raw materials to meet the wants of the population and the army."

SALIENT IS CLEARED BY U. S. FORCE

(Continued from Page One)

American prisoners are compelled by the Huns to work in the front lines. Donohue also said he saw Germans burying their dead, 20 to a grave, in crosswise layers.

With the American Army in France June 19, 7 p. m.—(I. N. S.)—Evidence is accumulating that the Germans are planning a strong local attack against the Americans on the Toul front.

This sector, which has been very quiet for several weeks, suddenly developed unusual activity following the repulse of this morning's German raid—the second fruitless effort by the Germans in three days.

The Boche artillery again liberally shelled the areas in the rear of our line.

Our observers report heavy train and truck movements behind the German lines in the past 24 hours.

German airmen also have been extremely active. Nine of them crossed our lines early this morning before the rain hindered the visibility.

BOX BARRAGE COMPELS FOE TO TAKE U. S. GAS

By Frank J. Taylor
With the American Army in Lorraine, June 20.—(U. P.)—The Germans suffered heavy casualties in Wednesday morning's combined first, all-American gas attack and artillery bombardment, it was established through an enemy prisoner today.

The Boches were just starting to invade the American lines when the gas containers fell in their midst, killing a great number and sending others fleeing.

After the deluge of gas subsided and the barrage died down, the Germans attempted to start their raid again, but were stopped almost in their tracks by American artillery, machine gun and rifle fire.

Correspondent in Front Trench
I witnessed this first American gas projector attack from a front line trench. Every doughboy impatiently awaited the "zero" hour which had been set at 2:30. Promptly on the second the silence was broken by a terrific explosion from our trenches.

DAIRYMEN CALLED TO MEET TO PLAN COURSE OF ACTION

President of Dairymen's League Says Industry Faces Grave Crisis.

Members of the Oregon Dairymen's league have been called to special session next Saturday morning at 10 o'clock at the Central library to outline a further course of action in the milk supply controversy which now threatens to become serious.

In a letter, explaining the importance of the meeting, Alma D. Katz, president of the league, says:

"Matters have come up of the gravest importance concerning the dairy industry. If there ever was a time when you should leave your hay, your silage, your corn or whatever it may be, that time is next Saturday, June 22. If the dairy industry is to survive and receive the protection that it is entitled to, facing as it does an increase in costs of grain, hay, labor, and everything that goes into the production of milk, then a united and 100 per cent action must be taken at once."

"The producers supplying Portland with milk and the producers supplying the dairies with milk, must have an increased price if the industry is to survive during the next few months."

"Selfish interests are busy endeavoring to thwart this move. Don't fall to."

Rev. J. H. Leiper
1753 Haven St.

Writes Letter Which May Be of Great Interest to Skin Sufferers of This City.

1753 Haven St., Portland, Ore.

For about fifteen years I had been afflicted with eczema and had tried many remedies to very little purpose and no cure. Somewhat in desperation I went into a drug store and asked the druggist if he had any remedy for that most annoying disease. He told me the story of a friend of his who had been similarly afflicted but according to his description far worse than I, and who had been completely cured by D. D. D. The druggist advised me to try a bottle and if no benefit resulted from its use to return the empty bottle and money would be refunded.

I was soon convinced, before the bottle was half empty that I had at last found medicine that was not a deception. I persevered until the third bottle was opened and partly used. The answer was so great that I feel it my duty to make known the above facts to the public without money and without price that others similarly afflicted may make trial of this remedy that has given me such entire relief. I send this statement to the authors of this medicine that they may use it in extending the knowledge of the remedy D. D. D.

(REV.) J. H. LEIPER.
D. D. D. the liquid wash, has become a household word. It has proved itself a remarkable remedy. If you are suffering from skin diseases, this remedy will not disappoint you. It has stood the test and today is the master preparation for all skin diseases.
