Independence for the Housewife BREAD "Sweetest of them all" At Grocers

TRIP AROUND OREGON OUGHT TO BE TAKEN BY ALL BUSINESS MEN

Special Commissioner of W. S. S. Is Convinced After Himself Taking Long Journey.

"It's a long way around Oregon but no matter how much it costs there isn't a man in Portland who can afford not to take the trip."

This is the conviction brought back to Portland by A. G. Clark, manager of the Home Industry league. As a special commissioner of the Oregon War Savings committee, Mr. Clark visited the principal towns in Union, Willamette, Baker, Malheur and Harney counties. He not only went over the situation in each county with the local committees, but he delivered widely quoted war thrift addresses in La Grande, Enterprise, Baker, Ontario, Crane and Burns.

W. S. S. Outlook Is Good "The outlook for success in Union and Baker counties was very good," said Mr. Clark. "I found that in Walla Walla, Malheur and Harney counties protracted dry weather had been cause of some discouragement which was rectified by a degree of depression in plans for patriotic investment. This, however, is no reflection upon the patriotism of the people in those counties. It is a matter of the local committees, eager to do their utmost in every service asked of them by their government."

Mr. Clark used the railroad and stage routes in making his journey. "I saw numerous towns that gave promise of going rapidly ahead," he said. "I saw, too, ghosts of towns—communities that have lost reason for their existence since the state went dry. Will always take lunch."

"I returned to Portland with an abiding determination never to start on another automobile trip between Burns and Bend without a generous lunch in my grip. The other day I was in Burns in Rattlesnake canyon when the stage auto stopped. The driver investigated. His gasoline tank was empty. He called for a gas can and I went in one direction and he in another. There was nothing to be gained by trying to walk, so all we could do was wait until the stage bound from Bend to Burns should reach us. The other day I had eaten a breakfast and the realization that no food was available made me hungrier. If possible, than I would have been otherwise. The other day I had eaten a breakfast and let us have some gasoline. When we got to Brookings station we found that the folks had kept a meal warm from noon until 5:30, and food never tastes so good."

The Burns detective agency traced him to his apartments in a fashionable Nob Hill house.

Mrs. Elvy A. Mountain (nee Elvy A. Berg) was arrested with Jones and being held for investigation. It is alleged that the woman signed checks as Mrs. H. L. Jones. Both are said to have admitted to the officers that they are guilty of the felony. BUY W. S. S.

Smoker Is Blamed For Sunday Blaze

Fire, started by a careless smoker, according to the fire marshal, damaged a small frame dwelling and the paint shop of W. F. Blaesing at Third and Jefferson streets, Sunday afternoon. A pile of rubbish between the house and the shop was ignited and the flames spread to the sides of both buildings. Two loud explosions from cans of chemicals occurred. In the excitement two men started to fight in the burning house and a woman fainted, after she had bumped into a door in her attempt to escape.

The paint store was damaged more by smoke than by fire but the rear half of the dwelling was completely destroyed. BUY W. S. S.

EDDIE HEARNE LIKES PLANS FOR DIVIDING TACOMA RACE PRIZES

The Journal Auto Party Leaves at Midnight, July 3, for Big Racing Event.

Eddie Hearne, who has arrived at Tacoma to drive in the 150-mile Liberty sweepstakes, July 4, against Earl Cooper, Eddie Pullen, Cliff Durant and Dave Lewis for a \$15,000 purse, never before has raced on the west coast.

Hearne is greatly pleased with the provision calling for the 150 miles to be run in three heats with every heat a race and with money provision for each event. It is the first time that such an arrangement has been made, for points are to be counted in each race and the driver making the highest number of points wins the grand prize.

Realizing the stress of the times and the inability of many motorists to make long outings, The Journal-Auto Rest party will assemble at The Journal office and leave Portland at midnight July 3, running on a schedule calculated to get the party to Tacoma at 7:30 a. m., for breakfast.

The soldier attendance from Camp Lewis and the opportunity of a visit to the greatest canyon in America is further reason for joining The Journal party.

The service end of the tour will be under the direction of Quartermaster perintendent of service at the Auto Rest garage and he will have two machines with him, one for tire trouble and the other for any mechanical emergencies.

To assure those who wish to make the trip under this chaperone every comfort, The Journal has arranged for small windshield cards for identification while on the road and at Tacoma. These must be secured before starting on the trip at The Journal office, any time before midnight of July 3 or at the time the journey is begun.

The Pacific highway to Seattle is now in splendid shape, with the biggest part of it paved or macadamized. In but one or two places is there road work going on but most of it will be trip over smooth roads making the pace set by the leaders most easy and comfortable.

WHITE FLOUR WILL BE ON MARKET AGAIN AFTER FIFTH OF JULY

Food Administrator Gives Word That Emergency Is Passed; 50-50 Basis to Return.

White flour will again be on the market July 5, according to letters from W. B. Ayer, food administrator for Oregon, to dealers of the state, permitting them to resume their sales, on the fifty-fifty basis.

The emergency no longer exists, according to the food administrator. Oregon patriots having turned back from 17,000 to 18,000 barrels of flour to be sent by the government to France, and no more will be sent until after the new crop comes from the mills.

Nearly every county in the state, upon the inauguration of the wheatless campaign, voluntarily adopted a wheatless regime and returned large stores of flour to the government. About half the counties agreed to remain wheatless for one month, while others extended the period to two months or until harvest.

The letter sent by Mr. Ayer to the flour dealers is as follows: "On May 25 Mr. Hoover made an appeal to the people of this nation, through the chutes, to abstain from the use of wheat flour until the next harvest. In reply to this appeal Oregon voluntarily went on a wheatless basis, the dealers of the state agreeing not to sell wheat flour and to return for shipment to our army in France all flour that was returned to them. I am not able to state the total amount that was voluntarily returned, as it has not all been received and checked up, but it will amount to between 17,000 and 18,000 barrels, a magnificent record and one of which the people of the state may well be proud.

Must Have Certificates "As the crop from last season's harvest has been practically exhausted the government will only be able to dispatch one more flour cargo from this port to France until the new harvest is available. For this reason the food administration in Washington has given full sanction to my suggestion that, commencing July 5, we return to the sale of wheat flour on the fifty-fifty basis, and all rules and regulations governing the sale of wheat flour will be in full force and effect, and sales can only be made by selling at the same
